# Official TRACK AND FIELD GUIDE 1928

AMERICAN SPORTS PUBLISHING COMPANY  
45 ROSE STREET, NEW YORK

4. "Rake both ways, use a stiff brush to smooth and then roll with a roller not too heavy. A small gasoline roller has proved most satisfactory. The oftener a track is worked the smoother and faster it will become. Care must be taken not to use a heavy roller."

5. "Float the track with a beveled float and roll with a one- or one and one-half-ton roller."

6. "One of the best floats for daily use on a track was made of two rollable metal door mats or scrapers fastened together and dragged by hand. After a track has been well seasoned and found by test to be right, this float, followed by a tennis-court roller, has kept the surface in wonderful shape. Probably a new and unseasoned track needs heavier rolling."

#### THE STOCKHOLM TRACK.

A study of the track upon which the Stockholm Olympiad was held offers some valuable suggestions. The six inches of rough fill is of crushed stone, brick and granite. The middle stratum (about six inches) is of coarse boiler slag. The top dressing, again of about six inches, is made up of the following mixture: Locomotive slag, 50 per cent; slag from electric works, 10 per cent; mould and sand, mixed, thirty per cent; marl and fine mortar sand, five per cent each. This mixture made a marvelously fast track, but the question arises, Would such a mixture made up similarly, but of our materials, produce equally good results? Possibly it would. At any rate, it must be apparent that track building calls for a careful study of local conditions and careful experimentation with local materials.

Personally I should like to see this matter of track construction discussed further. I have tried to get the best possible advice, but I believe there are many other good ideas not presented in this compilation. Track and field athletics are just beginning to come into their own, and there is a growing demand for practical knowledge of construction and upkeep of the running track. I am convinced that further discussion will prove profitable, and shall avail myself of every source of information possible for the preparation of another article on the subject.

Acknowledgment is gratefully made for assistance rendered in this compilation by Harry L. Gill of Illinois, C. S. Edmundson of the University of Washington, C. W. Bachman of Kansas Aggies, R. I. Simpson of Missouri, Harry L. Hillman of Dartmouth, S. J. Farrell of Michigan, G. T. Bresnahan of Iowa, T. E. Jones of Wisconsin, K. L. Wilson of Drake, Ned Merriam of Yale, Keene Fitzpatrick of Princeton, and J. L. Griffith, Commissioner of Athletics, Western Conference.

## COLLEGIATE HONOR ROLL

The Track and Field Rules Committee has attempted to compile a list of names of college men who made outstanding records in their events in 1927. A list of records was sent to all coaches in the N.C.A.A. for verification and correction. Every effort has been made to accept only records made under proper conditions. It is more easily possible to determine who the leading athletes are in track and field than in any other sport, due to the fact that definite records are kept of the performance of the men in track and field competition, while the same of course, is not possible in football, basketball and baseball. It is understood, of course, that there may be inaccuracies in the appended list. The committee requests the co-operation of the coaches in compiling a similar list for 1928. High school coaches are requested to send outstanding records for the year to Mr. C. W. Whitten, 11 South La Salle Street, Chicago, Illinois, and college coaches are requested to send information regarding star performances of college men to Major John L. Griffith, 6 North Michigan Avenue, Chicago.

## Best Records Made by American College Men

The National Collegiate Athletic Association has a Records Committee whose duty it is to pass upon all claims for new records. In case of a claim for a record, the parties concerned should communicate with Mr. A. A. Stagg, University of Chicago, the Chairman of the Committee.

The attached list of best records made by American college men, while they were undergraduates or since they have left college, has been passed upon and accepted by the National Collegiate Athletic Association Records Committee. With few exceptions the holders of world's records were college athletes. Events indicated with star (\*) are best college records only; all others are world's records.

# Spalding's

## Athletic Headquarters

*Spalding's* are the world's largest producers and sellers of athletic goods . . . their leadership has been won not by mere price appeal, but by inherent quality. They give you the largest quantity of quality for the price you pay!

Buy Spalding equipment and know what every seasoned sportsman knows . . . that your golf clubs can shoot a ball straight, far and true. That your tennis balls are those officially used in national championship tournaments. That your swimming suit is fast colored and snug-fitting. That your sweater will give years and years of wear. That your game won't suffer because of equipment that is short of Spalding perfection.

Visit Spalding's and find the correct athletic equipment for your favorite sport!
