

Stanford Invitational Track Meet (1906-1914)

Stanford Invitational Track Meet (1906-1914) In the years before the California Interscholastic Federation was formed in 1914 to provide statewide track and field competition for high schools, the Stanford Invitational Meet was the state's outstanding annual prep event. The meet first was held in 1906. In the early years, most of the competitors were from Northern California, but as the Invitational's reputation grew, more and more Central and Southern California schools were represented. By 1911, the competition began to show the quality that would carry over into the CIF state meet five years later.
