Fiber Glass Pole Vault Trainer - \$19.95

plus \$1 postage

"Bill Ferris's training device to mimic the sensation of "sinking" encountered when the fiberglass pole bends, is the most practical, unique, realistic and timely training aid introduced to the science of pole vaulting in the last 20 years."

—Dr. R. V. Ganslen
Author Mechanics of the Pole Vault.

START YOUR VAULTER EARLY

Trainer can be secured indoors or outdoors on climbing rope, high bar, back board supports or football goal posts.

Recommended in Track Technique.

Used by many of the World's Top Vaulters, in U.S.A. and overseas.

Excellent for fall and winter training.

Vaulter is forced to use the correct body mechanics to get vertical lift.

Rubber section has tensile strength of 4000 lbs.

Can be adjusted for more or less sinking sensation.

Vaulters overcome fear of the sinking sensation.

F. G. P. V. T. comes complete as shown in above photo, plus drills, instructions and 12-page coaching guide for Fiber Glass Pole Vaulting.
