117. Zumalt, Julie	9	Nova	24:13.7

Since there was a question about the scoring in the boys' race, I spent Saturday evening and Sunday afternoon talking to coaches, officials and pushers about the boys' race. I have concluded that all the places before number 60 are correct. It was after that runner, that another runner finished and collapsed; thus several runners may have been out of place by two or three places. Once they got into the chute, there were no changes.

I was very worried about the girls' race, but they did a much better job at the finish line, in the chute, and taking their tag to the scorer than the boys did. Thanks for a great job girls.

Thanks to the AAU officials and others that helped start and helped at the finish line.
