Wisniewski '65 (left) and Julio Piazza '68
pleas in the past; most recently in a very strong letter. We get much sympathy, but what we want is action!! We were pleased with some initial response from some alumni just recently. We hope with this NEWSLETTER more people will begin to step forward in many different ways to help strengthen our NEWSLETTER and club. Anyone interested in making any kind of commitment to the furthering of our club can contact me at 275-9605 any night.

LETTER FROM THE DESK OF THE PRESIDENT

With spring comes the outdoor season !!
During this campaign athletes will be aiming for many prestigious titles, while trying to conquer existing records. Some people feel that attaining titles is more important; some people feel that the conquering of records is more important. Whatever your opinion, records do exist; therefore they are sought after. Everyone likes to be a "Record Breaker."
Records are attained at many levels- national, state, city, local and school. Tech has it's share of "Record Breakers" at all levels. At the level of "school record" many outstanding marks exist. Through the efforts of Tech track coach Ed Zarowin's research an extensive progression of school outdoor "Record Breakers" has been compiled. With recent additions by club secretary Lenny Malech '62 we think we are presenting an accurate account of all Tech athletes who have held any school record since Ed Zarowin took over as coach in 1962. We, though, encourage anyone who can give us any corrections to do so. With this issue we are trying to give a new outlook to our NEWSLETTER. We would like to see many different individuals step forward and become active in the growth of our NEWSLETTER. Participation has in the past always come from the same people. We would like to hear from other people now!! Most alumni have heard these

Steven Sutton '66
