Our tracking system.

In developing the adidas Adistar 2000 we used a scientific system to create a track shoe that could meet the individual needs of every runner who'd wear it.

That's why we built the Adistar 2000 with a unique Vario sole and assembly kit system that allows a runner to adapt the shoe to varying track and weather conditions, as well as body weight and individual style.

Why, by combining the correct choice of the 30 interchangeable sole elements, a runner can obtain maximum traction and eliminate the danger of slipping.

And why it's feather-light weight (a mere 4.7 ounces*) and soft, built-in heel wedge make it comfortable over middle and long distances.

The Adistar 2000. For runners who wouldn't compete without adidas on their feet.

Save energy now.

Our energy resources are not as abundant as we once believed. And we waste a shameful amount of it... in our homes, on the road, at our jobs. Unless we start using our energy wisely, right now, our children and their children may have to pay a heavy price for our thoughtlessness. So let's work together to make the most of our energy supply. Join other concerned Americans in the Alliance to Save Energy. Send for a free booklet called "How to Save Money by Saving Energy." The Placebo Olympics

"Placebo: A harmless, unmedicated preparation given to a patient merely to humor him, or used as a control; something done or said to win the favor of another." (Webster)

One of the placebos our government is offering our athletes for backing the Presidential boycott of the Olympic Games is to stage a "Counter Olympics" in which we are "guaranteed competition of world class similar to that of the Olympic Games themselves."

To the average citizen that, along with other statements concerning giving our athletes competition which would tax us to the utmost, has the US populace convinced our dedicated athletes will not miss the Olympics. How wrong can a person be? Hitler said it many years ago, "Tell the big lie and people will believe it". Let's take a look at what it will be like at Olympic Games time in July of 1980.

First of all, everyone will concede that the Eastern bloc of nations will go to Moscow as if nothing had happened. MOST of Western Europe will also go. Twelve Western European nations have female track athletes who were in the top 30 on the World List for 1979. Tell me who is not going to go to Moscow. West Germany? They will be there. Italy? France? The Scandinavians? Aside from the 12 Western Europe countries who have top athletes, the rest of the world provides only 11 countries with performers in the top 30 World List for 1979. Of those 11, you can bet your last dinar that Cuba will be in Moscow. With Trudeau back as Prime Minister, Canada will go to Moscow. Of the rest, South Africa is not a member of the IOC so they will not go to Moscow. My bet is the others will go — Argentina, Jamaica, Guyana, Israel, Australia, China and Brazil. Who is left to take part in those "Substitute Olympics"?

Let us assume, for sake of argument, that ONLY the nations of Eastern Europe go to Moscow and everyone else in the world comes to Our Games. Taking the 1979 World List as a base (the top 30 performers in each event), Eastern Europe has 245 of the places out of a total of 367 positions in the 12 Olympic events. That's 67% of the top performers in the world. Western Europe has 18% and the rest of the world only 15%. What about the Top Ten for 1979? Eastern Europe now has 88 positions out of 120 or 77%. Western Europe has 13% and the rest of the world only 10%. Narrowing it down to the Number One athlete in the world in each event for 1979, it gets even worse. East Germany had the world best in the 200, 400, high jump, long jump, shot, discus, javelin and was tied in the 100. Bulgaria had the top marks in the 800 and 1500, Poland in the 100 hurdles and Russia in the pentathlon. The USA tied for top honors in the 100. Maybe if we counted the 400 hurdles and the 3000 the odds would shift toward us. No way. In the 3000, the Soviets had 14 of the 30 best marks and nine out of the top ten. In the 400 hurdles, Russia had four of the top ten and East Germany another four. Either Russia or East Germany alone had more athletes in the top ten than all the rest of the world combined! And we are supposed to get "World Class" competition! From whom?

Mr. President, here is a chart showing the top athletes in the world for 1979. Please tell us where we are going to get that "world class" competition. (In the following charts, numbers listed are athletes in the top 30 for 1979; numbers in parenthesis are athletes listed in the top ten for 1979):

Ride 'em Cowgirls

Two reasons for the vast improvement in women's track and field at the University of Wyoming are Laura Ferguson and Pat Miller. Plugging along with just an ordinary program, the Cowgirls moved into national prominence when these two recruits showed up.

First to arrive on the scene was Laura Ferguson, now a junior. A home-stater, Laura graduated from Laramie High School where she was the 1977 State champion in the 80 and 110 yard hurdles and anchored the State championship sprint relay. 1979 saw her get her first taste of recognition when she ran 1:34.8 for 600 meters for the 7th best time in the US. However, only a few Americans ran that distance last year and so her glory was really not that valuable.

Come 1980, however, and Laura has blossomed. She was fifth in the 600 yards at the AIAW Indoor Championships, the first Wyoming Cowgirl to ever score in that calibre of competition. Her time of 1:22.92, while good, was not as fast as her best of the season, 1:21.96, the third fastest by an American for 1980, less than four-tenths off the nation's best mark of 1:21.6 set by Wisconsin's Pam Moore.

Wyoming coach Roger Smith says, "Laura Ferguson is proof positive that Wyoming runners are slow maturers. There is not a school in the United States that would have recruited her out of high school, or even given a second look following her freshman year at Wyoming. Now she's the third best 600 runner in the States this year. She is just now starting to come around. The potential for Laura to be an outstanding runner is there. Right now, she doesn't take credit for her own success. She still wants to give someone else the credit. She is just finding out that she is good although her times are better than the places she will finish because of her lack of experience with top-level competition."

As for Pat Miller, this 5'7, 135 pound business major sophomore comes to Wyoming as a transfer student from Dodge City CC in Kansas. Pat attended high school in Lawrence, Kansas, and was a three year letter winner in track competing in the long jump, sprints and relays. She was an All American high schooler in track and field.

Miller set the NJCAA record in the long jump at 19'8 and was the 1978-1979

national champion. As a sophomore at Wyoming this season, she was third in the long jump at the AIAW Championships in Columbia and has a best leap of 20'5, the fifth best of the 1980 indoor season. Pat has also turned in good sprint marks of 6.89 for 60 yards and 36.4 for 300 yards. At the Lobo Invitational in Albuquerque, New Mexico, earlier this year, she was voted the Outstanding Field Event athlete of the meet, and topped that by being selected as the outstanding performer at the Wyoming Invitational.

Of Pat Miller, Coach Smith says, "We're very elated with Pat's 20'5 jump. It makes us feel that she has a chance at an Olympic berth. Without a doubt, Pat has the most potential of all the US jumpers to be a 22 foot performer. She is an exceptional sprinter, but long jumping is her best event. Already this year she is averaging a foot farther than at this same point in time for 1979. She has done a lot of upper body work with the weights and this has contributed to her success. She is not afraid of hard work!"

LETTERS

Dear Editor:

Who was the author of the article on Pages 24 and 25 of your November 1979 issue? Could I have some education and background facts about the author? The article contained some good basic motor learning materials and was interesting.

Joy Hager,
Associate Professor
of Physical Education
Berea College,
Berea, Kentucky

Dear Joy:

I cannot tell a lie. It was I who wrote that article on "Learning and the Learning Curve" and its relationship to track and field. As a matter of fact, I wrote that article in 1958 when I was a Fulbright Fellow and teaching at the University of Baghdad in Iraq. So things haven't changed too much basically. For education, I graduated from Occidental College and did my post graduate work at USC and UCLA. Coached football and track for 44 years, was head coach for two Olympic teams (India in 1960 and Republic of China 1972). How's that?

Vince Reel

Dear Editor:

I could not believe that you endorsed the use of steroids in your "Reel Off" column of November 1979. We here in the USA are so uneducated and misinformed about drugs that I am sure nearly everyone is afraid to take any kind of supplement. Why do the foreign nations have sports doctors who take care of these things for their athletes?

Name withheld by request
Toledo, Ohio

Dear Subscriber:

You misread my statement concerning steroids. What I said was that until the IAAF could come up with a method of testing EVERYONE, they should not single out individuals and miss the mob. As I said, I have seen the tests circumnavigated after international competitions. All I want is for everything to be fair and equal to everyone.

KALEIDOSCOPE

Interested in coaching overseas? Contact TFA/USA, 10920 Ambassador Drive, Kansas City, Missouri 64153. They have positions for longer than a year or for short term assignments . . . That fine TV series titled "Moscow 1980" has now been changed to "America's Athletes 1980" thanks to the Carter Fiasco. Catering to the White House Whim for the title is incongruous in that the material in the presentation is still geared to the Olympic Games in Moscow . . . Some more Names I Like: Jada Yeast, Meme Large and Sunday Wallen, all Kentucky high schoolers . . . And Stormi Guntsch of the Fleet Feet TC, Muffin Miller and Sarah Peapple of the DC CYO and Cximare Adams from New York . . . Trivia concerning Mary Decker's 4:17.6 indoor mile: Her fastest ever indoors before that run was recorded in 1973 at 4:37.3; Her splits were 60.1-2:04.8-3:11.6 for lap times of 60.1-64.7-66.8-65.9 . . . Susan Liers of the Island TC, California, won the National AAU 20 Kilometer Race Walk Championship at Kings Point, NY, last November in 1:52:59. She was followed across the line by Jeanne Bocci (Motor City Striders) and Mary Clark of the Eastside TC.

Cal State Bakersfield, after umpteen years without a track of their own, now has a nine lane all weather beauty . . . More changes and additions to the 1979 USA Outdoor List: Gail Volk and Cindy Dalrymple competed for the Seattle TC; add Jane Robinson (Sportswest) in the marathon at 2:43:51, and Anne Vanderhoff (Seattle TC), in the mile walk (8:15.1) and 5km walk (27:41.0) . . . Speaking of Vanderhoff, she ankleed 50km in 5:29:03 for a new US Master's record on February 11 . . . Says Bill Roem publisher of "The Nor'Wester": "Isn't it curious that the only move the government has made in the past 20 years to affect amateur sports has been to break up the umbrella of the AAU and deny travel to the 1980 Olympics in Moscow?"

Doesn't it strike you as at least ironic?"

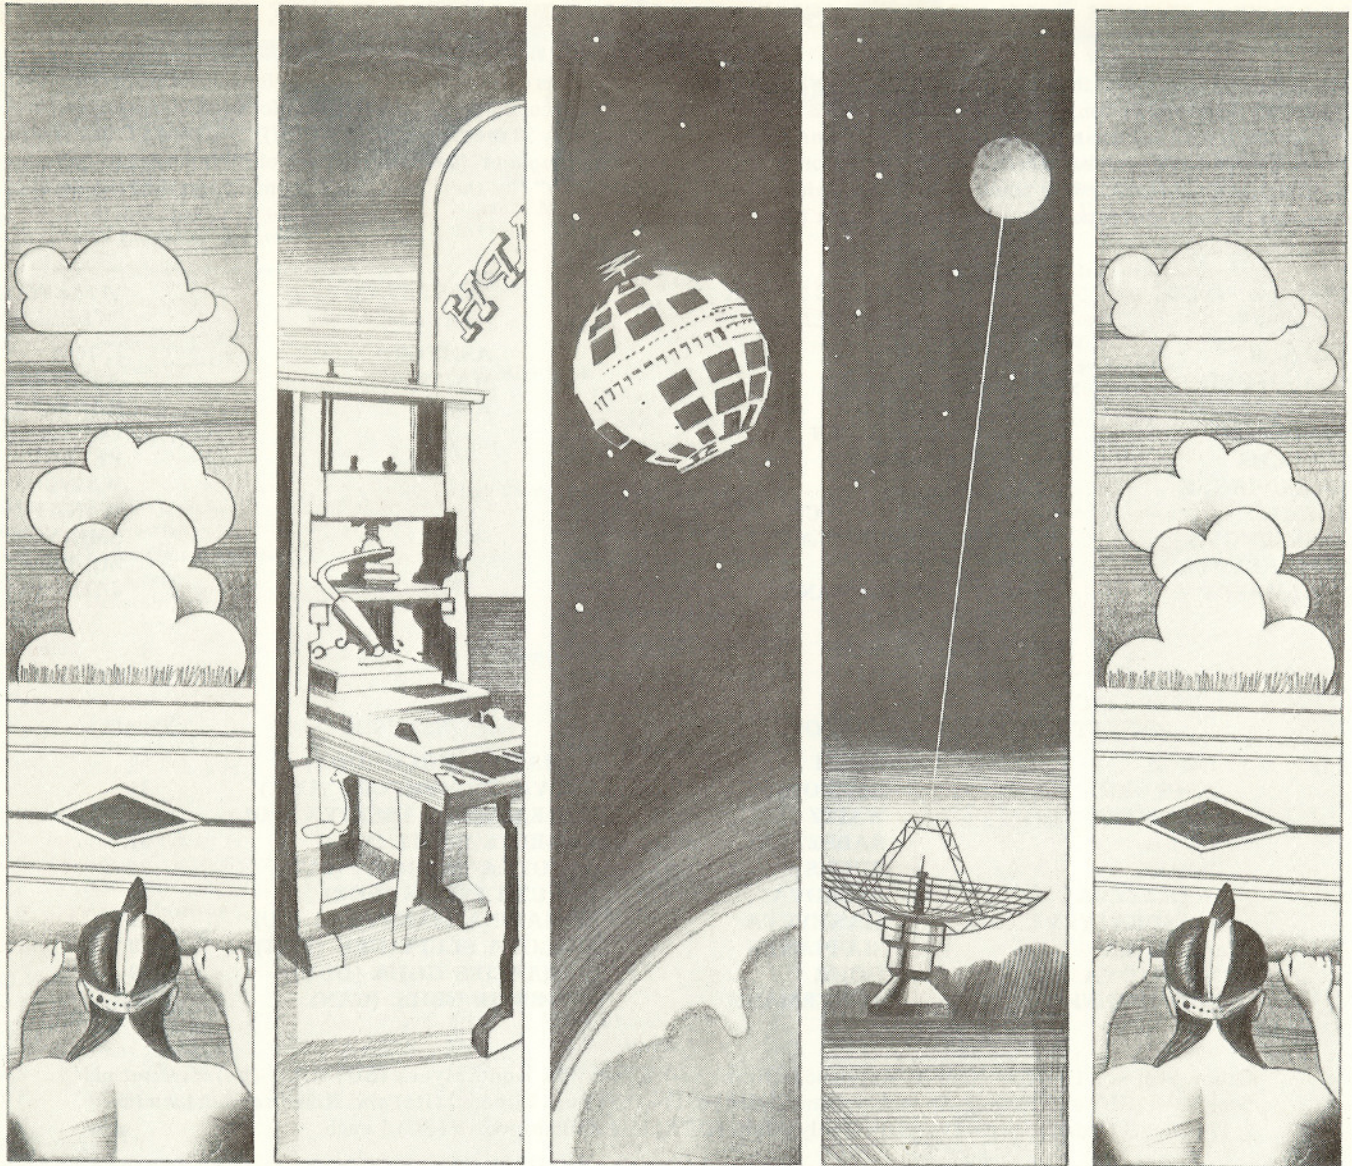

Foreign athletes are occupying more and more prominence in the US collegiate scene. And San Diego State is joining the trend with Olympian Sue Kameli, from Canada, distance runner Monica Joyce of Great Britain and Lynn Kanuka from Canada . . . More on Decker: In her 4:00.8 1500 record-breaking run, her splits were 60.3-2:05.9-3:13.0 or 60.3-65.6-67-1 . . . Add Linda Read, Alameda HS, California, to the 1979 outdoor list in the disc with a toss of 150'2 and Arkansans Diann Ousley a hand-timed 400 in 54.6, Jody Rittenhouse a 1500 in 4:28.9 and the relay teams of the Razorbacks in 46.9 and 3:46.5 . . . And while you're at it, add USC's Kim Robinson 11.83 for 100m, Kathy Haynes 19'6 $\frac{3}{4}$ in the long jump and Lisa Van Bentham's 151'3 toss in the javelin . . . San Jose City College began competition in track in 1979 and recorded a 1:46.0 in the medley relay, 1:42.1 in 4x220 and a 3:49.8 in the mile relay plus a 47.46 in the 440 relay . . . Annual Honolulu Marathon has been moved to Sunday, December 7 — a date that should be remembered . . . More Names I Like: Be Alt and Patti Bean, high schoolers from Alabama. And not to be outdone, there is Lucinda Sparrow from South Carolina, and Carol Ouchi from Hawaii . . . More Decker: Before her record 880 run at San Diego, her fastest indoor half had been run 'way back in 1974 at 2:01.5.

Best sports information promotion of any junior college we have seen has come from Spokane Community College in Washington . . . Best Collegiate track brochure received to date was produced by Janet Heinonen of the University of Oregon. Fantastic . . . Purdue's ace distancer Diane Bussa suffered a pulled sartorius which kept her from the big meets late in the year . . . 1400 high school and college athletes took part in the Kibbie Dome meet in Washington . . . The San Fran-

cisco Cow Palace drove another nail into its coffin to further claim title as the Foul Up Spot of the indoor circuit. First they reversed the order of the runners in a 1-2-3-4 lap relay for age groupers a couple of years ago and waved the little urchins who had prepared to run one lap on around the track for a couple more spins; next they miscounted laps on Grete Waitz world 3000 meter record and now they've done it again at their last indoor fiasco by losing count during the mile relay and cutting one lap off the number three runners.

University of Texas coach Phil Delavan is assured of a job as weather man on any TV station in the US if he retires from coaching. With the weather at a balmy 85° on a day before a big four-way meet with Texas A&M, Texas Tech and Abilene Christian, he abruptly cancelled the affair. What happened the next day? The temperature dropped 57° in one day! . . . You don't have to be Irish or have Irish ancestry to run a good indoor two mile, but evidently it helps. These individuals, all on the 1980 indoor list, verify that statement: Alanna McCarthy, Ann Malone, Marty McElwee, Kelly Spatz, Colleen Hillary, Kate McIntyre, Kelly O'Toole, Ann O'Mara, Ann Mulrooney and Bridget Seip. Be-gorrah . . . Joan Benoit turned in the fastest ever marathon by an American and the second fastest ever run by a woman with her 2:31:23 time in winning at Auckland, New Zealand, on February 3 . . . Gillian Adams, Great Britain, won the Essonne Marathon in Paris on March 16 in 2:39:18 and Grete Waitz won a five miler at San Vittore Olena, Italy, in 17:30.9 the same day . . . Chandra Cheeseborough, not known for her love of 400m, nevertheless ran a good 52.2 for her leg in the mile relay in New York on January 19.

We can't afford to run out of ideas.

How many ideas do you suppose it took to develop human communications from smoke signals that covered a few miles to satellites and laser beams that reach from here to the moon? Most of those ideas came from college-trained minds and college-based laboratories. Now these vital sources of ideas are threatened — by shortages of money that are forcing

colleges to curtail programs, reduce faculty, limit laboratory work, cut down on book purchases for libraries. We must not let this deterioration continue. We can't afford to run out of ideas. Or we may all be back to smoke signals again before we realize it.

With the outdoor season yet to get seriously underway in the United States, the only real outdoor marks we have are from down under as Australian season is in full swing. At the National State secondary schools championships in Melbourne on December 9, Susan Clark boomed 11.5/23.9, presaging her 11.4 a week later at the all-school championships at Perth. She also claimed the 200 against the wind in 24.2 at the latter meet. Fifteen-year-old Kim Thorley, long jumper, 6.33 (20'9¼") at Perth with windy jumps of 6.48 (21'3¼") and 6.40 (21'0"). Diane Holden also ran 54.8 at the Melbourne meet.

Sixteen-year-old twins Ann and Margaret Reddish had an excellent distance series in November, running 9:47.5/9:47.6 on November 11, 2:09.8/2:10.1 on the 17th, and 4:27.5/4:27.6 on the 24th. They were to miss the Perth meet and Linda Cox claimed the 1500 in 4:29.6. Other results: Perth: **100mH**—Robyne Strong, 13.9; **400mH**—Jennifer Low, 59.8; **HJ**—Vanessa Browne, 1.79 (5'10½"); **DT**—Sally Penson, 44.46 (145'10"); **JT**—Sally Wijesundera (15), 44.26 (145'2").

In the US, the indoor season is upon us and the big news comes from the East Coast meets. A Washington Post report of the D.C. Interhigh Championship on December 14 reports a 5'10" high jump by Kim Wood of McKinley but makes no mention of the mark in its story so a typo seems logical. Since then, however, the Washington area has shown some hot running. Sue Miley of Fort Hunt, Virginia, seems to be appropriately named as she has nearly dominated indoor competitions in the mile and two-mile. At the Gunston District AA meet she doubled 5:17.6/11:58.6. Then, on

HIGH SCHOOL TRACK

February 2, she claimed the Naval Academy meet mile in 4:58.4 over Kim Kelly (Dunbar) at 5:01.2. Kelly got her revenge at the CYO meet, taking Miley by one tenth in 5:02.5. Miley did, however, lead her two mile relay to a win in 9:49.2.

Rachel Clary (Sparrow Point) also shone in the CYO as she sped to a 1:23.1 in the 600 yard run. Another multiple performer from the area is Tamela Penny (Hermitage) who took both the hurdles (8.3) and high jump (5'4½") at the East Coast Invitational January 4/5). Piper Bressant (whose hurdle record Penny took) turned in an 8.4, then turned around with a long jump of 18'4½" and a 1:29.3 600. Clary proved her CYO 600 was no fluke as she improved the mark to 1:22.6 at the Naval Academy with Cecile Carter (H. D. Woodson) and Tracy Edwards (Northwestern) right behind at 1:24.7/1:25.0. Penny high jumped 5'6" there also.

Carter is not the only H. D. Woodson athlete with some speed as a quartet of

Carter, Whitehead, Humphreys, West sped 1:45.4 in the 880 relay in the D.C. Public Schools Invitational.

In Pittsburgh, on January 5/6, Elaine Sobansky (Trinity) claimed the Pittsburgh Indoor Classic shot put with a toss of 41'11¼" to highlight that meet.

Finally, Borrklyn Tech and Plainfield (NJ) put on a show for the fans at the Olympic Invitational in Madison Square Garden on January 19. Both teams clocked 3:54.0 in the mile relay, with Tech getting the nod. The Tech quartet of Rachel Hall, Lisa Holley, Andrea Paterson, and Rudelle Sargent now claim a national indoor record while Wanda Jackson, Gayle Counts, Tracy Nelson, and Dorian St. Clair from Plainfield will have to wait till next time.

Unfortunately for Brooklyn Tech, however, Long Beach Poly, after running second to San Geronio (CA) all last spring, has decided to burn the boards and clocked a 3:51.0 anchored by Faye Page at the Ali Invitational (1600 meters).

Doing a great promotion job for both their sponsors and for women's track, we list here the scheduled runs and early results for the L'eggs/YWCA 10000m runs. The winner of each race sponsored by the two boosters gets a free trip to compete in the L'eggs Mini Marathon in New York on May 31.

Jayne Surdyka, 22, of Orlando, won the free trip with her victory in the run at Jacksonville, Florida on February 23. Surdyka covered the distance in 36:39, nearly a minute in front of 15 year old high schooler Laura Davis.

At Houston, Texas, on March 1, veteran Carol Urish, 28, took the gonfalon with a time of 36:12 and will be hotfooting it over the roads of New York come next May. Second was Cindy Tolle, a 14 year old from Plano, Texas. The two covered the

first mile together in a quick 5:41 but at five miles, Urish pulled ahead for good.

Last year's Mini Marathon saw more than 4500 runners taking part — not all, of course, were there with an all-expense paid jaunt courtesy of L'eggs, but the L'eggs runners were the ones you saw wearing smiles.

RESULTS: Jacksonville, Florida, February 23, 1—Jayne Surdyka (Orlando) 36:39, 2—Laura Davis, 15, (Jacksonville) 37:35, 3—Sara Thomas, 18, (Knoxville, TN) 38:00, 4—Ellen McCallister, 18 (Knoxville, TN), 5—Patt Sher, 32, (Jacksonville) 39:52. Houston, Texas, March 1, 1—Carol Urish, 28, (Houston) 36:12, 2—Cindy Tolle, 14, (Plano) 36:49, 3—Regina Rogers, 18, (Houston) 37:35, 4—Melinda Carter, 31, (Austin) 38:35, 5—Janie Calville, 18, (Houston) 39:27.

OVERTRAINING OVERTRAINING OVERTRAINING OVERTRAINING OVERTRAINING OVERTRAINING OVERTRAINING

There are Two Phases of Conditioning

(From HTC News, Huntsville, Alabama)

Recently a 34 year old runner came into my office stating that he has been tired and rundown for the last several weeks. His legs felt tired and heavy when he ran. He was depressed because he could not improve his times or increase his distance. The harder he trained the worse he felt.

This is a classic example of overtraining or staleness and has been experienced by almost every runner sometime during his running career.

The problem with this state of staleness is in early detection. Staleness often strikes with very little warning, while runners are in the peak of condition.

Frequently, while training for a big race runners get to a point where training is going better than they expected. After they run they feel as if they could have gone twice as far. Then they get greedy. They think if they feel this good one month before the race then if they increase their training, no telling how fast they could run the race. Then staleness hits, they fall off of their peak and over the cliff into fatigue and depression or some musculo skeletal injury.

The cause of staleness is simple. There are two phases of conditioning. Destruction and rebuilding. If one of these phases is left out no conditioning will result.

During the destruction phase, muscle tissue is broken down, waste products accumulate, electrolyte balance is disrupted and glycogen stores are depleted.

Rebuilding occurs during this period in between runs. The body attempts to repair muscles, flush out waste products, restore electrolyte balance and glycogen stores.

Each time the body goes through this

process it rebuilds a little stronger than before to compensate for the increased work load put on it during training.

Staleness occurs when the body is not allowed enough rest and nutrition to rebuild. And the destruction exceeds the body's ability to repair itself. Therefore, the net result of training is negative.

As with other perils of running prevention is the key. Runners should incorporate a routine day off once a week, alternating hard and easy days and increase sleep. Taking your morning pulse may tell you if you have recovered from the preceding day's training. An increase of 10 beats per minute signals that you should take it easy that day.

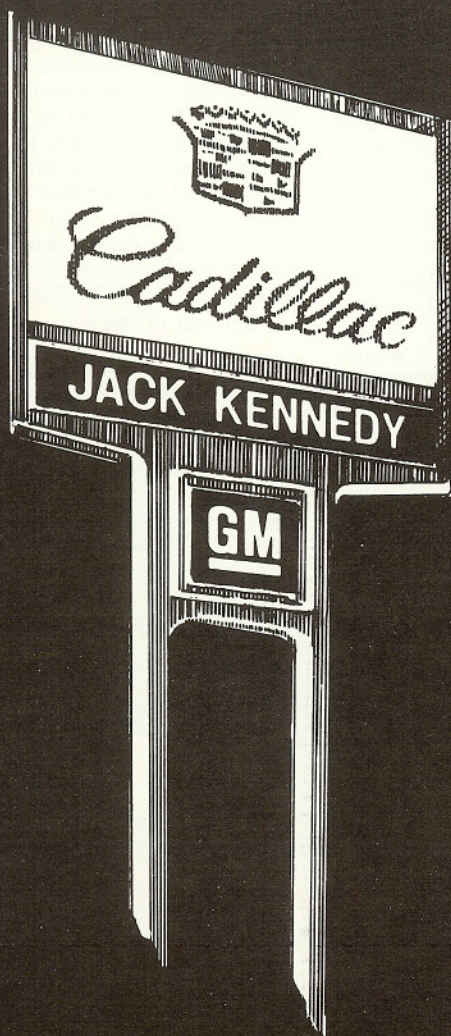

Runners should be aware that after a peak performance or setting a new personal record it is a warning it is time to drop off a little in training. Pursuing further improvement with more work is frequently destructive, as so many runners have discovered.

One of the clearest warnings of impending staleness is a bad race. Nine times out of ten a bad race means the runner is overtrained. The impulse is to go out and train harder; however, this only digs the pit deeper. Once staleness hits no therapy beyond cessation of activity seems to help. Individual recovery time varies from three days to two weeks. When the runner can look on the prospect of running with zest the staleness is usually over.

Remember, progress never travels a straight line. There are peaks and valleys and these must be accepted as a normal pattern on the road to progress. When this is realized, then we will come out of the valleys stronger and our new goals will be reached.

Nation Championships

New York, New York, February 29 — The first-ever TAC/USA Indoor Track and Field Championships, replacing the extinct AAU, was won by perennial powerhouse Tennessee State University. The Ed Temple coached troop won by the narrowest of margins with 13 points to 12 for the Ali Track Club and 11 for the DC International TC and the Los Angeles Mercuertes. All four of the top teams were speed oriented. The Muhammad Ali crew won two events, the 440 yard dash and the mile relay, while each of the others picked up a single gold.

As is usual in this meet, good marks were standard. The world's top 1979 sprinter, Evelyn Ashford, who has been knocking off opponents all indoor season by huge margins, had her hands full this time with TSU's Brenda Moorehead as both runners clocked 6.76 in the 60 yard sprint. Ashford remained unbeaten through the 1980 campaign.

Jamaica's Merlene Ottey, now a freshman at the University of Nebraska, shook everyone up in the first heat of the 220 with a clocking of 23.6, best on record for that distance. Since the mark was hand-timed, however, it will not go into the record books. Converted to meters and adding the .14 however, Ottey's time places her No. 6 on the world's 200m list. Strange things happened in the 220. First of all, the only heat which did not have FAT (Fully Automatic Timing) was the first one of the four — a slip which negated Ottey's fine run. Secondly, the seeding of the heats once again comes into question. Let it be known that Chandra Cheeseborough, TSU, finished second in that first heat in a hand-timed 23.7, the fastest time ever run by a US citizen — and she did not even qualify for the final! Her time puts her as No. 10 on the All-Time World List, yet she sat on the sidelines and watched the final. The final, incidentally, was not won by Ottey. It was won by Memphis State's Wanda Hooker in 24.0, another malfunction of the automatic timer. What happened to Ottey? She was third after one of the most horrible of starts. Ottey evidently forgot the basic rule of starting — when the gun sounds, you can run. Using a standing start for some unknown reason, she made her first move at the gun by sliding her weight backward to get a push off her back foot and by the time she started to move forward, the other three finalists were long gone.

Veteran Rosalyn Bryant won the 440 with a new meet record in 53.92 over Gwen Gardner and Yolanda Rich. Once again questions arise about the Garden's automatic timing device. In the final, the first two were timed automatically, but the other three were hand-timed. Still Rich's 54.5 third place hand time, converted, moves her to the No. 7 US List.

Madeline Manning, the 1968 Olympic Games 800 meter champion, won again in 1980 over the half mile route. Her clocking of 2:04.5 was a new meet record. The record was also bested by another veteran, Robin Campbell, who was just two-tenths behind. Manning's time puts her as the No. 2 All-Time US performer and Campbell as No. 3 — both behind Mary Decker's new 1:58.9 clocking this season.

Cindy Bremser was the star of the distance runs and was selected as the outstanding female performer of the meet for her win in the two miles and runner-up spot in the mile. California's Maggie Keyes annexed the mile in 4:39.3, a time which moves her into the No. 10 spot on the All-Time US List. Bremser's 9:45.0 winning time in the two mile was the No. 3 performance by an American ever and the No. 5 position on the World All-Time List. The two mile rewrote the All-Time Lists with Brenda Webb, Margaret Groos and Jenifer White all moving onto both US and World Lists, and Joan Benoit back in 5th place, making the All-Time US List.

Stephanie Hightower and Candy Young staged another of their ding-dong battles in the 60y hurdles. Hightower won a narrow victory — the only kind of a victory either of these two ever register over the other — as both were clocked in 7.4 (hand-timed again).

As in the running of the 220, there were strange things happening in the 60y hurdles. Again the seeding was strange. In the first heat, Hightower won as expected in 7.69. Second was Lori Dinello whose time of 7.72 placed her in a tie for the 6th best ever by an American. Dinello was followed by Jacki Washington. Her time of 7.72 made her the other individual tied for 6th on the All-Time US List. Fourth in the first heat was Karen Wechsler clocked in 7.74, a time which put her on the US List in a tie for 8th. Last in the heat was Benita Fitzgerald in 7.94.

In the second heat, Candy Young win

in 7.59 but Sharon Colyear, who was second, would have been fifth in the first heat. Nevertheless, the final results place Benita Fitzgerald, who was last in the first heat, as fourth place leading one to ask "Where was Jacki Washington?" Of course, the final was hand-timed which ruined all record aspirations, too.

Sue Brodock, who set a new world record for the one mile walk recently, annexed her event by five seconds. Once again, true track aficionados should be alerted that if these California walkers ever get together and compete for the same club, they will win the USA Track and Field Championship team title — without any sprinters or hurdlers or distance runners or weight throwers or jumpers.

Pat Johnson, University of Wisconsin, scored an upset to win the long jump with a lifetime best of 20'11½. Right behind was Carol Lewis, also with a lifetime best at 20'10½. These two move to the Number 4 and 5 positions on the All-Time US List. What happened to the favorites? Kathy McMillan almost didn't make it into the final as she fouled her first jump in the trials, leaped only 17'7 on her second, but came through with flying colors on her last attempt with a leap of 20'5. The other favorite, American outdoor record holder Jodi Anderson, hopped 20'4½ on her first round attempt, injured herself and withdrew for the rest of the day.

For sheer class, the high jump must win the gonfalon. Eight jumpers entered and at 5'10, Yolanda Gibson was out. At 6'0, the field lost Kim Harrell and Marilyn Dubbs. 6'1 saw Pam Spencer, Paula Girven and Wendy Markham bite the dust, leaving only Sharon Burrill and Louise Ritter. Both missed once at 6'2, but both were over on their second tries. Up went the bar to 6'3. First up was Ritter, and she flopped over. Burrill missed her first attempt, but was over on her second. The bar was raised to 6'4½, but both jumpers failed and Ritter won on fewer misses. Burrill is now the No. 3 on the US All-Time List while Wendy Markham makes the top 10 as equal No. 7.

Maren Seidler and Ann Turbyne shuffled out of the shadows to once again place their perennial 1-2 in the shot. Seidler tossed the bulb 57'0¾ for a routine mark, but Turbyne had her best-ever at 53'5¾ moving her into a tie for the No. 2 All-Time US position with Lorna Griffin. Kathy Devine had her best-ever throw at 52'2¾.

MARY DECKER

by Mel Watman
from "Athletics Weekly"

Our sport is strewn with examples of young prodigies who, for a variety of reasons, never made it as senior athletes — girls in particular, for whom the physical changes of adolescence have often ruined a promising career. Injuries, school-leaving, dating, loss of interest or motivation, lack of skilled or sympathetic guidance, inability to adjust to being for a while at least a small fish in a large pond once their age-group competition is left behind . . . these are among

other factors which can prevent a talented athlete from fulfilling her potential.

A classic case in point, or so it appeared until quite recently, was Mary Decker, the American middle-distance runner who achieved world-wide fame at the age of 14. Where was she at 19? Sunk without a trace, it seemed. But happily that was not the case, for despite repeated injury problems which would have driven anyone with less resolve out of the sport for good, she never lost her determination to show that good as she was as a

little girl she had a lot more to offer as an adult. At the age of 21 she is now the swiftest female miler of all time and a prime contender — America's first-ever — for the Olympic 1500m title if given the chance.

Mary began running at age 11 and at the ripe old age of 12 set a world age best of 2:12.7 for 880y and ran 3:09 for the marathon; at 13 she ran a 4:55.0 mile. Next came an emergency appendectomy, injuries to the ankle and heels, plaster casts — but in 1973 she was back and was a close third in the USA-USSR indoor

meet in Richmond running the mile in 4:40.1. The winner was Olympic 1500m champion Lyudmila Bragina. That summer, still only 5'0 and 86 pounds, she ran a 2:02.4 800m, then whipped Russia's Niola Sabaite in 2:02.9. AW described her as "A skinny little Californian, all arms and legs and forward lean".

Between age 15 and 16, she shot up six inches and gained about 25 pounds. As a consequence of this growth spurt and the continued hard training, she developed acute leg pains. For three years she tried everything: acupunc-

ture, acupuncture, orthotics, injections with radio-opaque and radioactive dyes to take x-rays, they put casts on and took them off, have her drugs — cortisone, of course, and every other anti-inflammatory drug you can think of, drugs that are illegal, drugs they give to horses, drugs that made her hair fall out in clumps and her legs swell up. That Decker survived three years of medical experimentation unscathed says something about her enormous reserves of strength and vitality, and through it all, she never lost hope — or almost never.

Most of the rest of the story is known. The chance meeting with Dick Quax of New Zealand, who had had the same problem, the operations for two years. Fate has at last been kind to Mary Decker and she has been able to run and train unfettered. Now she has run 4:17.6 and 1:58.9m indoors.

"Everything has been aimed towards Moscow", she says. And if anyone deserves to succeed in her ambitions it is surely Mary Decker.

England Downs Germany

London, England, February 3 — The United Kingdom nipped visiting West Germany 59-54 in a dual meet staged at famous Cosford. No earth-shattering marks were recorded, but some interesting competition developed. For the first time ever, an English subject tossed the shot beyond the 17 meter mark (55'9) as Angela Littlewood and Judy Oakes engaged in a real battle from the circle. Littlewood exploded with a 17.05/55'11¼ on the fifth round to edge Oakes who had a lifetime best of 16.84/55'3. Fifteen-year-old Linsey MacDonald lowered her new UK indoor 200 mark by a tenth with a 24.2 clocking.

The Germans didn't bring along many of their big guns (Meyfarth, Wilms, Holzapfel, Ulrich to name a few), but the

hosts didn't have their top performers on hand either.

Anke Weigt at German Championships

Dortmund, Germany, February 8/9 — Anke Weigt hopped into the Number 4 spot on the All Time World Indoor List when she won the long jump with a leap of 6.71/22'0¼ to highlight the Annual West German Indoor Championships. Weigt had a good series which included a jump of 6.64/21'9 and yet another beyond the 21 foot mark. She also ended her series with a hop of 16'10½, evidently drained from the excitement of her fifth jump, the record-making leap. The long jump was the best event during the two days with fifth place jumping almost 21 feet (20'11¾). Best event on the track was the 200 which saw Heidi Gaugel win in 23.60, the sixth best mark ever, and Gaby Bussman turn in the #8 mark of all time with her second place finish in 23.71. Sunkist

Los Angeles, CA, February 15 — Not to be outdone by the poor set of women's events and competitors at the only other LA area indoor meet of the year, the Los Angeles Times affair at the Forum on February 1, the Sunkist Invitational managed to stay on par with its competitor and reaped the result of little interest in its annual affair which usually is quite good. Gwen Gardner turned in a fine performance in winning the 500 yards in 1:05.1, a mark which puts her #3 on the All Time USA List and #4 on the World List. Gardner had to hustle to finish ahead of Denean Howard with a

time of 1:05.6 and Deanne Gutowski at 1:06.2. Howard advanced to #7 on the US List and tied for #8 on the World List while Gutowski moved onto the US List tied for #10 spot.

Meet management did import Jan Merrill for the 880, but she was beaten by Stanford TC's Robin Campbell in a slow race. For other events, athletes were rounded up from such far away spots as Inglewood, Pomona and Westwood. Good to see Pat Van Wolvelaere back in the hurdles.

Other good marks were turned in by Zambrzycki and Waltman with 7.3 hurdle performances, a 45'7¼ toss of the shot by Themis, 5'9 high jumps by Harrington and South Africa's Heidi DeKock and a scintillating 2:10.0 800 by Waltman, a new world pentathlon best. Old mark was 2:16.0 by East Germany's Burglinde Pollak.

In other events, Felicia DuPuch of the Colorado Flyers, took the 300 meters in a fast 39.0 for the #3 spot on the All Time USA List and Nancy Miller (Utah State) became the #4 with her 39.3 mark. In between the two Americans, Thais Zambrzycki clocked 39.2.

Decker Gets World Mile Best

Houston, TX, February 16 — Mary Decker whipped through a mile in 4:17.6 to completely destroy all records for that distance. Decker began with a 60.1 opening quarter and never looked back as she cut a whopping four plus seconds off the best ever run before, a 4:21.7 she did outdoors in New Zealand earlier this year. Mary had no feeling, however, for statisticians — for what do we do with the record? It cannot be counted as an outdoor record since it was run indoors, yet it cannot be counted as an indoor record due to the fact it was run over a five lap per mile track, twice as large as the accepted 220 yard maximum. Whatever the record may be called, it can also be called the greatest mile run of all time and certainly she will exceed her 4:17.6 mark when she gets outdoors and also gets some competition. Second place in her record run was 33 seconds to the rear!

The other two women's events were also quite good. Tatyana Anisimova won the 60m hurdles in 7.76 and Louise Ritter continued the USA's fine 1980 high jumping by winning at 6'2.

RESULTS: **Mile**, 1—Mary Decker (Athletes West) 4:17.6 (world record), 2—Debbie Mitchell (UTEP) 4:50.6, 3—Nancy Scardina (Un) 5:00.1; **60mH**, 1—Tatyana Anisimova (USSR) 7.76, 2—Yetkarina Smirnova (USSR) 7.92, 3—Linda Weekly (Tx Stn) 7.93; **HJ**, 1—Louise Ritter (TWU) 6'2, 2—Smirnova 5'10, 3—Martin (PV) 5'8.

Edmonton Games

Edmonton, Canada, February 16 — The Second Annual Edmonton Journal Games held only four events for women, but they were all good ones. Kim Turner, a Mississippi freshman now at the University of Texas, swept to a close win in the 50y hurdles, clocking 6.98 and moved into a tie for second on the All Time USA List. Turner had to hustle as she just outleaned Canadian Sharon Lane, also clocked in 6.98. A good field tangled in the 50y dash with Canada's Angela Taylor winning it in 6.22, the equal Number Four mark on the All Time World List. Taylor's mark was only three one-hundredths of a second off the world mark.

The 800 brought together another fine field with Canada's World Cup performer Ann Mackie-Morelli passing the 400 mark in a swift 59.1. This was not Morelli's night, however, and she was caught by Debbie Campbell with half a lap to go. Campbell clocked 2:05.3 for the win to 2:05.9 for Morelli.

Only one field event, the high jump, was staged for the women, but it had the class field of the night. World record holder Andrea Matay of Hungary finally won it at 6'2¾ over Pam Spencer, Debbie Brill, Tamami Yagi, Paula Girven and Joni Huntley. Matay, Spencer and Brill didn't enter the competition until the bar was at 5'9.

880 Record to Decker

San Diego, February 22 — Mary Decker kept up her swift 1980 pace here tonight by knocking the world indoor best for 880

yards from 2:02.4 down to 1:59.7. Only two races were conducted for the women, and both turned out to be walkaways. Decker's closest competitor in the 880 was Robin Campbell who finished 11 seconds later. Deby LaPlante annexed the 60y hurdles in a modest 8.2, but that was nearly half a second ahead of runner-up Maureen McGee.

Decker's half mile mark is a good one in spite of the fact this distance is not run much on the indoor circuit. She owned the former world record which she set way back in 1974, but her time converts to 1:59.0 for 800 meters, the second best ever run and beaten only this season by Russia's Olga Vakrusheva at 1:58.4s.

Wisconsin Big 10

Lafayette, Indiana, February 22/23 — To the surprise of no one, the University of Wisconsin won the Big Ten Indoor Championship with ease, nearly 50 points ahead of second place Ohio State. But to the surprise of everyone, it was not the vaunted distance crew of the Badgers who turned the tide of victory. Wisconsin won only one distance run, the 1500 with Susie Houston and Mary Stepka going 1-2. They could do no better than 8th in the 3000, 5th in the 5000 and 3rd in the 800. But they were 1-2 in the pentathlon, won the 400, two relays and two of the three field events. Good performances were the rule of the day. Ohio State's Stephanie Hightower grabbed wins in the 60 and 60 hurdles and added a second in the 200. Hightower's winning 8.17 in the hurdles equalled the All-Time US best which she already had. Teammate Lorrie Oldham won the 600 in 1:32.13 for the Number 5 spot on the All-Time US List.

Eastern Association Championships

Cambridge, MA, March 1/2 — National caliber performances highlighted the Eastern Women's Track Championships at Harvard University, where 65 schools competed in one of the top competitions of the year. The University of Maryland, behind incredible strength in the field

events, won by four points over Morgan State which stood out in the running events.

The focus of the meet was on Darlene Beckford' Harvard freshman, who edged out Villanova's Brigid Leddy to set a new national collegiate record in the mile at 4:32.3. Leddy was not far behind, clocking 4:34.0 flat. In another new collegiate record performance, Villanova took command from the start and shattered the old 4x880 mark by 10 seconds. Harvard, who was second, was also under the old mark. Adelphi's June Griffith, after qualifying in the 440 with a 54.0 race, sped an unbelievable 22.8 anchor leg of the winning 880 relay and then was forced to scratch from the quarter final because of a back problem.

Ashford Another Record

San Francisco, CA, February 23 — Evelyn Ashford cruised to yet another American record when she annexed the 50 meter dash in 6.26 seconds, winning by nearly two-tenths of a second over Sharon Ware. That was about the only decent performance at this annual Cow

Palace affair. Robin Campbell whipped Jan Merrill over 800 meters in not too swift a race and the other events were even less so.

Sandy Burke Now Number 9

Boston, MA, February 23 — Sandy Burke unleashed a toss of 50'11 to win the shot and move into the Number 9 position on the All Time USA Indoor List. Her efforts failed to boost her team however, as Northeastern failed to get into the top 10 as 21 teams scored points in the New England Championships. Sharon Colyear won the 55 and hurdles and anchored the winning 4x200 relay team as Boston University edged Connecticut and Rhode Is-

land 62-61-60 for the team gonfalon.

European Championships

Sindelfingen, Germany, March 1/2 — The East Germans stayed home and the rest of Europe came to this West German town with only token teams, but despite these drawbacks, the meet produced one new world record and a passel of outstanding performances. Although no score was kept, Poland provided the most place winners and had the meet been scored on a 5-3-2-1 basis, the Poles were easy winners with 26 digits followed by West Germany with 15 and the Soviets with 14.

Star performer of the competition was Poland's "second-string" hurdler, Zofia Bielczyk, wife of the 1976 Olympic fourth placer in the javelin, who stepped to a

new world mark in the 60m hurdles with a sensational 7.77 clocking. Bielczyk also picked up a fourth in the 60m dash. Another top clocking came in the 60 with Bulgaria's Sofka Popova winning the title and clocking 7.11 in both her semi and final races, second fastest ever, only 1/100th from Marlies Gohr's world best. Popova, incidentally, was last in the 1979 final.

In other events, Germany's Elke Decker won the 400 in 52.28, seventh best ever, Jolanda Januchta (Poland) and Anne-Marie van Nuffel (Belgium) were 1-2 in the 800 in 2:00.6 and 2:00.9, the seventh and tenth best ever marks. The high jump was a classic with seven jumpers still in the competition at 6'2 3/4. Italy's Sara Simeoni won it at 6'4 3/4 over Hungary's world record holder Andrea Matay at 6'4. Simeoni made three tries at a new world indoor mark of 1.99/6'6 1/4, but failed. Poland's Anna Wlodarczyk (22'1 1/2) and Anke Weigt (Germany) at 21'11 produced the second and third best ever indoor long jumps and Helena Fibingerova, Czechoslovakia's aging world record holder in the shot, got off a put of 65'4 1/4 on her first effort and captured that title.

Russians Win

Paris, France, March 9 — Seventeen nations gathered for the staging of the Annual IAAF Cross Country Championships, but the Russians turned it into a rout. KALEIDOSCOPE

(continued from page 6)

"Track and Field News" prints the same sad song we are constantly singing: "This illustrates one of the terrible dichotomies wrought by the changeover in timing emphasis from hand to automatic: the world's all-time list at 300y is virtually all automatic timing, (but) at the slightly longer metric distance to 300m, nobody has ever run an automatic time of any note . . . Oh, for the day when all sprint races everywhere will be automatically timed" . . . In international competition at least, the IAAF has announced the number of attempts in the high jump no longer makes any difference in the tie-breaking rule . . . Clydine Crowder, former National AAU Junior 400m hurdle champ, is now a security officer at UCLA, carries a gun and everything. It would probably be safer to have her shooting at you than running after you . . . Susan Vigil, the 1979 AIAW 800 champ, is expecting . . . In both "Women's Track World" and "Track and Field News", Sherry Calvert has been listed as track coach at UCLA. She isn't of course. UCLA is coached by Scott Chisam while Sherry's stomping ground is good ol' USC . High jumper Rosemarie Ackermann, last of the red hot straddlers, will retire after the Olympics . . . The OLDEST world record on the books for women was made in 1976 . . . Not a single track publication in the world favors the Olympic boycott . . . From the coach's bulletin board: "The young man knows the rules. The old man knows the exceptions".

Bulgaria and Romania applied to the IAAF for reinstatement of their athletes who were suspended indefinitely for use of drugs last season, and the IAAF approved their request. The suspended athletes will become eligible for international competition on July 1, 1980, just a couple of weeks before the start of the Olympic Games. Which means you will be seeing Ileana Silai, Tonka Petrova, Natalia Maracescu, Sandra Vlad and Daniela Teneva at Moscow . . . Jodi Anderson, Valerie Brisco and Sandra Howard have withdrawn from Cal State Northridge . . . Wendy Knudson will be a mother in May.

Benoit American Record for Marathon

Auckland, New Zealand, February 3 — Joan Benoit cruised to a new American Record in winning the women's division of the Choysa International Marathon in a quick 2:31:23, the second fastest ever behind Grete Waitz' world record. Joan finished 22nd in the field of 327 finishers and received a great ovation from the spectators. "Athletics Weekly" reported "she looked as though she could have run further, which was more than could be said for most of the men — before long it looked like a battlefield with runners stretched out all over the road and pavements with the worse cases keeping the doctors busy until nearly midnight". Second in the women's race was New Zealand's Alison Deed in 2:51:45.

In other marathon news, Denmark's Rasmussen won the Orange Bowl Marathon in Miami in 2:40:35 and Patty Lyons annexed the Bermuda marathon in 2:46:52 ahead of Janis Arenz (2:47:10) and Fran Madeira (2:49:58). At the same occasion, Grete Waitz won the 10k race in 32:02 ahead of Ellison Goodall (34:47) and Lyons (35:01).

Swift 400 at Northridge

Northridge, CA, February 24 — The Southern Pacific Association officially opened its 1980 outdoor season on the all-weather, no bleachers, one-seat rest room facility at Cal State Northridge with a speedy 400 meters and some good long jumping grabbing the spotlight. Cal State's Jackie Pusey zipped to a 53.99 clocking in the one lap affair to score over such stalwarts as Yolanda Rich, Rosetta Birt and others. Jodi Anderson, still missing the takeoff board, managed to leap 21'2½ to win that event over a field of good jumpers.

RESULTS: **100m**, 1—Lisa Hopkins (Ing. Panthers) 11.61w, 2—Yvette Evans (LAM) 11.86w; **200**, 1—Lisa Hopkins (IP) 23.81w, 2—Latanya Dawkins (CA HS) 24.62w; **400**, 1—Jackie Pusey (CSLA) 53.99, 2—Yolanda Rich (Ali) 54.03, 3—Rosetta Birt (C. USC Downs CSLB

Los Angeles, CA, February 29 — Using the new NAGWS scoring system (7-5-4-3-2-1), the USC Trojans defeated visiting Cal State Long Beach 129-125 in a dual meet on the new tartan oval on the USC campus. Apparently winning the meet was not too important to either coach for in only two events did the full complement of six athletes take part. Either team could have won simply by entering a few more competitors.

Best mark of the competition was Gail Douglas' 200 mark of 22.9, but unfortunately the sprinters had started from the wrong line. Other than that, the three throwing events provided the meet's high spot with good performances in all three events.

RESULTS: **400mH**, 1—Lynn Davis (USC) 65.9, 2—

UCLA Downs Arizona State

Westwood, CA, March 1 — Two of the top dual meet teams in the USA opened the 1980 outdoor season by having at each other and the Bruins of UCLA edged their Arizona State opponents 67-59. The Arizona lasses opened the meet by threatening to blow the Uclans out of the stadium and after the field events and the 400 relay and the 100, they had piled up a 32-13 advantage. But Scott Chisam's crew began to eat away at the lead. Linda Goen and Sheila Ralston grabbed 1-2 in the 1500, Lisa Gourdine whipped Brenda Calhoun in the hurdles with a swift 13.75 and won the long jump, Goen and Cynthia Warner took 1-2 in the 800 and with only the 3000 and mile relay remaining, Arizona State led 59-53. Back onto the track streaked Goen and Ralston and the Uclans swept the distance run and led 62-59. With the meet depending on the 4x400, UCLA made a mockery of the race, winning by more than a hundred yards in a good 3:43.5 to capture the day.

Good early season marks were turned in by ASU sprinter Val Boyer (11.68 and 23.98) and weight thrower Ria Stalman (47'1¼ and 176'11). Another Wildcat, Celeste Wilkinson, had a fine throw of 167'7 to win the javelin. But it was the team effort of the Uclans which turned the tide and marked the Bruins as a team to beat in 1980.

RESULTS: 100, 1—Val Boyer (ASU) 11.68, 2—Crawford (ASU) 11.83; 200, 1—Val Boyer (ASU) 23.98, 2—Arlise Emerson (UCLA) 24.80; 400, 1—Oralee Fowler (UCLA) 53.4, 2—Arlise Emerson (UCLA) 55.0; 800, 1—Linda Goen (UCLA) 2:09.2, 2—Cynthia Warner (UCLA) 2:10.9; 1500, 1—Linda Goen (UCLA) 4:34.6, 2—Sheila Ralston (UCLA) 4:36.7; 3000, 1—Linda Goen (UCLA) 9:45.6, 2—Sheila Ralston (UCLA) 9:52.7; 100H, 1—Lisa Gourdine (UCLA) 13.95, 2—Brenda Calhoun (ASU) 13.95; 4x100, 1—ASU (Crawford - Calhoun - Bryant - Boyer) 46.03, 2—UCLA 48.92; 4x400, 1—UCLA (Emerson - Gourdine - Law - Fowler) 3:43.5, 2—ASU 4:02.5; HJ, 1—Colleen Reinstra (ASU) 5'10, 2—Chris Remmling (UCLA) 5'8; LJ, Lisa Gourdine (UCLA) 19'2½; SP, 1—Ria Stalman (ASU) 47'1¼, 2—Heidi Kauti (UCLA) 45'8; DT, 1—Ria Stalman (ASU) 176'11, 2—Leslie Cart (ASU) 170'9, (Lisa Vogelsang, Un, 165'7); JT, Celeste Wilkinson (ASU) 167'7.

3-Way at Las Vegas

Las Vegas, NV, March 1 — UNLV hosted San Diego State and the University of Arizona in a non-scoring affair to blast off the 1980 outdoor season. Good early season marks were the rule with Deby LaPlante's 13.5 clocking in the 100m hurdles probably the best performance of the day. Joy and Joan Hanson of Arizona dominated the distances and the Nevada crew copped the short stuff.

RESULTS: 1500, 1—Joyce (SDS) 4:34.6, 2—Joan Hansen (A) 4:35.0; 3000, 1—Joy Hansen (A) 9:46.0, 2—Joan Hansen (A) 9:48.0; 100H, 1—Deby LaPlante (SDS) 13.5, 2—Cecelia Branch (UNLV) 14.0, 3—Crump (UNLV) 14.2; 4x100, 1—UNLV 47.1, 2—SDS 47.2; HJ, Stafford (SDS) 5'8; LJ, 1—McLaughlin (SDS) 19'0¼, 2—Vanessa Jones (UNLV) 19'0¼.

Hatfield in Pentathlon Victory

Santa Barbara, CA, March 25 — High schooler Sharon Hatfield scored her lifetime best of 3911 to win an Olympic Development pentathlon competition at the UC Santa Barbara field here today. Hatfield's score puts her the Number Three all-time high school scorer. Among her performances was a 15.15 mark in the hurdles, 5'5¼ in the high jump, 18'3¼ for the long jump and 2:15.4 in the 800. Pomona-Pitzer's Jenny Stary won the shot at 40'3½ and Luanne Morris of UCSB took the high jump with a super effort of 5'10½.

RESULTS: 200, Kelly (UCI) 25.3; 800, Kanuka (SDS) 2:13.4; 1500, 1—Torrans (SDS) 4:48.2, 2—Garcia (SDS) 4:48.6; 4x100m, UC Irvine 48.9; 4x440, San Diego State 4:04.1; LJ, McLaughlin (SDS) 18'7½; SP, Toman (UCI) 42'0; DT, Toman (UCI) 150'7; JT, Dibbs (SDS) 133'7.

Discus Record

Las Vegas, NV, March 1 — San Diego State easily won a triangular affair against UNLV and Arizona University, but the big news of the day was the new

Collegiate record in the discus by Meg Ritchie of Arizona. Ritchie, a citizen of Great Britain, caught the famed Las Vegas wind for a toss of 202'11, far beyond her own personal record and became the first US collegian to go past the 200 foot mark. San Diego's Deby LaPlante eased through a hand-timed 13.5 for the 100m hurdles.

RESULTS: SP, Bonnie Dassie (SD) 40'8; JT, Debbie Dibb (SD) 144'4½; 1500, 1—Monica Joyce (SD) 4:34.6, 2—Joan Hanson (Ar) 4:35.0; 4x100, 1—UNLV 47.1, 2—SDS 47.2; 100m, 1—Cecilia Branch (UNLV) 11.9, 2—Sheila Polk (UNLV) 12.1; 400, Felicia Pinner (UNLV) 57.4; 100H, 1—Deby LaPlante (SD) 13.5, 2—Cecilia Branch (UNLV) 14.0, 3—Ann Crump (UNLV) 14.2; 800, Monica Joyce (SD) 2:13.6; 400H, Susan Kameli (SD) 67.1; HJ, Patty Stafford (SD) 5'8; DT, 1—Meg Ritchie (Ar) 61.88/202'11 (American Collegiate Record), 2—Bonnie Dassie (SD) 120'8; LJ, 1—Carrie McLaughlin (SD) 19'0¼, 2—Vanessa Jones (UNLV) 19'0¼, 3—Ann Crump (UNLV) 18'9; 200, 1—Yvette Bullard (SD) 24.9, 2—Deby LaPlante (SD) 25.6; 3000, 1—Joy Hansen (Ar) 9:46.0, 2—Joan Hanson (Ar) 9:48.0, 3—Marjorie Kaput (Ar) 10:07.9; 4x440, San Diego 3:58.6; Scores, 1—San Diego State 81, 2—UNLV 39, 3—University of Arizona 35.

Cal. Whips Cal Poly and Stanford

Stanford, CA, March 1 — Powerful University of California had little trouble downing Cal Poly (San Luis Obispo) and Stanford in a triangular affair in the Stanford oval, although Cal Poly gave the Bears some uneasy moments. Final score saw the California group with 113½ to 97½ for Cal Poly and 28 for Stanford.

Some rare timing was recorded by the officials. In what must be listed as "questionable" at least, EVERY runner in the 800, 1500, 3000, 5000 and all three teams in the mile relay finished EXACTLY on the even second: 4:27, 4:28, 4:30, 4:41 and 4:41 in the 1500 for example. In all, 23 marks were listed as exact even time. One for Mr. Guinness perhaps. Or possibly time for new officials.

Alice Trumbly scored a double for the Bears in the 800 and 1500 as did Keilia Bolton in the two sprints. As is usually the case with early season outdoor affairs, this one produced nothing to rattle the record books.

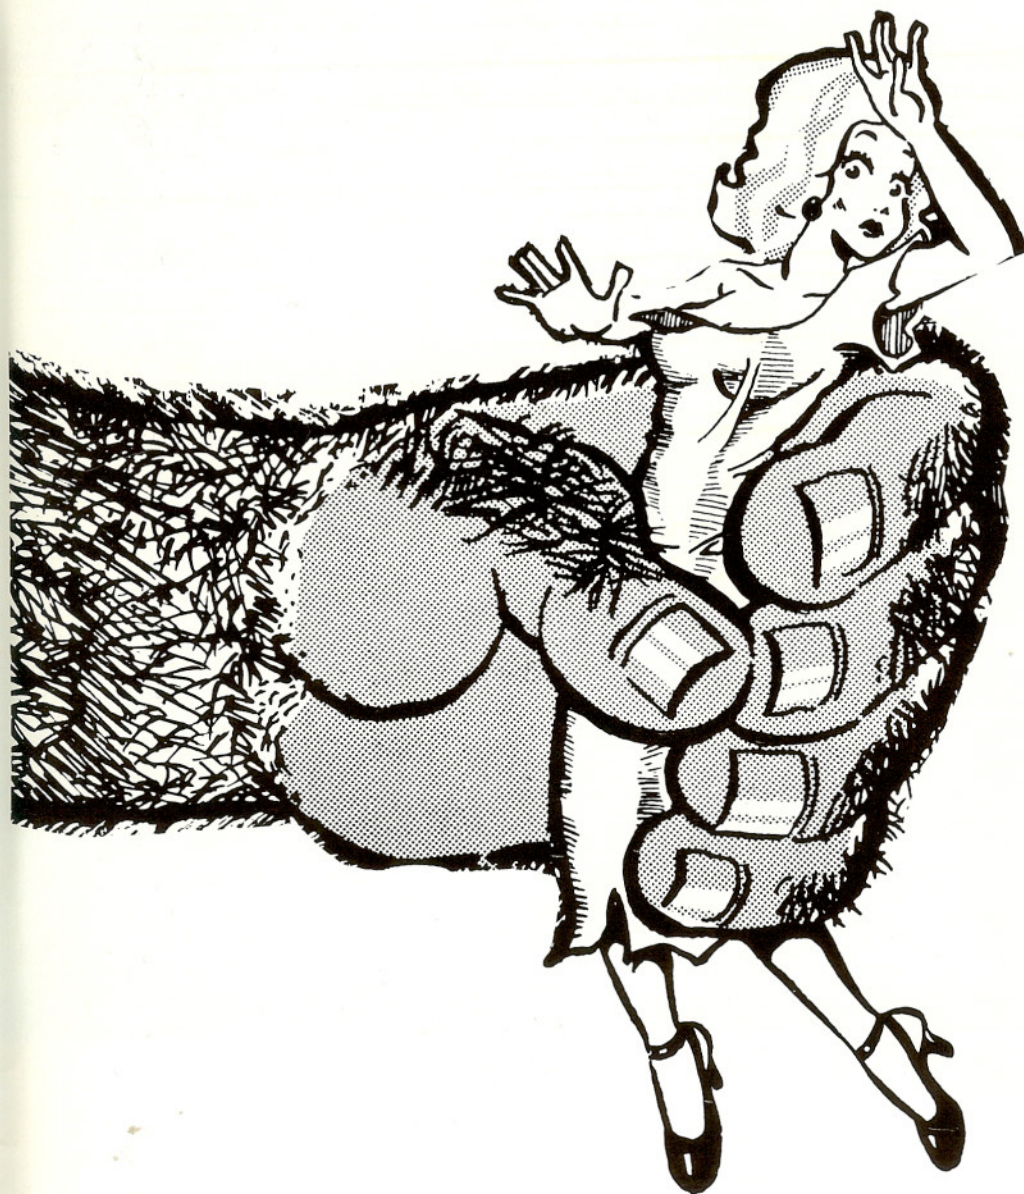

RESULTS: LJ, Pam Donald (S) 18'3½; SP, Gale Zaphiropoulos (C) 43'5½; 5000, 1—Sheila O'Donnell (CP) 17:35, 2—Evelyn Stewart (CP) 17:37, 3—Sue Oran (CP) 17:43; 4x100m, California (Franklin - Bolton - Parker - Tobacco) 46.5; JT, Mary Osborne (S) 133'1; 100H, Cheryl Hawthorne (C) 4:28, 1—Alice Trumbly (C) 4:27, 2—Cindy Schmandt (C) 4:28, 3—Eileen Kraemer (CP) 4:30, 4—Janice Kelley (CP) 4:41, 5—Valerie Rose (C) 4:41; 400, 1—Marian Franklin (C) 53.4, 2—Connie Culbert (C) 56.8, 3—Judy Tobacco (C) 57.8; 100m, Keilia Bolton (C) 11.8; 800, 1—Alice Trumbly (C) 2:11, 2—Molly Miller (CP) 2:12, 3—Cindy Schmandt (C) 2:12, 4—Lori Saia (C) 2:14; 400H, Cheryl Hawthorne (C) 64.6; 200, 1—Keilia Bolton (C) 23.8, 2—Marian Franklin (C) 24.4; 3000, Eileen Kraemer (CP) 9:53, 2—Cheryl Flowers (C) 9:54, 3—Lynne Hjelte (C) 9:56; DT, 1—Gale Zaphiropoulos (C) 153'10½, 2—Susan Springer (C) 137'5; 4x440, 1—California (Culbert - Tobacco - Bolton - Franklin) 3:48, 2—Cal Poly 3:58, 3—Stanford 4:00.
