

The Northern California Track & Field Association presents the 1971 All Northern California Prep Honor Team.

Top track athletes from five different high school sections were considered in the selection of the team. The main criteria in selecting the positions on the team were: (1) Performance in the state meet trials and finals. (2) Place in the Section Meet. (3) Best Mark. Place in the state meet was the most important consideration of the three selection factors.

Note: The Fresno area was not considered in the selection of this team.
