

JC TRACK & FIELD

APRIL 1967

P.O. BOX 5401, SAN MATEO, CA 94402

VOL. V, NO. 8

After posting good early season performances, California's usual pacesetter junior college trackmen have been stymied for a month and a half by intermittent rains, allowing the rest of the nation's JC tracksters to make their best showing ever (this early) in the JC performance picture.

It's been an unusual spring to date, with no national records broken by mid-April. But there have been outstanding performances in most events, making it difficult to predict just where a national record may fall. In the relays, Hancock is a threat to the sprint marks, Pierce to the mile and two mile events, and Pasadena and Palomar to the four mile test.

LACC's Ron Smith is a tenth off the 100 record at 9.4 and has bettered the all-time 220 mark of 20.9 by Pablo McNeil and the recognized record of 21.0 by Lee Evans, but his 20.8 against Ventura March 31 was wind-aided. Jimmy Jasper of Howard County (Tex.) and James Hatcher of Hancock hold the best legitimate marks, 21.2 (this year).

Hancock's defending triple distance crown winner from last year's California Meet, Neill Duggan, has been bothered by an infected foot and other ailments and hasn't approached his national mile and two mile standards yet this year.

Four vaulters have cleared 16 feet, so Dennis Phillips national mark of 16-8 could be threatened when the skies give the pole benders some latitude.

In the following lists, the all-time junior college best is noted in parentheses following the name of each event.

With the relay season upon us, please be sure to send us all relay marks (including team members and available splits--which we would like to publish); also all additions to the current lists.
