GENERAL ELECTRIC POSTS STRONG

SHOWING IN CORPORATE CUP 10 K

The Corporate Cup division of the Saucony 10 K road race featured an excellent showing by the team from General Electric. The race, held on January 1 over the familiar Stanford circuit, offered many of the competitors to make a comparison between their peak summer racing condition and their post holiday status. The fastest corporate participant was S.R.I.'s Brock Hinzman with a 31:32 clocking. Leading the corporate women was Amanda Goldner from Lawrence Livermore Labs who turned a fine 41:05. The results for each category are listed on the following pages and, hopefully no teams were omitted in those cases where only one finisher for a team is indicated. If you feel there has been a mistake please contact Scott MacTavish at the Runner's World office.

The top three teams (where applicable) will receive medals. Each person who competed for a top team in that category will receive a medal. For instance, in the Open Men's category the second place team from S.R.I. had three runners, so S.R.I. will receive three medals. To collect your medals please contact Scott MacTavish. We would prefer to have teams pick up the medals as we have not fared too well with them in the mail. Please do not attempt to pick them up without making prior arrangements. If you have any further questions feel free to call the Corporate Cup office.

AWARDS SET FOR CORPORATE CUP

INDOOR CHAMPIONSHIPS

The first edition of the Corporate Cup Relays Indoor Championships was staged at the Cow Palace on January 2 in conjunction with the 2nd Annual Runner's World Indoor Classic. Trials were held in all events on January 1 at Stanford Stadium. A total of 12 teams took part in this inaugural event and perennial powerhouse PG & E ran away with team honors, totaling 34 points while capturing four out of five races. Finishing in second with 23 points was the consistent General Electric squad, followed by Lawrence Labs with 16 points in the third position.

We will distribute individual and team awards as follows:

Team Trophies

- 1) PG & E
- 2) General Electric
- 3) Lawrence Labs

Digital Watches by Texas Instruments

- Men's Mile Team Race: PG & E (2)
Master's Relay: PG & E (3)
Women's Relay: Lawrence Labs (3)
Pyramid Relay: PG & E (5)
Men's 3000 M Team Race: PG & E (2)

Due to some confusion by our awards supplier, all members of second and third place relay teams were awarded invitations to the Nurmi Awards Dinner in lieu of silver and bronze medals. I apologize for the mistake but hopefully the Nurmi Awards were reward enough.

Team captains should contact Scott MacTavish at Runner's World to make arrangements to pick up their awards. We would prefer not to mail the watches as they would be very hard to replace if broken or lost. If you have any questions regarding the Indoor Results, please call our office.

Mr. Hank Lawson
Hewlett-Packard
19457 Pruneridge Ave.
Cupertino, CA 95014

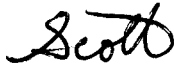

Dear Hank,

Many thanks to you and your team members for competing in our Corporate Cup Indoor Championships and 10K road race. While the turnout was not quite as large as we would have liked, I think the teams involved did a tremendous job.

Please accept this letter as a receipt of your payment by personal check of \$100.00 to the Corporate Cup Association to cover the entry fees for the Indoor Championships (\$50.00) and the 10K road race (\$50.00).

Thanks again for your interest and I look forward to working with you on the Summer series later this year. Your results are on the way and feel free to give me a call if you have any questions.

Best Regards,

Scott MacTavish
