RATIONALE IN SUPPORT OF PROPOSAL:

There should be a positive reward for winning your heat by getting better seeding in the finals. Also, wind conditions can vary between races, resulting in an unfair advantage over other heats. This year in the VG 100m CCS Trials, one heat had a wind reading of 3.5 while another had a wind reading of .1. The heat with the highest wind reading had 3 qualifiers to the Finals and 3 of the 4 fastest times. This resulted in 2 qualifiers who advanced on time, were seeded higher than 2 automatic qualifiers (heat winners).

POSSIBLE OBJECTIONS TO PROPOSAL:

The CCS has traditionally followed the procedures used by the CIF State Meet which seeds solely on time.

“LANE ASSIGNMENTS FOR FINAL RACES Lanes will be assigned with the same priority, with the fastest qualifier in lane #5. Final lane assignments will be assigned by time only.”
