## FORMER MENLO-ATHERTON PLAYERS WHO ARE NOW OR DID PLAY COLLEGE BASEBALL

The opportunity to college or Junior college baseball has increased tremendously over the last twenty-five years. Over 1,500 colleges and universities field teams and are playing an average of 45 games per season. This is a high average considering our Eastern weather conditions during the Spring. High School baseball in the San Francisco Bay Area, particularly on the Peninsula is rated in the top 20 percent of all High School baseball played in the country. The weather allows us to play more and longer plus the emphasis put on baseball in this area has helped produce outstanding baseball. It is a known fact that California produces more professional players than any other state in the Union. I feel any player who can play as a starter in the P.A.L. is a candidate for college baseball. Here is a list of former Menlo-Atherton players who have gone on to college or Junior College and played baseball.
