Dear Bert:

Please save me a reservation for the Olympic trip next year. I have so many irons in so many flickering flames that I am afraid everything will come up nothing and I'll be watching the Games on tv - so am taking this means of being certain that come what may I shall be there!

All goes well - as well as can be expected that is. The publishing business is wonderful - too bad WTFW isn't.

If you have any hints on securing advertisers, let me in on the secret.

Take care. Thanks for all. See you during the season.

Vivice Reed

If I can arrange it, I'll be in Mexico City for this month's meet. May see you then.
