# HIGH SCHOOL TRACK & FIELD ANNUAL

1957

by

DICK BANK

Published by

TRACK & FIELD NEWS

\$ 1

## FOREWARD

The second edition of the High School Track & Field Annual is considered by the author to be a distinct improvement over last year's initial effort. Best performance lists have been increased from 25 to 50 per cent, miscellaneous marks that had to be omitted last year are now included, and a number of performances uncovered that were not previously known to the author.

Addition of 25 marks per event has provided greater scope and has given recognition to those who weren't quite good enough to rate in the top 25 last year. Improvement in many events in the past few years has been without precedent and has been responsible for many athletes of pre-war vintage being excluded. It is unfortunate that those who were equally great in their day must be omitted in many instances but we must let the stopwatch and the tape be the determining factors.

Having uncovered almost a dozen marks that I did not know of in 1956, it becomes quite evident that some have been overlooked. However, every attempt has been made to include all marks that qualify for this publication. Likewise, much time has been spent in checking the validity of performances. Many have been rejected as the result of this check.

No mark has been restricted because of type of meet, competition or whether it was or was not a winning effort. The National Interscholastic Federation will not accept marks for its honor roll that do not meet the same specifications as those accepted as national records. That means they must be made in recognized meets including four or more schools, with conditions legal as to aiding wind, level ground in field events, etc. Despite this the National Interscholastic Federation has overlooked literally dozens of marks over the years that qualify for its lists. In addition wind-blown marks have been listed as legitimate and even completely erroneous performances have somehow received the stamp of validity. One mile was credited with a time over ten seconds under his best while a shot put was credited with a put better than five feet beyond his top competitive effort. This body refuses to accept non-winning performances, even though officially timed. However, non-winning marks frequently creep into their lists. Though the Federation will not accept dual meet performances as records today, they did so in the case of a pole vault mark in 1938.

The point of this is to say that I have attempted to record best performances by high school boys regardless of when or where they were made. In many track-conscious states dual and triangular meets make up a big percentage of the schedule. In certain areas these meets are better officiated than some state meets. In many parts of the country weather is very often poor for the "big" meets. The 1956 Indiana and New Jersey State meets were held in virtual downpours. It is not felt that performances made in earlier meets of lesser importance should be excluded and the athlete penalized simply because he was the victim of obstinate and illogical officials.

Marks made in AAU or other outside competition have been included as have non-winning marks in all types of competition where it has been assumed that such times (unofficial in most cases) are reasonably accurate. The object of this publication is to record best performances by high school boys and give recognition where it is due.

Timing in high school sprint and hurdle races, especially the former, are oft-times questionable. Undoubtedly some on the non-wind list should be on the wind list. Every attempt has been made to sift them into their proper category.

Performances have been included by boys enrolled in high school who were ineligible to compete in interscholastic athletics under the rules of their state athletic associations. It is felt that since there is no national age limit it would be unfair to penalize a boy who, though ineligible to compete in his own state, would be permitted to compete in other states. Milt Campbell of Plainfield, N.J., in the 1953 season, falls into this category. All boys who are regularly enrolled in high school under the age of 20 are eligible for inclusion. Two boys who had reached their twentieth birthdays have been included for different reasons. Sid Bowman of Hammond, La., was 20 in his senior year, 1928. As his State Association and many others of that era had more flexible rules it was felt that he should be included as he was in good standing as the rules dictated. The Indiana State High School Athletic Association ruled Leo Williams of Muncie Central to be 20 in 1936, though Williams claimed to be 19 and there was no official birth record to substantiate either. For that reason I have seen fit to list him. Quite probably many listed in this annual were 20 while in high school though this information is not available to the author.

In the case of prep school boys some of them are completing their normal high school education while others are one or two years beyond the high school level. It was decided to include some marks by prep school boys if: they had not received a diploma from previous attendance at a high school; had not attended a combined total of more than four years in a high school and prep school; and had not reached their twentieth birthday. Many prep school boys were eliminated on the above specifications.

I would like to thank all the Track Coaches, Athletic Directors, State High School Executive Officers, High School Sports Editors, Metropolitan High School Writers, the athletes themselves and many others who were kind enough to answer my letters of inquiry. In particular I would like to thank Hugh Gardner of Indianapolis and M/Sgt. Robert A. Gilmore of March AFB, Calif., who have contributed many of the marks included here that otherwise would have been unknown to the author.

I will appreciate it if any interested track fan will bring my attention to the errors in performance, meet, site, date, spelling or of omission that I have made. I shall be happy to award a complimentary copy of the book for any bona fide correction or addition.

ABBREVIATIONS: n = non-winning performance  
h = heat sp = special event m = meters

## TRACK NEWSLETTER

is the twice-a-month supplement to Track & Field News. Mimeographed and sent by first class mail, it brings the latest news in between T&FN issues, as well as comments, stats, and opinions of the Track Nuts. Special bonuses and privileges to subscribers. Write for sample copy, or remit \$6 per year. Better yet, earn a free subscription by sending two new one-year subscriptions to Track & Field News.

## GIFTS

Are no problems for your track friends. Give them a subscription to Track & Field News or Track Newsletter, or any of the many books and guides which may be ordered directly from Track & Field News. Write for free catalog:

P. O. Box 296, Los Altos, Calif.

1956 record breakers HOMER ROBERTSON & JIM BOWERS.

## 1956 Best Performers

### 100 YARD DASH

- 9.5 HODGES BROUSSARD (Hebert, Beaumont, Tex.)
