## FIFTIETH ANNUAL MEETING

University of Southern California Wins Championship at  
Cambridge Before Record Throng

**T**HE University of Southern California won its second consecutive championship at the fiftieth annual games of the Association, held on Soldiers' Field, Cambridge, Mass., May 28 and 29, 1926, with a score of 35 $\frac{1}{2}$  points. Leland Stanford University was second with 25 $\frac{1}{2}$ , while Yale was third with 25 $\frac{1}{4}$  points. The other teams scored as follows; Harvard 20, Syracuse 17, California 16, Penn State 15, Cornell 12, Georgetown 10 $\frac{1}{2}$ , Pennsylvania 10, Princeton 8, Columbia 6 $\frac{1}{2}$ , Boston College 6, Massachusetts Institute of Technology 6, Colgate 5, College of the City of New York 3, Swarthmore 3, Dartmouth 1, Holy Cross 1.

It was the most successful meeting the Association has ever held, both in the number of competitors and the attendance. The official attendance was 14,600.

Four new records were created and one tied. In the running high jump Robert W. King, Leland Stanford 1926, cleared the bar at 6 feet 5 $\frac{3}{4}$  inches, thus displacing the record of 6 feet 4 $\frac{5}{8}$  inches made by Leroy Brown, of Dartmouth, in 1923. Clarence L. Houser, Southern California, was responsible for two new records. In the discus throw he bettered the record he made in 1925 with a throw of 151 feet 3 $\frac{3}{8}$  inches. In the shot put he made a put of 49 feet 11 $\frac{3}{4}$  inches, thus improving by 2 $\frac{1}{8}$  inches the mark made the previous year by Ralph G. Hills, of Princeton. Sabin W. Carr, Yale, 1928, established the fourth new record when he cleared 13 feet 2 inches in the pole vault, thus breaking a record that had stood for fifteen years. One other record was equalled, this being in the 100-yard dash, in which Henry A. Russell, Cornell, 1926, did 9.7 seconds. In the 220-yard dash Russell's time was 21 $\frac{2}{5}$  seconds, but the judges disallowed it on the ground that he had an assisting wind.

The meet was managed by Stanley deJ. Osborne, of Harvard.

## 100-YARD DASH

The sprinters who faced the starter in this event were of unusually high caliber. During the preliminary season six of them had done 9.8, three 9.9, four 10 flat, and three 10.1 seconds. Five of the heats were run in 9.9, one in 9.8 and only one in 10. The final with such a field met expectations in a performance that equalled the record made in 1922 by J. Alfred LeConey, of Lafayette. Henry A. Russell, Cornell, 1926, won by a yard from Bayes M. Norton, Yale, 1926, in 9.7 seconds. Alfred H. Miller, Harvard, 1927, was one foot behind for third. Francis V. Hussey, Boston College, 1928, was fourth by  $4\frac{1}{2}$  feet and Donald M. Charles, Colgate, 1928, fifth by 5 feet.

Charles, Colgate, 1928, fourth by 5 yards and Philip S. Barber, California, 1926, by 16 feet. The starters were of equal class with those in the 100. Charles H. Moore, Penn State, 1926, winner in 1924, was third,  $1\frac{1}{2}$  yards back. Clifton F. Reynolds, Southern California, 1928, was fourth by 5 yards. John P. Murphy, Boston College, 1926, was disqualified for stepping off the track. It will be seen that three of the point winners were from California. The two semi-final heats were won in 14.9 seconds.

It was the best performance of the event, which was decidedly a California affair. The first four point-winners were from that state and all made excellent performances. Elmer G. Gerken, California, 1927, was second with 49 feet 1 $\frac{5}{8}$  inches, a splendid put. Clifford P. Hoffman, Leland Stanford, 1927, was third with 47 feet 9 $\frac{1}{2}$  inches, and Joe J. ## POLE VAULT

The result of this contest constituted a new record, as was expected. Sabin W. Carr, Yale, 1928, won with a vault of 13 feet 2 inches, displacing the old record 13 feet 1 inch, made by R. A. Gardner, of Yale, in 1912. Lee S. Barnes, Southern California, 1928, the Olympic Pole Vault, with a previous record of 13 feet 8 inches, had been expected by many to win, but he had to be content with second with a vault of 12 feet 6 inches. Francis B. Clark, Harvard, 1928, Stephen R. Bradley, Princeton, 1927, and Nathan F. Durfee, Yale, 1926, tied for third place at 12 feet. The vaulters were compelled to vault against a wind, and this in a large measure accounted for the record not being higher. Both first and second men had done considerably better in dual meets.

## FORTY-NINTH ANNUAL FIELD MEETING, PHILADELPHIA, PA., MAY 29-30, 1925

**T**HE University of Southern California, competing in the Intercollegiate championships for the second time, celebrated the event by winning the forty-ninth annual games, held on Franklin Field, Philadelphia, under the auspices of the University of Pennsylvania, on May 29 and 30, 1925. Their winning score was 33 points. Princeton was the runner-up with 29½ points. Yale was three points behind in third place, while Georgetown and Pennsylvania were fourth and fifth, with 23 and 22 points respectively. The other teams finished as follows: Cornell 16½, California 12½, Harvard 12, Penn State 12, Syracuse 11, Massachusetts Institute of Technology 7, Columbia 5, Holy Cross 5, Bowdoin 4, Dartmouth 4, and Boston College 2.

The performances were of an unusually high standard, although only two records were made. In the shot put Ralph G. Hills, Princeton, 1925, made a put of 49 feet 9<sup>5</sup>/<sub>8</sub> inches, thus bettering by 3<sup>3</sup>/<sub>4</sub> inches the previous record. In the discus throw Clarence L. Houser, Southern California, 1926, established a new mark of 150 feet 2<sup>1</sup>/<sub>4</sub> inches, thus displacing the old mark of 140 feet <sup>1</sup>/<sub>8</sub> inch.

The Southern Californians had an unusually well rounded team and scored in seven of the fifteen events. They picked up 3 points in the 100-yard dash, 13 in the two hurdles and the remainder in the shot put and discus throw.

To add to the interest of the meet, a loud speaker was installed for announcement purposes. The Association also took slow motion pictures of the finishes. Splendid weather greeted the athletes on both days. The meet was managed by H. Jamison Swarts, Pennsylvania, 1925.

## 100-YARD DASH

Chester Bowman, Syracuse, 1925, after winning his heat and semi-final handily, won the final in 9.9 seconds from a very strong field. Of the starters, five had done better than 10 seconds and 11 had done 10 seconds flat. Both semi-finals and the final were won in 9.9 on a rather heavy track. Bayes M. Norton, of Yale, who also won his heats, was second by 2 feet and George L. Hill, of Pennsylvania, defending champion, was forced to third place a foot behind. Keith Lloyd and Brice T. Taylor, of Southern California, were fourth and fifth respectively, but 6 inches separating each of the last three place men. Bowman led from the start and after 50 yards was leading by open ground. Hill, with a poor start, picked up toward the finish and bettered his position.

Vernon W. Ascher, Georgetown, 1926, was third by 7 feet; Howard C. Paulsen, Yale, 1927, fourth by 3 yards and Oliver Proudlock, Syracuse, 1926, fifth by 4 yards. At the end of the chute Ascher was leading by 3 yards, but in the straightaway Tierney assumed the lead and was not headed. Fifteen yards from the tape Gage passed Ascher.

## 880-YARD RUN

In the same class with the running of the quarter was the remarkable performance in the half. George M. Marsters, Georgetown, 1925, was the winner in 1 minute 53.5 seconds. This time was half a second slower than the record by J. E. Meredith, of Pennsylvania, and has been bettered only once in addition to the record. George J. Leness, M. I. T., 1926, was second by 3 yards, 1 yard ahead of John C. Holden, Georgetown, 1925, who set a smooth and very fast pace for the first quarter. John N. Watters, Harvard, 1926, defending champion, was fourth by 5 yards, with Joseph J. Campbell, Columbia, 1925, fifth, 1 yard behind. Holden led to the straightaway but could not hold the pace. Marsters passed him here and Leness also near the tape in a close, hard finish. The performance was not unexpected with five men in the race with records better than 1:55 and five others better than 1:50. The time of the fifth man was not slower than 1:54.5.

## ONE-MILE RUN

Ellsworth C. Haggerty, Harvard, 1926, won the mile in a thrilling sprint in the last 75 yards from John J. Theobald, Columbia, 1926, by 2 yards in 4 minutes 25.7 seconds. Walter T. Gegan, Georgetown, 1926, was third by 5 yards. John N. Stewart, Penn State, 1927, was fourth, 1 yard behind, and Thomas F. Cavanaugh of Boston College was fifth, 1 yard back of Stewart. An unfortunate jam on the first turn, attributable to starting such a large field in two rows near the turn, rather marred the race. Leo Larrivee, of Holy Cross, and William F. Sullivan, of Georgetown, who were favored to place, and two others fell and many were jostled. Cavanaugh set the pace for two laps and then Heilman of Southern California for a lap. Haggerty then took the lead and was passed by Theobald, but in a hard sprint repassed and won.

## POLE VAULT

Nelson B. Sherrill, of Pennsylvania, the Indoor champion and record holder, won the pole vault at 13 feet, the same height as his Indoor record.
