# Meet a Great Pole from Finland

## Tougher Truer

Made to give  
greater distance!

MEET the *Spalding-Mikkola Finnish Javelin*, designed by—and produced under the supervision of—Jaakko Mikkola, coach of the Finnish Olympic Teams and Assistant Track Coach at Harvard...

*Designed and made so it can be thrown on a flatter trajectory and still maintain altitude, so that a longer throw results.* But that's not all!

It's *tougher!*... Made in Finland of selected straight-grain birch carefully seasoned... *hand-turned*... thoroughly inspected to eliminate knots and other weak spots... tested to insure the stiffness necessary to minimize vibration.

It's *truer!* The exactness and care used in the manufacture of the Spalding Mikkola insures a balance point that is exceptionally accurate.

Its point is *sharper* and *longer*—made of *two* pieces. The upper part's of drawn steel tubing... the lower of tough, hard steel, nickel-plated to resist rust, and soldered to the tube.

How much difference do these improved features make? Ask any coach who's had experience with this javelin. Last year it was chosen by many famous American coaches.

*A. G. Spalding & Bros.*

## THE NATIONAL MEET, 1935

Held at Edwards Track Stadium, University of California, June 21-22, 1935.

For the second time in as many years, the track and field championships of the N.C.A.A. were held in the Far West; the fourteenth annual games were held June 21 and 22 at Edwards Track Stadium on the campus of the host institution, the University of California.

Confidence in the ability of the organization to promote a meet which would be truly national in character and which would be athletically and financially successful—this confidence being based upon a steadily growing interest in track and field athletics on the part of the San Francisco Bay Region public—prompted the Associated Students of the University of California to guarantee to the N.C.A.A. \$12,500, to be expended in paying the railroad and Pullman fare of the outstanding athletes of the United States to the meet.

The knotty problem of the selection of athletes whose 1935 performances merited their inclusion in the list of "expense allowed" performers was undertaken by the Track and Field Rules Committee, under the chairmanship of T. Nelson Metcalf. The committee's original selections numbered 127 athletes, representing 66 universities and colleges. Of these, 114 accepted expense allowances offered and appeared at Berkeley for the competition.

It is of interest to note (since the figures are a key to the athletic caliber of the athletes to whom allowances were offered) that 84 of the 114 reached the finals of the competition and scored 424 of the total 465 points.

The University of California is gratified to be able to report that the gross receipts of the meet more than covered the amount necessary to meet the guarantee and the expenses of the meet. Gross receipts from ticket sales and other sources were \$22,449.80. The operating expenses were \$6,621.15, leaving a balance of \$15,830.41 which was prorated among the contestants and coaches. Men placing in the first eight in their events received full railroad and Pullman fare; others received refunds of 33 per cent.

The meet attracted entries from 75 institutions, with 303 individual athletes entered. Of these, more than 250 athletes engaged in the actual competition, and 47 teams were represented in the scoring.

The seemingly impossible feat attempted and accomplished by Jesse Owens of Ohio State University in scoring four first places in national competition—the 100 and 220-yard dashes, the 220-yard low hurdles and the broad jump—was easily the outstanding performance of the meet, and one which will long be remembered by the spectators who witnessed it. Meeting exceptionally fast fields, Owens ran only to win in the sprints and the low hurdles, but in the

broad jump he broke a record that had stood for ten years by two and one-half inches, leaping 26 feet 1½ inch in the trials the first day of the meet.

Owens' four firsts contributed the major portion of Ohio State's point total, giving that institution second place in team scoring but failing by 34 points to approach the smashing team victory scored by the University of Southern California. The Trojans gained only two individual championships (in the pole vault, in which two of their vaulters, William Sefton and Earl Meadows, shared a new N.C.A.A. record of 14 feet 1½ inch; and in the discus throw, won by Kenneth Carpenter), but their incomparable team strength and balance gave them points in eight events.

N.C.A.A. records in the running events were not threatened, although competition was exceptionally close—a statement borne out by the fact that not one of the 1934 champions who returned to the competition was successful in his defense of the championship—but the competition in the field events produced three new records: the pole vault mark already mentioned; the javelin performance of Charles Gongloff, University of Pittsburgh, who set a new mark of 221 feet 3½ inches, and Owens' winning mark in the broad jump, also noted above.

W. W. MONAHAN, Chairman.

## Best Records Made by American College Men

The National Collegiate Athletic Association has a Records Committee whose duty it is to pass upon all claims for new records. In case of a claim for a record, the parties concerned should communicate with Mr. A. A. Staggs, College of the Pacific, Stockton, Calif., the Chairman of the Committee.

The attached list of best records made by American college men, while they were undergraduates or since they have left college, has been passed upon and accepted by the National Collegiate Athletic Association Records Committee. With few exceptions the holders of world records were college athletes. Events indicated with star (\*) are best college records only; all others are world records.

# 1935 INTERSCHOLASTIC HONOR ROLL

Compiled by E. A. Thomas.

The writer has endeavored to collect the results of all state high school meets and other important meets throughout the country and from these results has compiled an honor roll. The best recorded performances in each event during the 1935 season are listed. Performances worthy of record during the 1936 season should be reported to E. A. Thomas, Box 14, Topeka, Kansas.

It is difficult to compare the performances of boys in different sections of the country because of the variation in weather conditions. Some of the best performances recorded

were made either under ideal conditions or when there was a slight wind blowing to aid the runners. In some events the records from certain sections do not show up so well because of the terribly rainy season we had in the spring of 1935. For these reasons perhaps some of the boys whose records do not show up so well are really better than some who show up better on paper. The following records should, therefore, not be taken too seriously, but the boys who made them are good performers just the same.
