UCLA-Tenn- the 46.9n for Frey was apparently taken by Dick Bank, Mort Tenner, and a third watch. The official time was 47.3. It is probable something in between would be more correct, but I guess Bank, et al are more reliable.

Milerly UCLA 3:11.3(official splits by timers-46.4,49.4,48.2,47.3)
JBS splits 46.3,49.7,47.8,47.5

USC 3:10.2- Official timer splits are 49.2~~XXXX~~^{had 48.8}, 47.4, 48.9, 44.7
(these official splits are wrong as Burks ran more like 49.3
and Hines had 47.4 for 2nd and 3rd. I had 44.8 for Garrison
as did Wenos, but we'll go with a 44.7 which is what Eales
and official watches had. Only disagreement is 2nd and 3rd
times.

Cal splits in paper okay if Andrew given 49.4(then they add up). Stan
Eales had 49.1 but official splits probably better.
