

Prep School Athletes Surpass Old Records

Wadsworth Star of Annual Games

By JOE R. HICKEY.

IN THE shadow of Stanford campus Palo Alto High School has developed a track team which headed an invasion of the Berkeley oval yesterday afternoon and succeeded in repeating its performance of a year ago by winning the second annual Pacific Coast interscholastic track and field meet, held under the auspices of the Big C Society at the University of California. Less than three points decided the honors of the greatest high-school meet ever held in this vicinity, the Washington High School team from Portland desperately disputing every opportunity to score in the schedule of events, which offered a series of record-breaking performances.

With a total of 16½ points, the Palo Alto boys snatched an earnestly sought victory from the Washington team, but 14 points being credited to the Portland aggregation. The Palo Alto team presented a well-balanced squad of competitors, the master hand of Charlie Morris, the former Stanford athlete, being conspicuously displayed in the hurdles, the result of which netted half the total points awarded to Palo Alto. Not at all satisfied with the superior showing in the regular programme, the Stanford protégés made a whirlwind finish in the relay race and captured the special prize from a field of eight teams.

When the exception of the hundred-yard dash and the high hurdles, every event contested yesterday developed a new mark in the results of the Pacific Coast interscholastic meet, while the preliminaries on Friday brought the century race to prominence when Wadsworth of the Sutter Union High School equaled the hundred-yard record in 0:10 1-5.

Prominent in the list of attainments announced from the blue and gold campus was the time of the mile run, which was won by Windnagle of the Washington High School in 4:31. It was the initial event of the day, Windnagle and his teammate, Wilson, approaching the tape in a fashion that indicated the subsequent strength of the Portland athletes. The result is by far the fastest time recorded in Pacific Coast preparatory school athletics, surpassing as it does the record of the Academic Athletic League and the Stanford interscholastic. Windnagle came back in the half-mile run and missed winning by inches. In the shorter run Milholland of the Fremont High School proved the surprise of the meet. He overtook Wilson of Washington and finished with a spurt in the last hundred yards, but none too far ahead of Windnagle.

LOS ANGELES DISAPPOINTED.

Los Angeles High School, which was figured to share a larger number of points in view of the showing in the preliminaries on Friday, did not offer a great deal of opposition. Johnson, the southern flyer, was not effective, the starters in the hundred proving too fast, while in the 220-yard dash he was the victim of a nasty fall on the turn. McFie, his teammate, however, lived up to expectations, clearing the bar in the high jump with a leap of six feet one inch and establishing a new record for the association. After having a lead in the relay, Los Angeles gave way to Berkeley and Palo Alto and here again fell below its estimated strength.

To Wadsworth of the Sutter Union High School must be offered the prize for individual attainments. This rangy sprinter, who, on Friday, equaled the interscholastic record in the 100-yard dash, came through yesterday with a burst of speed in the 220 which places him in a class with the college short-distance runners. He won both dashes yesterday with a comfortable margin, and at no time was in danger of being passed at the tape.

NEW RECORDS SET UP.

The list of new records made on the Berkeley oval yesterday includes many meritorious performances which pleasantly surprised the large crowd of collegians who attentively admired the future wearers of the blue and gold. Stephens of Woodland High School, who won the hundred at the same meet last year, managed to leap 22 feet 5½ inches in the broad jump, an indication of his speed, in spite of the fact that he did not qualify in the sprints during the preliminary trials on Friday. The result in the broad jump has decided many an intercollegiate meet, and the youthful athlete was the center of congratulation yesterday.

Clarke of the Berkeley preparatory school covered the quarter in surprisingly fast time over a field of speed burners representing fifteen different schools. The time, 0:51 3-5, proved much faster than the result which went in the record book last spring.

Bibee of Jefferson High School, Portland, showed excellent form over the high hurdles, and managed to pass Colby of Cogswell and Murray of Palo Alto in a close finish. The visiting athlete has an admirable style, which, with more speed, will prove effective in faster company.

With the exception of Berkeley High School, none of the bay counties schools figured in yesterday's meet, San Francisco high schools in particular being noticeably absent in the distribution of points. The results are as follows:

Mile run—Won by Windnagle (Wash.), Wilson (Wash.) second, Annin (Occidental Pre.) third. Time, 4:31.
