How to Conduct an Athletic Meet

AMERICAN SPORTS PUBLISHING COMPANY, NEW YORK

THE NATIONAL MEET, 1938

Held at Memorial Stadium, University of Minnesota, June 17-18, 1938.

A new center of track enthusiasm has been established as a result of the seventeenth annual National Collegiate Athletic Association track and field meet held at the University of Minnesota last June—a center that can, with the proper encouragement, become one of the hotbeds of track and field sports in the entire nation.

This meet was well supported by the sports fans in the Northwest as it drew approximately 20,000 paid spectators and total receipts of more than \$16,800. This, if I am not mistaken, represents the third largest gate receipts in the history of the meet in a locality where no interest had previously been developed in track and field events.

Much credit should be given to local committees who worked diligently for the success of the meet. The press and radio were particularly cooperative in giving us space and time to promote and publicize the event.

The meet itself was justification for all of the fine things that had been said and written about it. Indeed, it would not be amiss to say that it definitely sold track and field in this section. The field of entries was one of the best ever assembled, and was definitely national in its makeup. From the first day preliminaries, when Fred Wolcott of Rice set a new record of 14s. in the 120-yard high hurdles, until the final event, the high jump, which kept spectators in their seats for an hour after all other events had been concluded, the program was full of thrills.

The much-talked-of mile duel between Charles Fenske of Wisconsin and Louis Zamperini of Southern California turned out to be just that, and the pair ran brilliantly, with Zamperini crossing the tape going away for a new record time of 4:08.1.

It was the high jump, however, that provided the thrill of the day, with Dave Albritton of Ohio State and Gil Cruter of Colorado jumping for new

records long after the other events were concluded. Most of the big crowd witnessed their tie at 6 feet 3¼ inches and so sensational was their nip-and-tuck battle that they just missed a new world's record mark of 6 feet 10 inches.

The Games Committee for the 1938 meet included K. L. Wilson (Northwestern), L. W. St. John (Ohio State) and the writer. Amos Alonzo Stagg (College of the Pacific) was the referee and W. W. Heffelfinger his assistant.

FRANK G. McCORMICK, Chairman,
University of Minnesota.

By order of President Charles Kennedy and the Executive Committee, the Net Receipts in 1932 were donated to the American Olympic Fund.

The net proceeds of the 1936 N.C.A.A. meet, amounting to \$5,607.99, was donated to the American Olympic Fund for Men's track and field.

All unexpended balances have been turned over to F. W. Nicolson, Secretary-Treasurer of the National Collegiate Athletic Association, to be put in a Track and Field Sinking Fund, which amounts at present to about \$1,600.00.

help of the coach on the field. They must learn that the success of the meet depends upon their co-operation in getting the events started promptly and should always remember that the crowd appreciates good, honest endeavor and disapproves of unsportsmanlike methods.

MEASURING THE TRACK.

Measure the track 12 inches from the inner edge or curb. If the track was built on the eighteen-inch measurement, place marks back from the finish line, as the distance for the different races requires.

Under the old rules, tracks were measured on a line eighteen inches out from the curb. Experiment shows that the athlete runs about only twelve inches from the curb and, in the interest of uniformity, the National Collegiate Athletic Association changed its rules to conform with the International Amateur Athletic Federation rules.

Where tracks are laid out with an 18-inch measurement the difference between the 18-inch and the 12-inch line amounts to 3 feet $1\frac{3}{4}$ inches per lap on a track, no matter how many laps there are to the mile. The following figures will make the re-marking very simple. To find the difference per mile between the two methods of measuring, multiply the number of laps by 3 feet $1\frac{3}{4}$ inches. Thus a

4-lap track equals.....	12 feet	7 inches.
5-lap track equals.....	15 feet	$8\frac{3}{4}$ inches.
6-lap track equals.....	18 feet	$10\frac{1}{2}$ inches.
7-lap track equals.....	22 feet	$\frac{1}{4}$ inch.
8-lap track equals.....	25 feet	2 inches.
9-lap track equals.....	28 feet	$3\frac{3}{4}$ inches.
10-lap track equals.....	31 feet	$5\frac{1}{2}$ inches.
11-lap track equals.....	34 feet	$7\frac{1}{4}$ inches.
12-lap track equals.....	37 feet	9 inches.
13-lap track equals.....	40 feet	$10\frac{3}{4}$ inches.
14-lap track equals.....	44 feet	$\frac{1}{2}$ inch.
15-lap track equals.....	47 feet	$2\frac{1}{4}$ inches.

By placing marks on the track 3 feet $1\frac{3}{4}$ inches apart for every lap run, that distance will be added. It will be much better to correct one curve of the track by increasing the tangent or straight portion of the track a distance of 1 foot $6\frac{3}{4}$ inches, thereby shifting the center point of one of the curves to that extent.

1938 COLLEGIATE HONOR ROLL

The Collegiate Honor Roll is based on performances by eligible college men in the season of 1938. The ranking is determined by vote of the Rules Committee and representative coaches from all sections.

NOTICE

The committee this year is re-establishing the Cross-Country section in the Track and Field Guide. In the past it has been felt that Cross-Country results for the previous year have been too far out of date to be of interest. This year we have secured the results of the 1938 championship meets for inclusion in this issue. It is the desire of the committee to make the Cross-Country section more complete next year, and to this end we ask that all Cross-Country coaches in the N.C.A.A. send results of dual, triangular and championship meets to K. L. Wilson, Northwestern University, Evanston, Illinois, IMMEDIATELY after meets and not wait until end of the season to do this. Even with this cooperation it will be a rush to get such results in the book that goes to press not later than December 1. If coaches upon reading this notice will drop Mr. Wilson a postcard to the effect that he will receive the results of 1939 Cross-Country runs, as outlined above, it will greatly help him in anticipating what he may expect as material for inclusion in the 1939 book.

THE COMMITTEE.

1938 NATIONAL INTERSCHOLASTIC HONOR ROLL

Compiled by E. A. Thomas.

The writer has endeavored to collect the results of all state high school meets and other important meets throughout the country and from these results has compiled an honor roll. The best recorded performances in each event during the 1938 season are listed. Performances worthy of record during the 1939 season should be reported to E. A. Thomas, 204 National Reserve Building, Topeka, Kansas.

It is difficult to compare the performances of boys in different sections of the country because of the variation in weather conditions. Some of the best performances recorded,

were made either under ideal conditions or when there was a slight wind blowing to aid the runners. In some events the records from certain sections do not show up so well because of adverse weather conditions on the dates of important meets. For these reasons perhaps some of the boys whose records do not show up so well are really better than some who show up better on paper. The following records should, therefore, not be taken too seriously, but the boys who made them are good performers just the same.

When good fellows get together—

for athletics . . . whether it's track, golf, basketball, hockey or any of the other sports, Spalding equipment is certain to be there too. Famous since 1876 for athletic goods, the name Spalding means equipment of quality—precision built . . . based upon years of constant research.
