

# Brown repeats winning effort

SAN DIEGO - All day long Terrie Brown kept expecting raindrops on her head.

Instead, she found a CIF cross country crown fit much nicer.

As she did last year, as a freshman at San Pasqual High School, Brown wound up winning the 1-A championship Wednesday afternoon at Morley Field in Balboa Park.

Not only did Brown easily beat the remainder of the field, but the 15-year-old sensation also beat the rain, which was predicted to begin falling around noon.

However, the Golden Eagles, even with Brown's expected victory, could no better than fourth in the final team standings. Fallbrook surprised everyone, compiling 31 points followed by Coronado's 66, Southwest's 82 and San Pasqual's 83.

"We were really worried about Fallbrook after we won the CIF Prelims last week," Brown stated.

"Then, our second and third girls - Laurie Dowdy and Gail Schmaetle - came down sick.

"If everyone was healthy, we would have won the whole thing." Brown rushed to the finish line in 13:13, some 20 seconds ahead of her nearest rival - Ruth Truscott of Santa Fe Christian.

It also bettered her goal, the 13:16 of Cheryl Flowers of Vallarta.

Normally not a pace setter, Brown went against her game plan and was not among the leaders at all. She was THE leader.

"I usually try to let another girl set the pace for the first three-quarters-of-a-mile or so unless that's far too slow," said Brown, trying to get one leg into her warm-up pants.

"I started out like I always do, my regular pace, you know, and suddenly I found myself way ahead. So, I concentrated on not slipping in the mud. But it really wasn't all that bad out there, not as muddy, I don't think anyway, as it was last year."

Brown covered the first mile to victory in 5:47, with Truscott in hot pursuit, without much strain.

Her margin did not grow much to the finish line, although Brown still breezed home.

"She ran a real fine race," said Brown. "I could hear her behind me a few times, but I kept going. The mud was my biggest concern.

"Everyone told me last night that we would be running in the rain here no matter what, but I wasn't too worried about the rain, just the footing. I just had a good dinner and got a good night of sleep."

Meanwhile, in the boys 2-A chase, Poway's main man - Mike Tylman - stayed right in the hunt until the very end, finishing third with a time of 13:28. Tylman was fourth rounding the halfway mark.

San Marcos' Dan Moore, an all-league basketball candidate this winter, prepared to hit the hardwood by grabbing third place in the

boys 1-A race with a time of 16:11.

Moore, like Tylman later, stayed close to the leaders but could not close the gap down the stretch.

Mt. Carmel was the lone North County entry to win a division title when Mt. Carmel came out ahead in a five-team scramble in girls 2-A. The Sundevils' 78 points nipped El Capitan (81), Bonita Vista (83) and Santana (84) for top honors.

Fossbender, only a sophomore, paced the Sundevil attack with a second place finish in 13:28, the sixth fastest time among all three divisions.

"This is the second straight year we've won this division and it's especially gratifying because we had only two of our top seven girls back from last year," said Mt. Carmel coach Dennis McClanahan. "And of those seven this year, three are sophomores, two are juniors, one is a freshman and the other is a senior.

"We beat El Capitan pretty easily in the CIF Prelims, by about 20 points, but they really ran an excellent team race."

Brown now takes a few days off before competing on the exact same Morley Field course, shortened by 100 yards or so Wednesday because of several standing puddles and muddy areas, in the Junior Olympics on Saturday.

"Hey, I really like high school running like this," she added. "Once I got into ninth grade at San Pasqual and started winning some races, I was surprised how boring running alone can be unless you're alone because you're leading.
