SWIMMING

World's amateur records and recognized authentic performances, embracing England, Australia and America, compiled by J. H. Sterrett, Amateur Athletic Union and Philadelphia Swimming Club, and author of "How to Swim."

The following are the world's best authentic records to date. In England and Australia records at all distances up to and inclusive of 500 yards must be made in baths not less than 25 yards long; above 500 yards, in open still water, over a course not less than 110 yards in length. In this country, while the rules do not prescribe the conditions, no records are acknowledged under other than the English requirements, except that in bath performances the minimum length of course is placed at 20 yards:—

- 20 Yards—America—bath, straightaway, 10s, J. Scott Leary, Chicago, February 15, 1902; feet and knees tied, bath, straightaway, 12s., J. A. Ruddy, Chicago, March 8, 1901.
 25 Yards—America—bath, straightaway, 12 3-5s, W. C. Miller, New York City, December 12, 1901; feet and knees tied, bath, straightaway, 15s, J. H. Dailey, New York City, March 10, 1899.

- At the Massachusetts Interscholastic A.A. track meet at Amherst, Mass., on June 20, Springfield high school carried off the honors, rolling up a total of 86 points. Westfield secured 24, Holyoke, 13, and Amherst, 10. Gillett, of Westfield, scored 15 points, winning the 100, 220, and high jump.
- On May 16, Boys' high school beat Poly. Prep. in a dual meet at Brooklyn by a score of 67 to 59. E. C. Jessup, of the Boys' high school, who won the 100 and 220 yards dashes, junior and senior, and R. North, of Poly. Prep., who accounted for the half and the mile, were the stars of the meeting.
- At the games held by Trinity school on May 16, at Columbia Oval, New York, Dwight school won the cup with a score of 27 1-2 points. The other participants finished in the following order: De Witt Clinton, 16; Morris high school, 10. Captain Ellingwood, of Dwight, won the quarter and mile.
- The Kiskiminetas Springs school won the interscholastic championship of Western Pennsylvania on June 6 at Pittsburg by a score of 48 1-2 points. Pittsburg high school was second with 43 1-2; Washington and Jefferson Academy was third with 30 1-2, and Allegheny Prep. was fourth with 19 1-2.
- At Middletown, Conn., on May 30, Springfield high school won the Wesleyan interscholastic track meet with a score of 48 1-3. Hartford was second with 30 1-3; Westfield was third with 24 1-3; New Britain was fourth with 10 and Meriden was fifth with 4. Gillett, of Westfield, won the 100 and 220 dashes.
- At St. Louis on May 30 the American School of Osteopathy of Kirksville, Mo., won the Missouri Intercollegiate A.A. meet by a score of 63. Warrensburg Normal was second with 29, and Christian Brothers' College third with 25. Crowley, of A.S.O., was first in 100 and high and low hurdles and second in 220 dash.
- At Fitchburg, Mass., on June 6, Gardner high school won the interhigh school athletic meet with a total of 42 3-4 points. Fitchburg, with 23 3-4; Leominster, with 18 1-4; Murdock, with 5 1-4, were next in order. Geary, of Leominster, secured the individual honors, winning the 100, 220 and 440 and capturing second in the high jump.
- At Pingry Oval, Elizabeth, N. J., on June 6, Newark Academy secured 57 1-2 points, winning the championship of the New Jersey Interscholastic A.A. The other schools participating finished in the following order: Montclair high school, 30; Newark high school and Stevens Prep., 22; East Orange, 16, and Montclair Military Academy, 6 1-2.
- At Patchogue, L. I., on May 23, Southampton high school won the honors at the Suffolk County interscholastic meet with a score of 36. The remaining teams finished in the following order: Patchogue, 27; Riverhead and Bayport, 13; Sayville, 12; Southold, 5; Easthampton and Greenport, 2. Louis V. Fowler was the star, scoring 20 points.
- At Ithaca, N. Y., on May 16, Cornell defeated Pennsylvania 66 1-2 to 50 1-2 points. F. M. Sears, the 220 yards champion of 1901, won the 100 in 10s. and the 220 in 21 3-5s. Amsler of Pennsylvania won the high hurdles in 15 3-5s. and Baird of Pennsylvania won the pole vault at 11ft. 4in. G. P. Serviss, Jr., of Cornell, won the high jump with a jump of 5ft. 11in.
- At Cambridge, on May 9, the Harvard seniors won the annual class games, scoring 37 1-2 points. J. J. Tingley broke the Harvard record with a post of 44ft. 7 1-2in.; J. Haig' won the quarter in 49 2-5s. Colwell, Harvard's crack two miler, went a very fast two miles. Schick won the 100 in 10 1-5s. and the 220 in 22s. flat. The other performances were ordinary.
- At New York City, on June 16, Columbia defeated Princeton by a score of 58 1-2 to 45 1-2 points. De Witt of Princeton won the hammer throw with 165ft. 9in., breaking the former collegiate record of 165ft. 1-2in., held by Flaw of California. Bishop of Columbia won the quarter in 54s. Weekes, Columbia's football captain, won the 100 and 220 yard dashes. The track performances were all good, considering the condition of the track.

- New York University and Trinity College (Hartford) met in a dual meet at Ohio Field (New York University) on May 9. New York University won by a score of 85 to 27 points. H. N. V. Connolly, New York University, made new records in the discus and shot. The best performance of the day was Siberman's half mile in 2.01 1-5s.
- The Seattle high school won the Interscholastic A.A. championship of Western Washington with a total of 73 1-2 points. Winsor, of Seattle, won the 50, 100 and 220 dashes, the high hurdles and the broad jump. The score by points follows: Seattle high school, 73 1-2; Tacoma high school, 42; Whatcom high school, 14; Everett high school, 9 1-2; Ballard, 4; Port Townsend, 1.
- The annual Interscholastic meet of the Central Illinois high school was held at Galesburg, Ill., on May 9, under the auspices of Knox College, and was won by Taylorville School with 20 points. Several of the performances were good for schoolboys. Dunbar's quarter in 52s. and the hammer throw of Evvard (Pontiac high school) of 156ft. 2in. were two very meritorious performances.
- The Morristown school held its annual field day and invitation dual meet with Newark Academy at Morristown, N. J., on May 30, and won by a score of 45 to 35 points. The feature of the meet was the showing of G. M. W. Kobbe of Morristown School, who was entered in five events. He won first in each and set new school records for the 100 yard dash—10 2-5s.; 220 yard dash—23s.; 440 yard run—55 3-5s.
- At San Francisco, on May 2, Abadie of the University of California ran the 50 yards scratch in 5 3-5s. Plaw threw the 16lb. hammer 168ft. 10in., and Ralph Rose, a schoolboy, put the shot 45ft. 6 1-2in. Rose is only eighteen years of age. In the Academic League of California meet, Prep. School Championships, he put the 16lb. shot 44ft. 10in. and the 12lb. shot 52ft. 22-100in., making new interscholastic records.
- At the Vassar College games on June 16, five records were broken: Standing broad jump, by Evelyn Gardner, '04, 7ft. 7in.; running broad jump, also by Miss Gardner, 14ft. 6 1-2in.; running high jump, by Miss Helen Wood, '04, 4ft. 2 1-2in.; 200 yards run, by Miss Agnes Wood, '03, 30 3-5s., and the 50 yards dash, by Miss Agnes Wood, 6 3-5s. In the 100 yards dash, Miss Fanny James, '04, equaled her own record of 13 1-5s.
- The two most important American collegiate athletic events were held May 30, one in the East, the Intercollegiate A.A.A.A. annual championships, and one in the West, the Intercollegiate Conference. A comparison of the performances will be interesting; 100 yards, Eastern, Arthur Duffey, 9 4-5s.; Western, Clyde Blair, 9 4-5s. 120 yard hurdle, Eastern, E. J. Clapp, 15 3-5s.; Western, Catlin, 15 4-5s. Mile run, Eastern, W. A. Colwell, 4m. 30 3-5s.; Western, Hearn, 4m. 32 3-5s. 440 yards run, Eastern, J. E. Haigh, 50 1-5s.; Western, Taylor, 52 3-5s. Two mile run, Eastern, W. E. Schutte, 9m. 40s.; Western, 10m. 02 2-5s. 220 yards run, Eastern, M. T. Lightner, 21 3-5s. (in a heat); Western, Hahn, 21 3-5s. 220 hurdle, Eastern, E. J. Clapp (in a heat), 24 4-5s.; Western, Catlin, 25 1-5s. Putting the 16lb. shot, Eastern, F. G. Beck, 46ft.; Western, Rothgeb, 40ft. 3 7-8in. In the trials at the Eastern meet, out of twelve competitors entered, ten put the shot 40ft. or more. High jump, Eastern, R. P. Kernan, 4ft. 1in.; Western, 5ft. 11in. Running broad jump, W. P. Hubbard, 22ft. 4 5-8in.; Western, Davis, 21ft. 8 4-5in. Pole vaulting, Eastern, H. L. Gardner, 11ft. 7in.; Western, Dvorak, 11ft. 9in. Throwing the hammer, Eastern, John R. DeWitt, 155ft. 8in.; Western, 129ft. 2in. In the Eastern meeting, of ten competitors in the hammer, six threw over 129ft. Half mile run, Eastern, Adsit, 2m. 04 2-5s.; Western, Hall, 2m. 02 3-5s. The thirteen events on the programme of the I.A.A.A. had two hundred starters, the largest number starting in the mile run and the broad jump, each having twenty. The half, the high and the pole had eighteen men each. The smallest number of starters was in hammer—ten; in the 100, 200 yard hurdle, the shot, twelve men competed in each. There is no doubt whatever that the pole vaulters gave the greatest exhibition ever witnessed. Fifteen men cleared 10ft. 6in.; eight men cleared 11ft.; two men cleared 11ft. 1 1-2in.; three men cleared 11ft. 3in., and one man cleared 11ft. 7in.

PHYSICAL CULTURE.

For the first time in the history of Physical Culture, this great factor in the welfare of society is officially recognized as a special department by the Exposition. An appropriation has been made for this purpose. A gymnasium, which is to be a permanent one, has been erected upon the Exposition site, as also a stadium with a seating capacity of 35,000.

Within this stadium are to be held, during the season 1904, all known sports, for which valuable prizes are offered. The famous Olympic Games may be designated as the most important feature of this remarkable athletic festival. These will last an entire week and it is the intention of the management of the Exposition to make the Olympiad of 1904 the greatest ever held. The first of these modern Olympiads—which are the reproduction of the famous games of ancient Greece—was held at Athens in 1896, when an American astonished the world by winning the discus throwing championship. The second series of Olympic Games was held at Paris in 1900 in connection with the Paris Exposition, where they were a world's attraction, and where American athletes won nine-tenths of the prizes. The representatives of athletics in America propose that nothing shall be left undone to make this first American Olympiad a phenomenal success. A special American Committee has been organized in addition to the International Committee of the Olympic Games to this end.

ATHLETICS.

The programme of World's Championship contests, which is scheduled to take place during the Olympic year, is without question the greatest programme of its kind ever arranged. It will include the Handicap Meeting, the Junior Championships, and the National Championships of the Amateur Athletic Union of the United States, World's Contest at Bicycling, Olympic Interscholastic Championships, Swimming Championships, open to the swimmers of the world; Plunging Contests, Fancy Diving and the Water Polo Championships. Lawn Tennis is well taken care of, one week having been set aside for this sport. World's College Championships will be held, as well as sectional events. Several days have been set aside for Mass Exhibitions by Turners, and two days will be devoted to the Turners' International Individual and Team Contests. The All Around Championship will be held on July 4, and will be open to the athletes of the world. Three days will be devoted to International Lacrosse; and Basket Ball Championships for the schools, Y.M.C.A.'s, Athletic Clubs and Colleges will extend over several days. Irish sports, including Hurling and Gaelic Foot Ball, will occupy four days. An Interscholastic Championship, open to the schools of the world, will be given, occupying two days. The World's Fencing Championships will occupy three days, two days will be set aside for Cricket, and a Military Carnival will extend over a week. Two days will be devoted to the Wrestling Championships, and the amateur gymnasts of the world will be given several days to contest for Olympic honors. A Relay Racing Carnival, open to Schools, Athletic Clubs, and Y.M.C.A.'s, will extend over a period of several days. College Foot Ball will receive attention, many days having been set aside for this game. Association Foot Ball will occupy several days in the fall of the year, and the World's Cross Country Championship will occupy one day. The National game of Base Ball will be played by Schools, Colleges, and professional organizations, the intention being to have the two major leagues play for the World's Championship in conjunction with the Olympic series.

**PHYSICAL
TRAINING
PROGRAMME.**

This section of the Olympic Games will be arranged on a broad plane so as to cover the educational and scientific phases of the subject as adequately as the competitive part. The practical side of physical training will be demonstrated by a comprehensive display of exhibits, comprising:

1. School Gymnastics by classes from the various grades of public schools, showing the German, Swedish and other methods.
2. School games as conducted in the school room by grades, school games practiced in school yards, and the various gymnastic games practiced in the many gymnasiums of this and other countries for persons of all ages.

3. Gymnastics as applied to the training of soldiers.

4. The methods pursued by the great gymnastic organizations of the country, the North American Gymnastic Union, Young Men's Christian Associations and similar institutions, will be fully set forth. There will also be an exhibit of popular Swedish gymnastics, and a representative collection of photographs, charts, diagrams, catalogues, circulars, programmes, etc.

Exhibits of this nature are being invited from those nations where physical training in the schools is under Government supervision. American cities where physical training is conducted as part of the school system are also being invited to contribute exhibits. Associations making a specialty of and institutions giving attention to physical training will be asked to co-operate, including the Amateur Athletic Union, the Canadian Amateur Athletic Union, the North American Gymnastic Union, Young Men's Christian Associations, Colleges, Preparatory Schools, Grammar Schools, High Schools, Churches, Social Settlement Organizations, Young Women's Christian Associations, Hebrew Young Men's Associations, and the athletic organizations of foreign countries. The play-ground movement in this and other countries will be illustrated. There will be a complete collection of physical training text books, scientific apparatus for use in examining the body, anthropometrical material, charts, photographs, etc., plans of gymnasiums, play-grounds and athletic fields. Normal schools of this and other countries will demonstrate their work, courses, equipments and publications by comprehensive exhibits.

An entirely new feature will be the holding of Physical Training Conventions, lectures and popular addresses. Arrangements are being made with the following and other institutions to hold Conventions at St. Louis during the Exposition: The American Physical Educational Association, Physical Directors' Society of the Young Men's Christian Association, College Physical Directors Society, Society of Secondary Schools Physical Directors, North American Gymnastic Union Physical Directors, Public School Physical Directors and the American School Hygiene Association.

The unique feature of this series, however, will be the World's Olympic Lecture Course, during which the following topics will be treated, and lectures given by the greatest authorities on Physical Training in the world:

History of Physical Training.

Psychologic and Sociologic Aspects of Physical Training.

Physical Training of Truants, Defectives and Delinquents.

The Physiology of Exercise.

Gymnastic Therapeutics.

The Management of Athletic Contests.

Dancing for Schools.

Theory and Practice of School Gymnastics.

Theory and Practice of School Games.
 Anthropometry Methods.
 School Hygiene, Pedagogy of Physical Training.
 The Adaptation of Physical Exercise to the Conditions of Modern Life.

Organization and Administration of Physical Training.
 Divergent Effects of Uniform Physical Training upon Different Individuals.

It is also proposed to have a course of popular addresses which will include the following topics:

The Influence of Manly Sports on Peoples.

The Moral Phase of Athletics.

The Place of Physical Training in Education.

The Development of the City as Related to the Health of Children.

The Play of City Children.

New Conditions of Civilization which make Physical Training Necessary.

Regulations for Olympic Games.

All athletic contests in conjunction with the Olympic games that are open to amateurs and not controlled by other associations will be held under Rules of the Amateur Athletic Union of the United States.

Entry Blanks.

All entries for individual and team competitions that are to be held in conjunction with the Olympic games of 1904 must be made on the official entry blank.

NOTE.—The entries of amateurs from foreign countries must be made on regular blanks and each contestant must forward with his entry a statement that he is an amateur according to the rules of the body that governs amateur sport where he resides. Upon presentation of such certificate the Western Association of the Amateur Athletic Union of the United States will grant to the visiting athlete an honorary registration card good for the year 1904, which will entitle him to compete in all amateur events that are to be contested.

PROGRAMME OF EVENTS.—OLYMPIC GAMES.

AUGUST 29 TO SEPTEMBER 3.

The following events are open to amateurs of the world, and are held under sanction and rules of the Amateur Athletic Union of the United States.

Monday, August 29.—60-metre run; throwing the 16-pound hammer; 400-metre run; 2,590-metre steeplechase; standing broad jump; running high jump.

Tuesday, August 30.—Marathon Race, 40 kilometres.

Wednesday, August 31.—200-metre run; putting the 16-pound shot; lifting bar bell; standing high jump; international tug-of-war (trials), teams of five men each, weight unlimited; 400-metre hurdle.

Thursday, September 1.—800-metre run; throwing 56-pound weight for distance; 200-metre hurdle race; running broad jump; running hop, step and jump; tug-of-war (final); dumbbell competition, first section.

Saturday, September 3.—100-metre run; throwing the discus; dumbbell, second section; 1,500-metre run; 110-metre hurdle; pole vault for height; three standing jumps; international team race, each country to start 5 men.

Handicap Events.

In connection with the above scratch events for the championship of the world, the following handicap events will be given.

Monday, August 29.—120-yard hurdle; running broad jump; 880-yards run; putting the 16-pound shot.

Wednesday, August 31.—One-mile run; 100-yards run; high jump; pole vault.

Thursday, September 1.—220-yards run; 220-yards hurdle; throwing the discus; throwing the 56-pound weight for distance.

Saturday, September 3.—60-yards run; 440-yards run; throwing the 16-pound hammer; team race, handicap, 1 mile, teams of four men, each man to run 440 yards.

PRIZES.

In world's championship events, an appropriate gold medal emblematic of the Olympic Championship will be given the winner in each event, a silver medal to second, and a bronze medal to third.

An entrance fee of \$2.00 per man for each event will be charged. Entries close with James E. Sullivan, Chief of the Department of Physical Culture, Universal Exposition, St. Louis, Mo., August 1, 1904. The right to reject any entry is reserved.

PRIZES FOR HANDICAP EVENTS.

Handsome gold medal to first, silver to second, and bronze to third in each event. An entrance fee of fifty cents per man must accompany each entry. The right to reject any entry is reserved.

The International Tug-of-War will be pulled on dirt and no belts allowed. The distance from the center of the rope to the first man shall not be less than six feet. A team gaining six feet on its opponent shall win the pull. The time duration shall be five minutes. At the expiration of that time the team having the advantage wins the pull. Foreign teams can be made up of residents of United States and Canada.

WHAT TO WEAR AND USE

It is very important that the beginner in athletics should know what to wear for the different sports. The cross country runner requires a shoe with a low, broad heel, and spikes in sole of shoe; he can have spikes in the heel or not, just as it suits him. A pair of Spalding's No. 14-C shoes, which are made of the finest Kangaroo leather, and used by

Cross Country Shoes

all the prominent cross country runners, cost \$5.00 per pair. A sprinter will require a pair of sprinting shoes, No. O, that retail for \$5.00. It was with this style shoe that Wefers made all his records. John Cregan, the Inter-collegiate Champion, wore

Sprinting Shoes

them, as well as Charles Kilpatrick, the peerless half-mile runner and celebrated record holder, and Arthur J. Duffey, who has gone the 100 yards in 93-5 seconds. The sweater, No. A, of finest Australian lamb's wool, was made originally by special order for the Yale foot ball team

and now used by all college athletes, is one of the best in the market, sells for \$6.00; athletic shirt, No. 600, at \$1.25; athletic pants, No. 3, at 75 cents; a supporter is very essential for an athlete and nearly all the champions use them; No. 5 is the most suitable one and retails at 75 cents; a pair of corks will cost the athlete 15 cents; pushers for the running shoes, 25 cents; the bath robe is now an essential part of an athlete's outfit—these retail at \$5.00. This complete outfit costs \$19.15.

The second quality of the same line of goods can be bought as follows: Sprinting shoes, No. 10, \$4.00; sweater, No. B, \$5.00; shirt, No. 6 E, 50 cents; pants, No. 4, 50 cents; supporter, No. 2, 50 cents; corks, No. 1, 15 cents; pushers, No. 5, 25 cents; bath robe, \$3.50. This second grade outfit costs \$14.40.

The pole-vaulter will want the same outfit, with the exception of a pair of jumping shoes, No. 14-H, which sell for \$5.00, and a pair of wrist supporters, No. 200, which can be bought for about 35 cents. There is one article that a pole-vaulter must have, and that is his own pole.

There is an awful lot in getting used to a pole and having confidence in the one that is yours, because no other contestant is allowed to use it according to the rules, which is quite right, for we have often seen a pole-vaulter make the fatal mistake of allowing much heavier men to use his pole and break it. Any one can naturally understand that a man who weighs 160 pounds cannot use a pole designed for a man weighing 115 pounds. The best pole on the market for athletic purposes is the 15-foot 6-inch pole as supplied by A. G. Spalding & Bros. to the Prince-

Jumping and Hurdling Shoes

ton University A. A. This pole is made of hollow spruce, thus being much lighter, and owing to a special preparation with

Intercollegiate Sweater

which it is filled, the strength and stiffness is greatly increased. It retails for \$10.50; a 14-foot pole, hollow, retails for \$9.50, and the solid for \$6.00. Usually the vaulter will wrap the pole to suit his own tastes.

The high jumper and the broad jumper will want an outfit as follows: Jumping shoes, No. 14-H, \$5.00; sweater, No. A, \$6.00; shirt, No. 600, \$1.25; pants, No. 3, 75 cents; supporter, No. 5, 75 cents; corks, No. 1,

15 cents; pushers, No. 5, 25 cents; bath robe, \$5.00.

An outfit with several of the articles of a cheaper grade than the above, costs: Jumping shoes, No. 14-H, \$5.00; sweater, No. B, \$5.00; shirt, No. 6-E, 50 cents; pants, No. 4, 50 cents; supporter, No. 2, 50 cents; corks, No. 1, 15 cents; pushers, No. 5, 25 cents; bath robe, \$3.50.

The man who throws the weights will require the same wearing apparel as the pole-vaulter or the runner. John Flanagan and James Mitchel, two of the greatest weight throwers in the world, wear what is known as the No. 14-H shoe, with a short spike, which retails for \$5.00. It is very essential that the weight thrower should have his own implements; in fact, nearly all the champion weight throwers carry their own weights with them and guard them jealously.

Without doubt the best hammer in the market to-day is the ball-bearing championship hammer as designed and used by John

Flanagan, the record holder and champion thrower of the world. This sells for \$10.00. An extra leather case for carrying these hammers will cost the athlete \$2.00. The regulation hammer, lead, you can get for \$4.50 and the iron at \$3.25. The 16-pound shot, lead, will cost \$2.50, and the iron, \$1.50. The 56-pound weight, lead, will cost \$8.50, and the iron \$7.00. I would advise any weight thrower who wants to become expert to carry his own weights and particularly his own hammer. He can then arrange to have the grip made to suit himself, and when necessary to cover it with leather, and he will not be called upon when he goes to a competition to take the ordinary hammer with a handle with which he is not familiar.

Sleeveless Shirt

Athletes should make it a point to have two suits of athletic apparel, one for competition and one for practice purposes. The clothing that some of our crack athletes wear in competition is a disgrace to athletics, and it adds a great deal to an athlete's appearance to appear neat and clean when taking part in athletic competition. In practice within one's club or grounds almost any kind of clothing can be used. A sprinter should have two pairs of running shoes, one a very heavy pair for practicing in (the cross country shoe, No. 14-C, makes a very good shoe for this purpose, and can be had with or without spikes on heels), and a light pair for racing. One of the best professional sprinters that ever wore a shoe made it a point to train for all his races in very heavy sprinting shoes. Aside from the benefit

Running Pants

Aside from the benefit

that is claimed for practicing in heavy shoes, you always feel as though you have a pair of shoes that will be ready for any race that is scheduled, and bear in mind it does not pay to buy athletic implements or clothing that are cheap. They don't wear and cannot give you the service that you will get from articles that are official and made by a reputable house.

Athletes and athletic club officials would do well to procure a copy of the Athletic Primer (No. 87) of Spalding's Athletic Library). This book fully covers the construction of athletic grounds and tracks, the management of games, formation of new clubs, etc. It also contains illustrations and diagrams of what might be considered a perfect athletic track.

In laying out or re-arranging grounds great care should be taken to see that the field sports can go on without interference, and in the management of a large meeting it is very essential that more than one field sport should go on at one time. Therefore it should be arranged to have the running broad jump, running high jump,

Take-off Board.

and the circles for weight-throwing separated. In order to have your plant as perfect as possible, it is necessary that you have all the apparatus that is necessary, not only to conduct an athletic meet, but to give the different athletes an opportunity to practice the various sports.

Toe Board or Stop Board.

There are many things that are required. Great care should be taken in the arrangement of the broad jump. The toe board is a very important article and is generally overlooked, and the runway requires as much attention as the track. At the average athletic grounds the jumping path is usually neglected.

Lanes for Sprint Races

In the sprint races, wherever possible, each contestant should be given his own lane. A lane can be made of iron stakes driven in the ground about eighteen inches apart and strung with cords.

For the pole vaulters and high jumpers you should procure two sets of wooden apparatus—Spalding's complete apparatus

No. 109. If the pole jump and high jump go on at the same time, an extra lot of cross-bars should be on hand and three or four different poles.

The regulation 56-pound weight, known as the "Mitchel" weight, can be secured for \$7.00.

Regulation 56-Lb. Weight

Regulation 16-Lb. Hammer

For the weights you will be required to furnish a 16-lb. Spalding Championship Ball Bearing Hammer, as originally designed by Champion John Flanagan. It is now universally used by all the good weight throwers. The ball-bearing swivel hammer is in great demand and favored. It does away with the breaking

of handles, and Flanagan claims it can be thrown many feet further than the old style hammer. Schoolboys invariably use the 12-pound shot and the 12-pound hammer. If they desire lead shot, it usually costs a little more than the iron. The 16-pound iron shot can be bought for about \$1.50, and the 12-pound for \$1.25.

Shot

The most suitable hurdles on the market are the Foster Patent Safety Hurdles. The frame is 2 feet 6 inches in height with a horizontal rod passing through it two feet above the ground. The hurdle is a wooden gate 2 feet high swinging on this rod at a point 6 inches from one of the sides and 18 inches from the other. With the short side up it measures 2 feet 6 inches from the ground, and with the long side up 3 feet 6 inches.

Foster Patent Safety Hurdle
at 2 ft. 6 in. heightFoster Patent Safety Hurdle
at 3 ft. 6 in. height

The hurdle can be changed from one height to the other in a few seconds, and is held firmly in either position by a thumb-screw on the rod. It would be hard to conceive any device more simple or more easily handled than this. The invention was used exclusively at the Pan-American Sports and has met with the approval of the best known physical directors and trainers of the country.

The Spalding Official Discus should always be on the grounds. This retails for \$5.00.

A megaphone is now a necessary adjunct to an athletic meeting. With a megaphone almost any amateur can announce the results distinctly.

Megaphone

Official Discus

Starter's Pistol

The captain of the club should endeavor to have in his possession a pistol so that the boys can practice starting, and a whistle for announcing that everything is ready for a start and also for attracting the attention of the officials, several measuring tapes and several balls of yarn for the finish.

Whistle

Measuring Tape

The athlete is also advised to consult the following books which contain a great deal of useful and necessary information on their respective subjects :

No. 27—*College Athletics*. M. C. Murphy, America's foremost athletic trainer, now with Yale, is the author, and it was written especially for the schoolboy and college man. Illustrated from photos of college champions.

No. 87—*Athletic Primer*. Edited by J. E. Sullivan. Tells how to organize an athletic club, how to construct an athletic field and track, how to conduct an athletic meeting, with a special article on training. Fully illustrated.

No. 135—*Official Handbook of the A. A. U. of the United States*. The A. A. U. is the governing body of athletics in the United States, and all games must be held under its rules, which are exclusively published in this book.

No. 136—*Official Y. M. C. A. Handbook*. Edited by G. T. Hepbron, the well-known athletic authority. Contains official Y. M. C. A. athletic rules, records, scoring tables, etc.

No. 142—*Physical Training Simplified*. By Prof. E. B. Warman, the well-known physical culture expert, is a complete, thorough and practical book where the whole man is considered—brain and body. No apparatus required.

No. 149—*How to Take Care of the Body*. A book for all who value health.

No. 156—*The Athletes' Guide*. How to become an athlete. It contains full instructions for the beginner, telling how to sprint, hurdle, jump and throw weights, general hints on training ; in fact,

this book is one of the most complete on the subject that has ever appeared. Special chapters contain valuable advice to beginners, and important A. A. U. rules and their explanations, while the pictures comprise many exclusive scenes showing champions in action.

No. 174—*Distance and Cross Country Running*. By Geo Orton, the famous University of Pennsylvania runner. Tells how to become proficient in these specialties, gives instructions for training and is illustrated with many full page pictures of the best men in action.

No. 176—*Official Intercollegiate A. A. A. Handbook*. Contains official rules that govern intercollegiate events and all intercollegiate records. Any boy who intends to compete in college athletics should familiarize himself with this book.

No. 182—*All-Around Athletics*. Revised and up-to-date. "Training and Competing for the All-Around Championship," by Ellery H. Clark, winner in 1897 and 1903; "Training for the All-Around," by Dr. E. C. White, ex-champion; "How to Become an All-Around Athlete," by Adam B. Gunn, ex-champion; other explicit and detailed instructions for the competitor; scores of contests from 1884; tables of points used in scoring the all-around; notable performances of all-around winners; portraits of prominent all-around competitors, and scenes taken at the all-around meet in 1903. The best book on all-around work ever published.

The price of each of the above books is ten cents, and they can be obtained generally from any newsdealer or from the publishers, American Sports Publishing Company, 16-18 Park Place, New York.

In addition to the above special list, Spalding's Athletic Library contains books on every athletic subject. A complete list of same will be found in the last eight pages of this book.

Spalding's Patented Running Shoes

We believe, in this shoe all the various difficulties experienced in manufacturing a satisfactory running shoe in the past have been overcome. First of all, you have here a shoe in which the spikes cannot by any possibility come in contact with the foot; then you have a rubber sole that is an assistance, in that it is partly underneath the spike, and therefore acts in the nature of a cushion. Above all, our patented principle in this shoe enables us to place the spikes so that they will not come loose after being wet, as water has no effect on the rubber sole. We also claim that on account of the non-slippable purchase a runner obtains with this sole, he is able to make a quicker start than is possible with a shoe of ordinary construction, and this fact has been demonstrated conclusively by those who have already tried our shoe and who pronounce it perfect in all respects.

A. C. Spalding & Bros.:
Gentlemen:--I have tested
the 16-pound hammer you made
under my direction and found
it to be perfect. I find it
easier to swing in circles when
manipulating, and owing to its
ball-bearing construction it
gets less resistance from the
air, leaves the hand swifter,
and in fact fills the bill com-
pletely as to what a perfect
hammer should be. I will use
it in all competitions and will
recommend same to those wishing
to excel in hammer throwing.
You have my permission to use
my name.

Foster's Patent Safety Hurdle

The frame is 2 feet 6 inches high, with a horizontal rod passing through it 2 feet above the ground. The hurdle is a wooden gate 2 feet high, swinging on this rod at a point 6 inches from one of the sides and 18 inches from the other. With the short side up it measures 2 feet 6 inches from the ground, and with the long side up 3 feet 6 inches. The hurdle can be changed from one height to the other in a few seconds, and is held firmly in either position by a thumb-screw on the rod. It would be hard to conceive any device more simple or more easily handled than this. The invention was used exclusively at the Pan-American sports and has met with the approval of the best known physical directors and trainers of the country.

The Spalding Highest Quality Sweaters

Made of the very finest Australian lamb's wool, and exceedingly soft and pleasant to wear. They are full fashioned to body and arms and without seams of any kind. The various grades in our "Highest Quality" Sweaters are identical in quality and finish, the difference in price being due entirely to variations in weight.

We call special attention to the "Intercollegiate" grade which was originally made by special order for the Yale foot ball eleven and are now exclusively used by all Intercollegiate players. They are considerably heavier than the heaviest sweater ever knitted and cannot be furnished by any other maker, as we have exclusive control of this special weight.

The Spalding Patent Inflated Striking Bag Disks

Patent Pending

WE need not dilate on the healthful attributes so generally recognized, but if anything can make bag-punching more popular we think the style disks we introduce this season will go far in that direction. No complaint is more common, in reference to the ordinary platform, than the annoyance caused by its vibration and noise. So far as it is physically possible we have eliminated both of these disagreeable features. The bag does not hit against a solid frame, but instead we have a pneumatic cushion, and consequently there is no more noise than that occasioned by the fist tapping the bag, while on the same account the vibration is reduced to a minimum.

ADJUSTABLE STYLE

Can be raised or lowered simply by loosening the jamb thumb-nuts. Is perfectly firm and solid when thumb-nuts are tightened and has a long space for adjustment.

DOORWAY STYLE

Is bracketed out from a doorway bar, having a single overhead brace, which is screwed to the wall above the door. The doorway bar is made of iron pipe having rubber cushions on ends. Turning the pipe causes the end sockets to spread, jamming the cushions against the sides of door and making the bar firm and rigid. The bar may also be used as a "chinning" horizontal bar. In ordering, state width of doorway.

The Spalding Patent Solid Striking Bag Disks

Patent Pending

THE solid disk for striking bags will always hold a high place in the estimation of many on account of the variety of work it permits. The style which we originally introduced some years ago is the one which has been imitated most generally, but in all these substitutes the makers, while making them lighter, have uniformly neglected the most essential point and have produced an article flimsy and unsatisfactory to a degree.

A striking bag disk must be substantial if it is to be of use, and in the various styles, both adjustable and braced, this feature has not been neglected, while we have striven to put out a disk which is suitable for home use and moderate in price.

THE SPALDING PATENT STRIKING BAG

Illustrating Ball-and-Lace Fastening

This bag will swing true because it is built that way. It cannot make a false move, no matter how hard it is hit. No loop to interfere with rope, and the most certain in its action of any on the market. It is made with a lace running around the neck, like a draw-string. Inflate the bladder, drop the wooden ball into the opening at the top and pull the lace tight; then regulate the length of the rope and fit bag to your platform. The idea has met with such general approval that we are now making our entire line on the same principle.

No. 19. Made of highest quality Patna kid, the lightest and strongest of leather. Sewed with silk, double stitched and reinforced throughout. Especially suitable for exhibition work, and the fastest bag made. . Each, **\$7.00**

No. 18. Made of finest selected Napa tanned leather, extra well made; double stitched, welted seams and reinforced throughout. For training purposes particularly this bag will be found extremely satisfactory in every respect. The "Fitzsimmons Special." Each, **\$5.00**

No. 18S. Same as No. 18, but smaller in size and lighter. Intended for very speedy work. Each, **\$5.00**

Each bag is most carefully inspected and then packed complete in box with bladder, lace, wooden ball and rope.

ARE THE LARGEST MANUFACTURERS IN
THE WORLD OF GYMNASIUM APPARATUS

They have equipped nearly all the large college gymnasiums as well as schools, athletic clubs and public playgrounds. Spalding's apparatus is standard in every way. The greatest care is taken in its construction. Only the finest material is used. The construction is intelligently and correctly supervised by mechanical experts of high standing. It is immaterial how large or small the gymnasium is, Spalding's should be consulted. Blue prints and estimates furnished free on application.

OUTDOOR

Playgrounds and Gymnasiums

THE outdoor playground and gymnasium movement is rapidly spreading, and in many eastern cities it is on a very solid footing. A. G. Spalding & Bros. are qualified in every way to equip outdoor playgrounds and gymnasiums, being pioneers in the movement, and having constructed nearly all the playgrounds that have been built in recent years. In the city of New York they built the first outdoor gymnasium that was established. They have kept pace with the movement from that beginning to the present time, nearly all the gymnasiums and playgrounds in New York having been equipped by them. The wear and tear on gymnastic apparatus for a playground is extraordinary and requires the best material and the best workmanship.

It is particularly noticeable that all Spalding's apparatus has stood the test.

Diagrams, blue prints and further information about the playground movement will be furnished free upon application.
