

MASTERS AGE RECORDS

compiled by PETER MUNDLE

As Of January 1, 1976

\$1.50

Masters track & field really came of age in 1975, with the first-ever World Championships held in Toronto in August. The continuing growth of this dynamic sport is reflected in this set of Masters (40-and-over) Age Records. Even though the records get better and better every year, the level of competition is keeping pace, always

breaking the unbreakable and shattering the unshatterable.

Track & Field News extends a note of gratitude to Peter Mundle, himself a world record holder in Masters distance running, for providing us with his computer printouts, from which this collection is printed.

These sheets contain the known world age records in every standard event. If an American does not hold the world record, then his mark is listed after the world record holder's.

Information, from left to right: age, performance, athlete's name and residence; athlete's date of birth; site of meet; date of meet.

Key to abbreviations: n=non winning time; h=heat; m=metric mark; y=yard mark; i=indoor mark; dec=mark made in decathlon; pen=mark made in pentathlon; msix=mark made in masters six; °=mark made en route to longer distance; p=pending mark, birthdate or meet date info lacking; exh=mark made in exhibition competition.
