

Meeting began with discussing CCS meet and what could be improved for next year. The meet will stay at Gilroy High School as San Jose City College's track is not in the condition it should be to hold a meet of this caliber (Mondo red lanes are deteriorating). The WBAL would like to trade events as they do not feel strong in the event they are in charge of. The BVAL feels that some of the jobs are too long, and should be split into shifts. Julie from SCVAL explained how SCVAL splits the turn judging among the League's schools in order to prevent a couple individuals from being out in the sun, etc. all day.

I don't remember much that was said about the state meet (I hadn't gone, so I didn't pay much attention to this part) except that there was some lag time between events and that an athlete scratched and a CCS athlete that was next in line wasn't allowed into the race, which caused an empty lane in I believe it was the 400m.

A new league PSAL has started a track and field program in 2019 and will be joining CCS in the 2020 season. There was quite a bit of discussion in regard to how entries into the CCS meet will be handled as there is an extra school joining. The idea of capping a leagues' entries at 6 was discussed as was the minimum allowance for a league at 2 entries. Eventually, it was decided that since we do not know how many athletes are actually competing for this new league, and since Gilroy is a 9-lane track, that the new league will provisionally get one entry for the 2020 season and all other leagues will keep their current number of entrants. A possible minimum entry status was also discussed as was raising the first height on the Girls High Jump.

Lastly, the idea of adding Paralympics events, as the state meet has done, was discussed and tabled for the time being.
