You're in a Great State when you're in...

There's something exciting about being in NEVADA... whether you live in the fabulous "Silver State" or come for a visit. And we're mighty proud of the many spectacular things the Reno area has to offer... all of which make Reno a delightful year-around sports, entertainment and convention center. We're happy about the State we're in... and we invite you to make the Holiday your headquarters in Reno so that we can try to make you happy about the State you're in.

Newt Crumley's

HOLIDAY

in
Downtown
Reno

John F. Kennedy

*President
of the United States of America*

I am delighted to have the opportunity to greet members of the track and field teams of the Union of Soviet Socialist Republics and the United States of America. Both teams are here to engage in friendly and healthy competition. The love of youth for athletics is world-wide, and nothing can enhance international understanding more, or better, than the kind of games which will take place in Stanford.

Mankind has long admired the athletic prowess in track and field events because so much depends upon the individual athlete. He or she competes not only as a member of one great team against another but also against the records made by athletes of former generations.

You athletes have had to endure a discipline of Spartan vigor, long periods of training, and the cultivation of strong personalities reflecting initiative and courage. Keen rivalry will inspire some of you to achieve high excellence, and records may well be broken.

I wish each of you well in the meet here at Stanford.

A handwritten signature in dark ink, which appears to be "John F. Kennedy". The signature is written in a cursive style with a large, sweeping flourish at the end.

J. E. Wallace Sterling

President

Stanford University

Welcome to Stanford! Contests, such as this track and field meeting, offer opportunity for athletic competition in the best tradition of sportsmanship and international good will.

It is in this context that Stanford University is particularly pleased to be your host, to extend best wishes, and to express the hope that you will carry with you to your respective homes happy memories of your stay here.

J. E. WALLACE STERLING

A WELCOME ST

A privately supported, nondenominational and politically independent University, Stanford was founded by Senator and Mrs. Leland Stanford in memory of their only child, Leland Jr., who died in 1884, just before his sixteenth birthday.

The campus is located on a site that includes the Stanford's own stock farm, and today, students, faculty and alumni still refer to the school as "The Farm." Altogether, the campus consists of some 8800 acres.

The original enrollment when the first classes were held in 1891 numbered 465. Today it has grown to near 9500. Seven schools make up the academic framework of the University, the largest of which is Humanities and Sciences, where the bulk of the University's undergraduate teaching takes place. Other schools include Business, Education, Engineering, Law, Medicine and Mineral Sciences.

Today, the University has expanded beyond its Palo

Alto campus and now includes five autonomous overseas study centers, each staffed jointly by Stanford professors and leading educators from the local area. Three of the centers are located in Europe: near Stuttgart, Germany, at Tours, France, and Florence, Italy, not far from where Leland Stanford, Jr. died. Here, at no increase in tuition or living costs, the student has an opportunity for months' study abroad. A fourth campus opened in April 1961, in Tokyo, offering a year of work to selected students of Asian subjects. A fifth, scheduled to open September at Taipei, Taiwan (Formosa) will stress study of advanced Mandarin Chinese.

The architecture of the central campus has made it one of the landmarks of the local area. Two concentric quadrangles, known as Inner and Outer Quad, form the campus nucleus. The buildings blend Spanish Mission and Romanesque, utilizing native sandstone, red-tile roofs, arcades and open courts.

Standing as the keystone to Inner Quad is beautiful Memorial Church with its impressive facade of Italian mosaic. Mrs. Stanford had the nondenominational church erected in honor of her husband following his death in 1893. Generations of Stanford alumni return to it for their weddings and baptisms of their offspring.

Hoover Tower, at 285 feet high, is the tallest building on campus. Here is located the collections of the Hoover Institution on War, Revolution and Peace. Herbert Hoover, the 31st president of the United States, was a member of the first class to enter the school and a Stanford trustee emeritus. The present President of the United States, John F. Kennedy, attended here for a time in 1940, auditing graduate courses in political science and business economics.

A residence university, the school has five large living halls for men, supplemented by twenty-four fraternity chapters and seven eating clubs with their own building. There are sixteen residence units for women and construction

Student Union

DMFO STANFORD

Inner Quad, showing Memorial Church

projects are now underway to expand present facilities for married students and faculty members who wish to live on the campus.

(During this past week, members of all the teams participating here today were housed and fed at Stern Hall on the campus.)

Building is not all limited to residential units. In 1959, the University opened a new medical center at a cost of some \$21 million. This nationally recognized school includes a Palo Alto-Stanford hospital and numerous research clinics.

About 5000 of the acres on the campus have been reserved exclusively for academic purposes by the University personnel and open spaces and scenic preserves are planned. The remaining acreage is leased for residence, business, professional and light industrial use.

Athletics play an important role in the campus life. The school is a member of the Athletic Association of Western Universities and participates in many intercollegiate sports.

In addition, thousands of students participate in the intramural programs, both for men and women.

The Ford Foundation chose Stanford in 1960 for the biggest unrestricted matching grant ever made to an educational institution. It offered \$1 for every \$3 the University could collect up to a total of \$100 over the next five years. The program is known as the Stanford PACE Program—a \$100 Million Plan of Action for "A Challenging Era."

Dr. J. E. Wallace Sterling, a distinguished former professor of history, became the University's fifth president in 1949. His predecessors included: David Starr Jordan, a biologist (1891-1913); Ray Lyman Wilbur, physician (1916-1943); John Casper Branner, a geologist (1913-1915), and Dr. Donald Tresidder, a physician, (1943-1948).

Jim Beatty prepares to break the tape following the completion of the mile run at the National AAU meet at Walnut, California, last month. Beatty, who was timed in 3:57.9, has the 1500-meter string trailing behind him. Jim Grelle, shown at right, finished second in 3:58.1.

UNITED STATES, RUSSIA—

This is the greatest collection of athletes ever assembled under the flags of any two countries for a track and field meet. All four teams show considerable strength over those that have participated in this international meet previously.

The teams are composed of experienced veterans and newcomers to international competition and it is clear that both countries are developing outstanding depth for the 1964 Olympic Games at Tokyo.

In the past three meets between the Soviets and Americans, each side has produced surprise performances from some previously unheralded personnel. We can expect more of the same this year.

For the Soviet Union, the surprises may come from several of its newcomers. This is especially true of Janis Lūsis, who just this year has developed into one of the very best javelin throwers in the world with a top mark of 273-9/2.

Two sprinters, Nikolay Politiko and Amin Tuyakov, and pole vaulter Igor Feld may demonstrate that the Soviets are making great strides in these events. Politiko has run 10.3 and 21.2 already this year, Tuyakov has done 10.3 and 20.9 and Feld has vaulted 14-9/4.

The Soviet team lists some well-known veterans including Igor Ter-Ovanesyan, Pyotr Bolotnikov, Vladimir Trusenev, Vasily Kuznetsov, Yuriy Kutenko, Vladimir Golubnichay, Viktor Tsybulenko, Valeriy Brumel and Anatoliy Mikhailov.

The Soviet women, of course, are headed by the Press sisters, Tamara and Irina, Olympic champions in the shot put, discus and hurdles. Tamara is the greatest woman shot putter and discus thrower of all time and recently became the first woman to put the shot 60 feet.

In an attempt to improve their middle-distance runners, the Soviets have begun a program of nation-wide popularization of these events. The first results were shown recently as Valeriy Bulyshev broke the Soviet 800-meter record with a time of 1:47.3.

**Both
Countries
Feature
Outstanding
Performers**

The American men's team this year includes 16 holdovers from the 1961 squad. This includes six (Jim Beatty, Ralph Boston, Hays Jones, Gary Gubner, Jerry Siebert, Ullis Williams) who won first places at Moscow. In addition, there are a number of Olympic stars of 1960 and 1956.

But there also are some promising newcomers on this team that will be gaining valuable experience here for future international competition. This includes Dave Archibald, who as a freshman at the University of California this spring demonstrated he will be one of our future 400 meter greats; Homer Jones, a fine sprinter from Texas Southern; Keith Forman, the latest American to break the four-minute mile and one of the fine distance stars developed at the University of Oregon; John Cramer from the University of Washington who is one of the last vaulters in the country to use a steel pole, and Gene Johnson, the University of California high jumper who has cleared 7-0 twice this year.

This American team showed outstanding strength in its recent meet with Poland which it won handily.

The American women's team, named two weeks ago, also features veterans and newcomers, and is headed by the great Wilma Rudolph, triple gold medal winner in the 1960 Olympics.

In past meets between these two countries, the Soviets have always done well in the distance running events and most of the field events. The United States has done well in the shorter running events, the middle distances and many of the field contests. It can be expected that both teams will show improvement in several of their previously weaker events.

A quick glance at the events prior to the opening of the meet indicates that the high jump may be the feature. Four of the twelve, 7-0 high jumpers in the world will be participating in this contest. Other outstanding performances can be expected, also.

At any rate, this should be one of the finest meets of all-time.

Pyotr Bolotnikov, 1960 Olympic 10,000-meter champion, leads a pack of runners on an early lap during the running of his specialty at a recent Soviet meet.

MEET THE COACHES

Some of the finest coaches and athletic personnel of each country have been involved in the training of these teams for this meet.

The Head Coach of the Soviet Union teams is Gavriel Korobkov, a former sprinter and a long-time leader in the development of the track and field program for his people.

John S. (Johnny) Oelkers is the head coach of the American men's team and Miss Donnis Thompson is the head mentor of the American women's squad. Oelkers has been head track coach at Tulane University in New Orleans since 1958. As a track and field performer himself, he was one of the nation's top shot putters and discus throwers. Miss Thompson has been head women's track and field coach at the University of Hawaii for the past year. She

is a former National Women's Shot Put champion.

Assistant coaches for the men are Michael J. Ryan, head coach for the Santa Clara Valley Youth Village and a member of the coaching staffs of the United States Olympic Teams of 1920, 1924, 1928 and 1932, and Arthur W. O'Connor, head track and field coach at Fordham University. Assistant coach for the women is Dr. Richard Willing, women's track coach at Montclair (N.J.) State Teachers College.

The head manager of the American men's team is P. Wee Greenfield, head track and cross-country coach at Clemson College. Mrs. Eileen Goodnight of Middleburg Heights, Ohio, is the head manager of the women's track team. The assistant is Dr. John Davis, Jr., of the Cosmopolitan Club of Topeka, Kansas.

GENERAL MEET RULES

This fourth track and field meet between men and women teams of the United States of America and the Union of Soviet Socialist Republics is conducted under the rules of the International Amateur Athletic Federation.

CONVERSION INDEX—As prescribed by the IAAF rules, in this meet one meter is equivalent to 1.093614 yards (3.280842 feet or 39.370 inches) and one kilogram is 2.204622 pounds.

TEAM SCORING—Separate team scores will be kept for the men's events and the women's events.

Past team scores:

Men

1958—USA 126, USSR 109

1959—USA 127, USSR 108

1961—USA 124, USSR 111

Women

1958—USSR 63, USA 44

1959—USSR 67, USA 40

1961—USSR 68, USA 39

INDIVIDUAL SCORING—Points in each event will be awarded on the basis of 5 points for first place; 3 points for second; 2 points for third, and 1 point for fourth. In the relay races, the winning team will receive 5 points, the second-place team 3 points.

DECATHLON SCORING—The Scoring Table adopted by the Congress of the IAAF in Brussels, 1950, and Helsinki, 1952, will be used to determine the number of points each competitor will receive in each event. Basis for the scoring table is a curve called the performance curve. The number of points earned by each competitor will be announced at the completion of each decathlon event.

PHOTO FINISHES—Electronic photo-timing equipment is located on both sides of the stadium to take finish-line pictures of all running races. Should a question be raised by either team, judges will have access to these photographs.

RECORDS—All records listed on the event pages are outdoor marks.

Wind gauges are located on both sides of the field to record wind readings during the running of all races up to the 200 meters in length and the long jump and hop, step, and jump. To have marks accepted as new records in these

events, competitors must not be assisted by winds of more than 2 meters per second (4.47 miles per hour).

FIELD EVENT FLAGS—The following is indicated by the markers located at the discus throw, hammer throw, javelin throw, shot put, long jump and hop, step, and jump areas: **GOLD FLAG**—World Record; **USSR FLAG**—Soviet Union National Record; **USA FLAG**—American Record.

COMPETITORS' NUMBERS—For the USSR team the men will be numbered from 1 to 17 for field performers and 55 to 80 for track competitors. The women will be numbered 18 to 26 for field performers and 81 to 88 for track competitors.

For the USA team the men will be numbered from 27 to 44 for field performers and 89 to 111 for track competitors. The women will be numbered from 45 to 54 for field competitors and 112 to 118 for track performers.

IGOR PETRENKO (13)

Igor Petrenko is one of the Soviet Union's all-time best pole vaulters who finished in a tie for sixth in the Olympic Games with a vault of 14-9/16. He is 6-2, 167 pounds, 24 years old and a student at the Pedagogical Institute.

Best Mark—15-1

Igor Feld is a newcomer in Soviet track and field circles with a great deal of promise. He established his best mark in competition just recently.

Best Mark—14-9/16

IGOR FELD (7)

RON MORRIS (37)

Ron Morris was the silver medal winner at the 1960 Olympic Games with a vault of 15-1/16. Since that time he has become one of four vaulters in the world to clear 16 feet, winning the 1962 AAU title at 16-0/4. A graduate of the University of Southern California, he is 27 years old, 5-10, 150 pounds.

1962 Best—16-0/4

JOHN CRAMER (30)

John Cramer finished second in the 1962 AAU with a vault of 15-8/16, equalling his all-time best. One of the few vaulters in the country still using a steel pole, John has held the National Freshman collegiate record. A graduate of the University of Washington, he is 6-2/2, 21 years old, 180 pounds.

1962 Best—15-8/16

Pole Vault

Event No. 1

MEN

3:30 p.m., Saturday

Contested on east side of field

Event Regulations

Competitor may commence jumping at any height above the starting mark and may jump at his own discretion at subsequent heights. Three consecutive failures, regardless of the height at which they occur, will disqualify an athlete. The vaulting pole may be made of any material and be of any length or diameter.

History

1961 RESULTS:

1. John Uelses, USA, 15-4/2; 2. Henry Wadsworth, USA, 15-1; 3. Jan Krasovskis, USSR, 14-9; 4. Igor Petrenko, USSR, 14-5

Other First-Place Finishers:

1958—Vladimir Vulatov, USSR, 14-9/16

1959—Don Bragg, USA, 15-2/4

Records

WORLD—15-9/4, Don Bragg (USA), Stanford, July 3, 1960; Pending: 16-2/2, Pentii Nikula (Finland), Kauhava, June 22, 1962

RUSSIAN—15-3/4, Janis Krasovskis, Moscow, July 17, 1960

AMERICAN—15-10/4, George Davies, Boulder, Colo., May 20, 1961; Pending: 16-2, Lt. Dave Tork, 1962

MEET—15-4/2, John Uelses (USA), Moscow, 1961

STADIUM—15-9/4, Don Bragg

TAISIJA CHENCHIK (18)

Taisija Chenchik placed fifth at the 1960 Olympics with a leap of 5-6 and has been one of the leading women's high jumpers in the world for several years. She is an engineer at Chelyabinsk and is 26 years old, 5-9, 151 pounds.

Best Mark—5-10¼

High Jump

Event No. 2 WOMEN

3:30 p.m., Saturday

Contested on east side of field

Galina Evsyukova has a best in this event this year of 5-7. A teacher at Krasnodar, she is 23 years old, 5-7, 132 pounds.

Best Mark—5-7½

Event Regulations

Competitor may commence jumping at any height above the starting mark and may jump at her own discretion at subsequent heights. Three consecutive failures, regardless of the height at which the occur, will disqualify an athlete. In jumping, the competitor must take off from one foot.

GALINA EVYSUKOVA (19)

BARBARA BROWN (47)

Barbara Brown finished second in the recent National AAU meet with a leap of 5-2. A member of the 1960 Olympic team, she is a veteran of international competition and finished second against Poland earlier this month with a best of 5-3¼. Her best effort is 5-6½ in 1962. Married and the mother of two, she is 5-2, 21 years old and 127 pounds.

1962 Best—5-4½

History

1961 RESULTS:

1. Taisija Chenchik, USSR, 5-6¾; 2. Barbara Brown, USA, 5-4¾; 3. Galina Dolya, USSR, 5-4¾ (Miss Brown awarded second place because of fewer misses); 4. Jo Ann Terry, USA, 4-11

Other First-Place Finishers:

1958—Taisija Chenchik, USSR, 5-5

1959—Taisija Chenchik, USSR, 5-10

ESTELLE BASKERVILLE (46)

Estelle Baskerville is the youngest member of either team at 15 years. A promising star, she won the National Indoor title with a jump of 5-2 and finished fourth in the recent meet with Poland. Her all-time best is 5-4 made last year. A student at East High School in Columbus, Ohio, she is 5-5½, 125 pounds.

1962 Best—5-1

Records

WORLD—6-3¼, Iolanda Balas (Romania), Sofia, Bulgaria, July 16, 1961

1959—Vasily Rudenkov, USSR, 219-0

AL HALL (32)

Al Hall finished 14th in the 1960 Olympic Games with a throw of 196-0 $\frac{1}{2}$. He won the 1962 AAU title and the event in the international meet with Poland. A graduate of Cornell, he is 27 years old, 222 pounds, 6-1.

1962 Best—219-3

HAL CONNOLLY (29)

Hal Connolly was the gold medal winner in this event in the 1956 Olympic Games and finished eighth in the 1960 Olympiad with a toss of 208-7 $\frac{1}{2}$. He is a graduate of Boston College, 30 years old, 235 pounds, 6-0.

1962 Best—227-3

Records

MEET—220-8 $\frac{1}{2}$, Harold Connolly, 1958

STADIUM—No record

MARIA ITKINA (81)

The Soviets will probably use sprinters Maria Itkina, Valentina Maslovskaya, Lyudmila Motina and Galina Popova. Long jumper Vera Krepkina, who is also an outstanding sprinter, could also be used on the team.

- LYUDMILA MOTINA (85)
- VALENTINA MALOVSKAYA (84)
- GALINA POPOVA (88)

WILMA RUDOLPH (116)

The United States team set a world's record in this event last year. Wilma Rudolph, Willye White and Vivian Brown return from that fine team and more than likely the fourth member this year will be Edith McGuire. Wilma, Vivian and Edith were members of the national champion 440-yard relay team from Tennessee State which set a new American record of 46.0 at Los Angeles two weeks ago.

- EDITH MCGUIRE (50)
- CAROL SMITH (117)

VIVIAN BROWN (113)

4x100-Meter Relay

Event No. 14 WOMEN

5:45 p.m., Saturday

Start and finish on west side

Event Regulations

400 Meters is 437 yards, 1 foot, 4 inches. The race is run in lanes. The baton must be passed off within the passing zone. If the baton is dropped it must be retrieved by the competitor who lost it.

History

1961 RESULTS:

1. United States (Willye White, Ernestine Pollard, Vivian Brown, Wilma Rudolph), 44.3; 2. USSR, 44.5

Other First-Place Finishers:

1958—United States (Isabel Daniels, Lucinda Williams, Marg Mathews, Barbara Jones), 44.8

1959—USSR (V. Krepkina, V. Maslovskaya, N. Polyakova, G. Popova), 44.8

Records

WORLD—44.3, United States (Willye White, Ernie Pollard, Vivian Brown, Wilma Rudolph), Moscow, July 15, 1961

RUSSIAN—44.5 (Krepkina, Maslovskaya, Itkina, Schelkanova), July 15, 1961

MEET—44.3, United States (Willye White, Ernie Pollard, Vivian Brown, Wilma Rudolph)

STADIUM—No record

VYACHESLAV
PROKHOROVSKIY
(74)

The Soviet team will have Edvin Ozolin, Vyacheslav Prokhorovskiy, Amin Tuyakov and Nikolay Politiko. The latter has the best times this year of 10.3 and 21.2 in the 100 and 200 meters. He is 25 years old, 5-11, 178 pounds and a mechanic at Leningrad.

EDVIN OZOLIN (72)

Paul Drayton, Bob Hayes, Homer Jones and Roger Sayers make up the United States team in this event. This foursome won this event in the recent meet with Poland.

1962 Best—40.0

AMIN TUYAKOV (78)

NIKOLAY POLITIKO (73)

PAUL DRAYTON (95)

ROBERT HAYES (100)

ROGER SAYERS (105)

HOMER JONES (102)

YURIY KUTENKO (9)

Yuriy Kutenko is considered one of the world's two top decathlon performers. A 30-year-old from Lyvov, he is the European decathlon record holder and finished fourth in the 1960 Olympics at Rome. He is 6-2 and weighs 194.

Best Mark—8360 points

VASILIIY KUZNETSOV (10)

Vasily Kuznetsov is the former world record holder in this event and finished third in the 1960 Olympics. He is rated high among the world's performers now. He is 30 years old, 6-0, 182 pounds and a teacher in Moscow.

Best Mark—8356 points

PAUL HERMAN (33)

Paul Herman has been one of our best decathlon performers for several years and finished second to C. K. Yang in the recent National decathlon championships. A student at Westmont College in Santa Barbara, he is 20 years old, 6-2½, 175 pounds.

1962 Best—7673 points

STEVE PAULY (39)

Steve Pauly is an outstanding basketball and track star at Oregon State University. His specialties are the javelin and hurdles. He finished third at the recent National decathlon championships.

1962 Best—7226 points

THE MEET PAGEANT

AUSTIN W. MOSHER

Colorful opening and closing ceremonies featuring the athletes, baritone Austin W. Mosher and a United States Marine Band have been planned for both days of the meet.

The meet will officially get underway Saturday with a parade of representatives of both teams. The groups will meet at the center of the field where the women will exchange bouquets of flowers and the men pins. The captains of each team will present "peoples-to-peoples" friendship plaques to one another.

Mosher will sing the National Anthems of the two countries. Soloist for the Shrine East-West Football Game for many years, he has sung on the radio and in concerts for many years. The flags of each country will be brought on the field Saturday by the captains of the two teams.

The Marine Band will play various numbers throughout the two-day meet.

At the close of competition Sunday, all members of both teams will march onto the field arm-in-arm to signify the friendship under which this meet has been conducted.

MEET AWARDS

All athletes participating in this meet will receive medallions, similar to those presented at the Olympic Games. First-place finishers will be given a gold medal, second-place finishers a silver medal, third-place finishers one of bronze, and fourth-place finishers a plain medal. The medallions will be suspended from ribbons of red, white and blue.

The medallions will be given to each athlete at the completion of each event. A victory stand, for this purpose, is located in the southeast corner of the stadium.

Sunday, the Helms' World Trophy Awards, for the outstanding track and field athletes in the world during 1961, will be presented to Valeriy Brumel and to Ralph Boston. The trophies will be given by Paul H. Helms, Jr., chairman of the Helms Athletic Foundation of Los Angeles.

IN CASE OF TIE

There are special rules covering ties in meets such as this. Briefly they are as follows:

TRACK EVENTS—The chances of a tie in a track event have been lessened by the modern photo-timing equipment such as that in use here this week end. But in the event that a deadlock for first still remains after viewing all available evidence, the meet referee may, if he deems it practicable, ask that those competitors who tied run the event over again. Deadlocks for all other positions stand.

HIGH JUMP AND POLE VAULT—In case two jumpers clear the same height, but fail to clear a greater one, here are the rules that are to be considered to break the tie:

- 1.—The competitor with the lowest number of trials at the height at which the deadlock occurs shall be awarded the highest place.
- 2.—If the tie still remains, it is the jumper with the fewest misses or failures throughout the competition that is awarded the higher place.
- 3.—If the deadlock should still remain, it is the competitor with the fewest attempts, whether successful or not, throughout the competition who is awarded the higher place.

OTHER FIELD EVENTS—The second best performance of those tied shall be used to determine the deadlock. If the tie still remains, the third best performance is used, and so on.

AMERICAN—7-3¾, John Thomas, Stanford, July 1, 1960

MEET—7-4¼, Valeriy Brumel

STADIUM—7-3¾, John Thomas

KIM BUKHANTSEV (5)

Kim Bukhantsev was the sixth ranking discus thrower in the world at the conclusion of 1961. He finished eighth in the 1960 Olympics with a toss of 175-10½. A physician from Moscow, Kim is 6-0, 209 pounds, 30 years old.

Best Mark—195-1

VLADIMIR TRUSENEV (15)

Vladimir Trusenev held the world record for a time in this event with his 202-2½-foot throw at Leningrad last month. He finished 15th at the Rome Olympics with a best of 173-7½ and won the title at the Soviet International Meet in Moscow earlier this month. A student at the Pedagogical Institute, he is 30, 6-4, and 242 pounds.

Best Mark—202-2½

AL OERTER (38)

The first man in the world to throw 200 feet, **Al Oerter** established his pending world mark in the international meet with Poland at Chicago three weeks ago. He first broke the 200-foot "barrier" at the Los Angeles Coliseum Relays last May with a toss of 200-5½. He was the Olympic champion at Melbourne in 1956 and Rome in 1960. A graduate of Kansas University, he is 6-4, 253 pounds and 25 years old.

1962 Best—204-10½

RINK BABKA (27)

Rink Babka is one of the world's best discus throwers, having held the world record for a time in 1960 with a toss of 196-6½. A Palo Alto native, he finished second in the AAU meet this year and at the Rome Olympics in 1960. He is a graduate of the University of Southern California and is 25, 6-5, 260 pounds.

1962 Best—194-10½

Discus Throw

Event No. 21 MEN

4:00 p.m., Sunday

Contested in center of field

Event Regulations

Competitor may throw as many times as he wishes up to a maximum of six so long as the tosses are made during his regular turn. Discus must not weigh less than 4 pounds 6⅔ ounces, and may be constructed of metal or wood. Measurement of all throws is made from the nearest mark made by the fall of the discus to the inside circumference of the throwing circle. In order for an attempt to be considered fair, the thrower must not leave the circle until his implement has touched the ground and the discus must fall within a sector of 60 degrees indicated on the field.

History

1961 RESULTS:

1. Jay Silvester, USA, 191-9½; 2. Bukhantsev, USSR, 184-10½; 3. Bob Humphreys, USA, 182-7¼; 4. Kaupo Metsur, USSR, 175-4½

Other First-Place Finishers:

MEET—10.6, Irina Press (USSR), Moscow, 1961

STADIUM—No record

LYUDMILA LYSENKO (83)

Lyudmila Lysenko won the 800 meters at the 1960 Olympics, equalling her world record time of 2:04.3. She is a member of the USSR 2400-meter relay team that holds the world record. She is a student, 27 years old, 5-4, 121 pounds and is married.

Best Mark—2:04.3

800-Meter Run

Event No. 23 WOMEN

4:20 p.m., Sunday

Start and finish on west side

Yekaterina Parlyuk competed in this event at the 1960 Olympics, but is better known for her ability in the 400 meters where she has had a best time this year of 53.9. From Leningrad, she is 27 years old, 5-8, 132 pounds.

Best Mark—2:07.8

Event Regulations

800 Meters is 874 yards, 2 feet, 8 inches. Competitors must stay in lanes until past the first turn at which time they may break for position when they have a lead of at least two strides on the next runner.

History

1961 RESULTS:

1. Ludmila Lyenko, USSR, 2:05; 2. Yekaterina Parlyuk, USSR, 2:09.2; 3. Billie Pat Daniels, USA, 2:16.2; 4. Leah Bennett, USA, 2:21

Other First-Place Finishers:

1958—Elizavete Ermolaeva, USSR, 2-11.8

1959—Ludmila Lysenko, USSR, 2:11.3

Records

WORLD—2:04.3, Lyudmila Lysenko (USSR), Moscow, July 3, 1960, and Rome, Italy, Sept. 7, 1960; Pending: 2:01.2, Sin Dan (North Korea), Pyongyang, 1961, and Dixie Willis (Australia), Perth, March 3, 1962

RUSSIAN—2:04.3, Lyudmila Lysenko

AMERICAN—2:14.4, Pat Daniels, Emporia, Kans., August 5, 1960; Pending: 2:12.8, Leah Bennett, Los Angeles, July 8, 1962

MEET—2:05.4, Lyudmila Lysenko (USSR), Moscow, 1961

STADIUM—No record

SANDRA KNOTT (114)

Sandra Knott finished fourth in this event against Poland. She was runner-up to Miss Bennett in both the Women's 880 Indoor and Outdoor championships. She is the holder of the American 88-yard indoor record of 2:17.4. She is 5-7, 124 pounds, 24 years old, and a graduate of Francis Payne Bolton School of Nursing.

1962 Best—2:14.1

LEAH BENNETT (112)

Leah Bennett won the AAU 880-yard run title two weeks ago with a new American record of 2:12.3, the second national mark she had set in seven days, as she had finished third against Poland in the 800 in record time. She won the 1962 AAU Indoor 880-yard championship, also. A sophomore at the University of Hawaii, she is 5-5, 19 years old and 100 pounds.

1962 Best—2:12.8

TAMARA PRESS (22)

Tamara Press is the only woman to have ever put the shot more than 60 feet, accomplishing this feat at Leipzig, Germany, last month. She won this event at the 1960 Olympics with a put of 56-9 $\frac{3}{4}$, a new Olympiad record. A student at the Building-Engineering Institute in Leningrad, she is 24, 5-11, 207 pounds.

Best Mark—60-10 $\frac{1}{4}$

Galina Zybina won this event at the 1956 Melbourne Olympics. She is 31 years old, 5-6, 183 pounds and a teacher in Leningrad.

Best Mark—54-11 $\frac{3}{4}$

GALINA ZYBINA (26)

EARLENE BROWN (48)

Earlene Brown was the bronze medal winner in this event in the 1960 Olympics with a put of 53-10 $\frac{1}{2}$ and finished sixth in the 1956 Olympiad. A perennial national champion, she won the women's title this year with a best of 48-10 $\frac{3}{4}$. She is also a fine discus thrower having finished sixth at Rome in 1950. She is 27 years old, 5-9, 245 pounds.

1962 Best—48-10 $\frac{3}{4}$

CYNTHIA WYATT (54)

Cynthia Wyatt placed second in this event in both the national indoor and outdoor meets. She is the holder of the American Girls' 8-pound shot put record. An 18-year-old, she is 5-6, 155 pounds and a sophomore at the University of Hawaii.

1962 Best—48-6

Shot Put

Event No. 24 WOMEN

4:20 p.m., Sunday

Contested on east side of field

Event Regulations

Competitor may throw as many times as she wishes up to a maximum of six so long as the puts are made during her regular turn. Shot must be spherical and weigh no less than 8 pounds, 13 ounces. Measurement is made from nearest mark made by the shot to inside circumference of the throwing circle. In order for an attempt to be judged fair, the thrower must not leave the circle until her implement has touched the ground, and the shot must fall within a sector of 65 degrees indicated on the field. During the action of putting, the shot must not be brought behind the line of the shoulders and must remain in close proximity to the chin until it is released.

History

1961 RESULTS:

1. Tamara Press, USSR, 56-7;
2. Galina Zybina USSR, 53-4 $\frac{3}{4}$;
3. Sharon Shepherd, USA, 44-5 $\frac{3}{4}$;
4. Cynthia Wyatt, USA, 44-4 $\frac{1}{4}$

Other First-Place Finishers:

1958—Earlene Brown, USA, 54-3 $\frac{1}{8}$

1959—Tamara Press, USSR, 55-6 $\frac{3}{4}$

Records

WORLD—58-4, Tamara Press (USSR), Moscow, August 13, 1960; Pending: 60-10 $\frac{1}{4}$, Tamara Press, Leipzig, Germany, June 10, 1962

MEET—56-7, Tamara Press (USSR), Moscow, 1961

STADIUM—No record

VLADIMIR GORYAEV (8)

Vladimir Goryaev was the runner-up to world record holder Jozef Schmidt of Poland in the 1960 Olympics with a best of 54-6¾. He was rated among the world's top five performers last year and at 23 years old is a cinch to be among the best for many years. He is 6-0, 172 pounds and a student at the Pedagogical Institute.

Best Mark—54-7½

Hop, Step, and Jump

Event No. 25 MEN

4:35 p.m., Sunday

Contested on west side of field

Oleg Fedoseev won this event in the recently held Soviet International Meet at Moscow with a jump of 53-0¾. He was rated among the top ten in the world in this event last year. He is 26, 6-1, 178 pounds and a teacher in Moscow.

Best Mark—54-9½

OLEG FEDOSEEV (6)

BILL SHARPE (40)

Bill Sharpe finished fourth in the 1956 Olympics at Melbourne and won the AAU titles in 1957, 1961 and 1962. He was a member of the 1960 Olympic team. He is 30 years old, 6-0, and 158 pounds.

1962 Best—52-1¼

HERMAN STOKES (41)

Herman Stokes has been one of this country's outstanding hop, step, and jumpers for the past few years and was a member of the 1960 Olympic team. His best mark is 52-2¼. He is 29, 5-9, 170 pounds and attended San Jose State.

1962 Best—51-1

Event Regulations

Competitor may jump as many times as he wishes up to a maximum of six. The hop must be made so that he will land on the same foot from which he took off. In the step, he must land on the opposite foot from which the jump is made. If, while jumping, the athlete touches the ground with both legs, the attempt is judged foul.

History

STADIUM—277-7, Al Cantello, 1960

DAN STUDNEY (42)

Dan Studney won the AAU title at Walnut earlier this month with a throw of 246-6. He is holder of the school discus and javelin records at San Jose State College. He is 6-3, 21 years old and 205 pounds.

1962 Best—247-0½

NICK KOVALAKIDES (35)

Nick Kovalakides finished second in the AAU meet with a throw of 245-10. He won the javelin title at the 1961 Penn Relays and the 1959, 1960, and 1961 ICAAAA Championships. He is a graduate of the University of Maryland and is 6-1½, 22 years old, 215 pounds.

1962 Best—245-10

NIKOLAY SOKOLOV (76)

Nikolay Sokolov was the silver medalist at the Rome Olympics in the time of 8:36.4 and was rated among the top performers in this event at the end of 1961. He is a teacher in Vologda and is 5-7, 136 pounds, 31 years old.

Best Mark—8:32

3,000-Meter Steeplechase

Event No. 28 MEN

4:45 p.m., Sunday

Start on west side and finish on east side

Vladimir Evdokomov was the eighth ranking performer in the world in this event at the start of the year. Twenty-eight years old, he is a student and is 5-6, 134 pounds.

Best Mark—8:37.8

VLADIMIR EVDOKOMOV (64)

GEORGE YOUNG (110)

George Young was a member of the 1960 Olympic Team. He won the AAU title in this event in 8:48.2 and finished second in the recent international meet with Poland. He is 24 years old, 5-9, 145 pounds and a graduate of the University of Arizona.

1962 Best—8:42.4

Event Regulations

3,000 Meters is 1 mile, 1,520 yards, 2 feet, 6 inches. There are four hurdles and one water jump. The water jump is not used on the first lap to prevent crowding off the starting line.

History

1961 RESULTS:

1. Nikolay Sokolov, USSR, 8:35.4; 2. George Young, USA, 8:38; 3. Lazar Naroditski, USSR, 8:56.4; 4. Deacon Jones, USA, 9:09.2

Other First-Place Finishers:

1958—Simonym Rzhishchin, USSR, 8:42.0

1959—Simonym Rzhishchin, USSR, 8:51.6

KEITH FORMAN (97)

Keith Forman is better known as a miler, having won the open mile run at the California (Modesto) Relays this year in 3:58.3. He was also a member of the world record-setting University of Oregon four-mile relay team which ran 16:08.9 at the West Coast (Fresno) Relays. A senior at the University of Oregon, he is 21 years old, 5-9, 150 pounds.

How the USSR-USA MEET Got Started

These meets between the men and women of the Soviet Union and the United States were first begun in 1958 with the cooperation of the Soviet Light Athletic Federation, the American Amateur Athletic Union and the governments of both countries.

The first meet was held at the new Leningrad Stadium in Moscow, July 27-28, 1958, before 105,000 persons and was highlighted by the great decathlon duel between the world record holder Vasily Kuznetsov and the United States' Rafer Johnson. With an outstanding display of ability Johnson scored 8,302 points for a new world's mark. At the same meet, Oleg Ryakhovsky established a new world's hop, step, and jump standard of 54-5¼.

The next year, July 18-19, 1959, the teams met at Franklin Field in Philadelphia with three new world marks being established. Kuznetsov regained the world decathlon mark with 8,350 points; Tamara Press broke the women's shot put standard with a put of 55-6¾, and Parry O'Brien broke his own world's shot put record with an effort of 63-2½.

There was no meet between the two countries in 1960 because of the Olympic Games at Rome, Italy.

Last summer, the meet was again held in Moscow, July 15-16, with more than 130,000 in attendance and this time six world standards were established. Ralph Boston became the first man to long jump 27 feet or more with a best of 27-1¾. The United States team of Hayes Jones, Frank Budd, Charles Frazier, and Paul Drayton set a new mark of 39.1 in the 400-meter relay. Valeriy Brumel high jumped 7-4. The United States women's team of Willye White, Ernestine Pollard, Vivian Brown and Wilma Rudolph set a new mark of 44.3 in the women's 400 relay. Tatiana Schelkanova long jumped 21-3 and Tamara Press threw the discus 188-4 to complete the world record-shattering performances.

In each of the previous meets, the American men have won their match with the Soviet men, while the story is just the opposite for the women.

MY LINE?

I'm a dazzling track and field specialist—unruffled by wind, rain or crushing throng. Pure. Bold. Bright. Yet I'll neither leave a runner in a cloud of dust nor sting his eyes or skin. Name: Kaiser Dolomark.* Qualifications: Finely ground inert, insoluble, non-irritating, dazzling white dolomite stone. (Neither messy chalk nor caustic lime.) See the neat lines down there on the track today? That's my line.

LET KAISER SUN-ROCK* ADD SPARKLE TO YOUR GARDEN. Ask your garden supply dealer or stone-yard for Kaiser Sun-Rock white decorative dolomite—a beautiful natural accent for planters, patios and walkways—available in three rock sizes.

The 1961-62 Track Seasons in the USA-USSR

A YEAR OF

This has been the year of the 16-foot pole vault, the 200-foot discus throw, and the women's 60-foot shot put. These once seemingly improbable marks and a continuing assault on the four-minute mile, the seven-foot high jump, the 27-foot long jump and the 65-foot shot put, highlighted the exciting first half of this 1962 track season.

Valeriy Brumel clears seven feet in an early season meet in the Soviet Union.

John Uelses, who won the pole vault in this meet at Moscow last year, became the first man in history to clear 16 feet when he soared over 16-0 $\frac{1}{4}$ at the Millrose Games indoors meet. Later at the Boston Athletic Association Indoor Games he upped his indoor standard to 16-0 $\frac{3}{4}$. Then, March 31, he became the first man to clear 16 feet outdoors with a leap of 16-0 $\frac{3}{4}$ at the Santa Barbara Easter Relays. No sooner had he performed these outstanding feats than the track world was split in disagreement over the type of pole he had used. Taking advantage of modern techniques, Uelses had begun vaulting with a fiberglass pole. Many claimed that the high-density fiberglass pole he was using made the event more of a "catapult," literally throwing the competitor over the bar.

But as others tried it, the world record was to go higher, and the argument was to continue. At the Mt. San Antonio Relays at Walnut, California, May 28, Marine Lt. Dave Tork cleared 16-2 for a new mark which was to stand until late June when Finland's star, Pentii Nikula, soared over at 16-2 $\frac{1}{2}$. The United States' Ron Morris, a competitor here this week end, became the fourth 16-foot vaulter with a leap of 16-0 $\frac{1}{4}$ at the National championships in Walnut.

Athletes had flirted with the 200-foot mark in the discus throw for some time, but it remained for Al Oerter to do the trick first. At the Los Angeles Coliseum Relays in April, he lofted the platter 200-5 $\frac{1}{2}$ for a new world record. Not too much later, Valeriy Trusenev erased that mark with a toss of 202-3. Oerter got the world standard back in Chicago, July 1, in an international meet with Poland with a tremendous throw of 204-10 $\frac{1}{2}$.

To Tamara Press, the great Russian woman shot putter and discus thrower, goes the honor of being the first woman to put the shot beyond 60 feet. She did this in Leipzig in June with a toss of 60-10 $\frac{1}{4}$. Presently the holder of both the women's world shot put and discus records, she is unquestionably the greatest woman in those two events in the history of track and field.

R OF RECORDS

At Moscow last summer, Ralph Boston long jumped 27-1 $\frac{3}{4}$ to become the first athlete in the history of the event to jump 27 feet or better. He got company in his elite club last month when Igor Ter-Ovanesyan leaped 27-3 for a new world mark.

Dallas Long at the Los Angeles Coliseum Relays joined Bill Nieder in the select class of 65-foot shot putters with his world record toss of 65-10 $\frac{1}{2}$.

There were more seven-foot high jumpers this year, bringing the number in the world to 12, six of them Americans, three Russians and three of other nationalities.

Ralph Boston leaps to 26-6 $\frac{1}{2}$ to win the National AAU long jump title at Walnut, California, last month.

Too, there have been many national records set by competitors of both nations, and undoubtedly more will be established during this week end.

HARRAH'S TAHOE CHAMPIONSHIP REGATTA

RACING THRILLS IN THE HIGH SIERRA!

SEPTEMBER 29-30

Come to the South Shore of beautiful Lake Tahoe for the thrill of a lifetime . . . championship unlimited hydroplane racing! See the country's top boats and drivers compete for thousands in cash, silver trophies and national recognition . . . watch the **fastest surface racing in the world today** as sleek, high powered hulls slam across the water at speeds of 150 mph or better! **Don't miss the final APBA event of the year** . . . Harrah's Tahoe Championship Regatta, September 29th and 30th!

Watch speed trials and qualifying heats beginning September 25th.

HARRAH'S TAHOE REGATTA

P. O. BOX 8, STATELINE, NEVADA

SPORT: AN INEXHAUSTIBLE SOURCE

Few countries in the world have achieved the successes in athletics that the Soviet Union and United States have. It is reflected here this week end in the great track and field performers who are participating in this meet. But it goes much beyond that.

There are very few individuals in either land who do not take part in some physical activity, and nearly everyone follows the success of a particular team or individual.

The Soviets have established official government bodies to guide the activities of physical culture organizations within its territory. Just prior to 1960, there were more than 200,000 sports groups of various kinds with more than 19 million members. The number has since grown immensely. These persons participate in more than 40 branches of sport.

Under a 1957 reorganization, sports clubs were set up on a territorial basis uniting factory and office workers in industry and construction work in all Soviet republics. Each territorial division now has, under the control of the Trade-Union Council, its united trade-union sports club. Physical culture work is carried on also by the Ministry of Education in schools and teachers' training colleges, by the Ministry of Higher Education in universities and institutes, by the Ministry of Health in hospitals, and by all other institutions and organizations which are in any way connected with the health, training and education of the workers. Along side the official bodies, volunteers also play an important part.

Today, physical culture institutes, research institutes and physical training colleges and physical training faculties in teachers' training institutes may be found throughout the Soviet Union. As in all other educational establishments, training in these schools and institutes is free of charge. Several thousand sports specialists graduate each year.

In addition to its fine track and field teams, the Soviet Union is also widely known for its rowing, ice hockey, gym-

A large group of competitors are tightly bunched as the 10,000-meter run gets underway at the Track and Field Championships of the Union of Soviet Socialist Republics.

JURCE OF STRENGTH AND HEALTH

nastics and soccer football teams. The latter is the country's most popular sport and it is hard to find a village, a school, or a factory which has not its own team. There are reportedly more than a million players who regularly take part in official games.

Track and field in the United States begins in the schools and is carried into the many athletic clubs throughout the country by those who no longer are attending an educational institution. The major leader in the track and field program has been the Amateur Athletic Union and its thousands of volunteers. The university track and field program is administered by the National Collegiate Athletic Association and its subsidiaries.

Nearly every American school child receives some training in track and field in physical education classes in both elementary and secondary schools, and may, if he wishes, take a P.E. class in this sport at college. For the student who goes into track and field seriously, there are numerous clinics, Olympic development meets, All-comer Meets and the regular intercollegiate, interscholastic and AAU meets being conducted all over the country.

Track and field is now a year-round sport with Indoor Meets in the winter at the various large sports arenas throughout the country.

Nearly all training in this sport in this country is conducted under the guidance of track and field specialists who are graduating in great numbers each year from the nation's colleges and universities.

The physical training program in the United States, of course, goes much beyond track and field and this country has produced many outstanding athletes in other sports. The importance of "staying in shape" has been emphasized to the country as whole by President John F. Kennedy and his physical fitness program which urges all citizens to

get as much athletic activity, of their own choosing, as possible.

Scientific knowledge is playing a big part in the development of athletes in all sports in both of these countries. Coaches are making continual studies to improve running or throwing forms and equipment so that more world records may be broken. And the athletes and coaches have an opportunity in a meet such as this to study one another and exchange ideas on techniques.

As demonstrated by these athletes competing here this week end, truly, both countries firmly believe that one of the best sources of strength and health is athletics.

Steeplechasers clear the water jump at the recent AAU championships at Mt. San Antonio College in Walnut, California.

STANFORD STADIUM *and* TRACK AND FIELD

Built in 1921, Stanford Stadium has been the scene of many of the greatest moments in track and field history.

The stadium was originally built in the form of a horse-shoe with a seating capacity of 60,000. An addition was made later to bring it to its present form with a seating capacity of 90,000, one of the largest stadiums of its kind in the country.

The first track meet was held in the stadium in the spring of 1924 and since then, most of Stanford's meets, several

John Thomas watches as his world record high jump is measured at the first day of the 1960 United States Olympic Trials here. His leap of 7-3/4 is still the American and stadium record. Valeriy Brumel is the present world record holder at 7-4.

Don Bragg sails over the bar at 15-9/4 to establish a new world's record to conclude the 1960 Olympic Trials here.

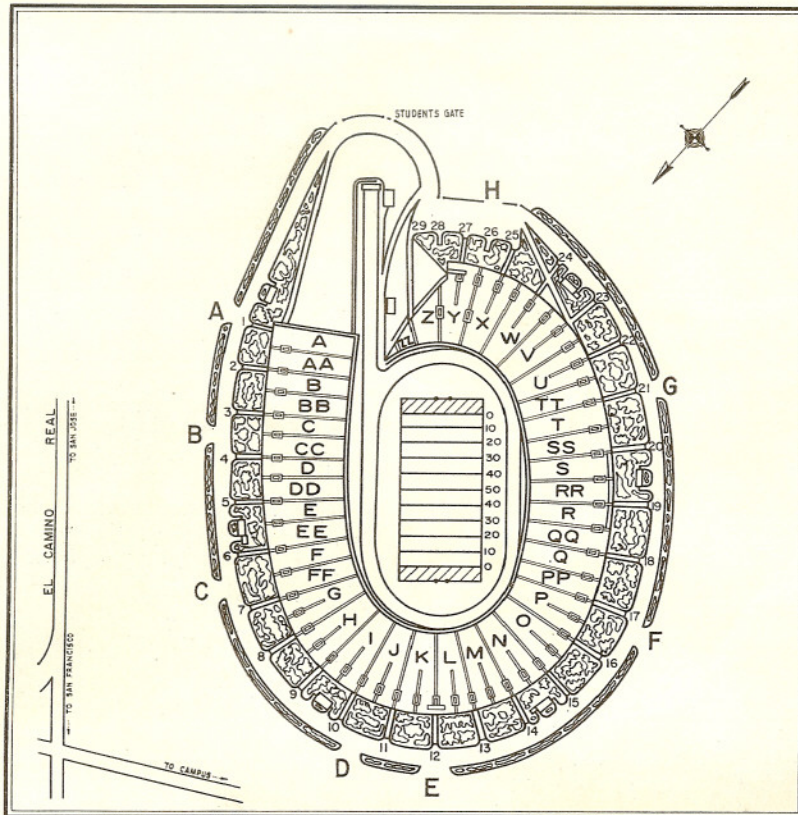

high school championships, the 1941 National College Championships and the 1932 and 1960 United States Olympic Trials have been conducted here.

Countless world and national records have been established in meets here, the most recent ones being those by John Thomas and Don Bragg in the 1960 Olympic Trials. On Friday, July 1, 1960, Thomas high jumped 7-3/4 for a new world and American record. Valeriy Brumel has since established a new world standard.

The next afternoon, just as the 1960 Trials were coming to a close, Bragg dramatically cleared 15-9/4 for another best-ever performance. Bragg's jump that day is still the recognized world record. Several higher vaults are pending world recognition headed by Finland's Pentti Kikula's 16-2/2 vault last month.

Five of the United States performers in this meet hold stadium records, all of them having established their marks in the 1960 Trials. This group includes Jim Beatty (14:13.6—5000); Rink Babka (192-3/2—Discus); Ralph Boston (26-6/2—Long Jump); Thomas, and George Young (8:50.6—Steeplechase).

STANFORD STADIUM INFORMATION

Lost and Found Service:

A lost and found booth is located near Gate H at the South end of the stadium, and will remain open each day for one hour after the meet. After this time inquiries for lost and found articles should be made at the Department of Athletics on campus.

Public Telephones:

Telephone pay stations are located between Gates D and E, near Gate F, near Gate H, and on the East and West rims of the stadium near the first aid booths.

Rest Rooms:

Rest rooms are located at various points along the rim of the stadium and at the base of the slope inside the stadium fence.

First Aid:

First aid may be obtained at the emergency room located on the East and West rims near Sections RR and EE.

Police:

The stadium police station is located just outside Gate H at the South end of the stadium.

Refreshments:

Stands selling refreshments are located on the rim at Sections AA, BB, EE, F, H, I, PP, Q, R, RR, TT, X and at the base of the stairs leading into the stadium at Gates H, B, D, G. Following are the prices in effect and any variation should be reported to the stadium police station: Pepsi-Cola in 12-ounce can, 25c; Carnation Malted Milk, 30c; Carnation Ice Cream Bar, 15c; Hot Dog, 30c; Orange Bar, 20c; Cigarettes, 35c.

Novelties:

Stands selling novelty souvenirs are located at various points around the outside of the stadium. Following are the prices in effect, including sales tax, and any variation should be reported to the stadium police station: Pennant, \$1.00; Porkie Hats, \$1.50; Badges, 50c; Coolie Hats, 75c; Men's Visor Hats, \$1.50; Sunglasses, \$1.00; \$1.50; Clip-on Glasses, \$1.50; Women's Scarf Hats, \$2.50; Men's Straw Hats, \$2.50; Straw Tyroleans, \$3.50.

AND NOW... a look to the upcoming grid season...
