What is unusual about the WINTER CLUB?

It is the only outdoor ice rink in this climate zone, and it gives the Peninsula its only true, hearty, outdoor winter sport—that can be enjoyed by the whole family.

Its unique "sunshade roof" which protects the ice from the afternoon sun, is the only one of its kind, and is a forerunner of designs being advanced for the Olympic rink at Squaw Valley.

It is available by season ticket only, an admissions system being pioneered by Recreation Engineering Co., Inc., to provide a finer type of family recreation for communities like ours.

What the *Winter Club* offers your family

- An outdoor ice surface of 8000 sq. ft. (64 ft. x 125 ft.) 40% of which is sheltered by clubhouse roof.
- Clubhouse with lounge, fireplace, dressing rooms, lockers, skate shop, refreshments.
- Twenty-four weeks of skating (October 7 - March 23), every afternoon and evening, plus special skating periods for adults only, adults with pre-schoolers, and families with children on double sessions.
- Instruction available.
