- Altitude (meters/feet above sea level): Start _____ Highest _____ Lowest _____ Finish _____
- Course surface: Paved 99 % Dirt 1 % Sand/Gravel _____ % Grass _____ %
- Type of course: Road Race Cross Country [] Calibration [] Track []
- Distance (straight line) between start and finish: 8 yards
- Draw a complete detailed map of the course with the names of all streets, paths & trails. Show all dirt and grass sections. Show the exact race path measured along the route indicating which portion of each street is available to the runners and how each turn is taken. Please give a dimensioned detail of the start and finish relative to permanent landmarks (mailboxes, light poles, curb cuts etc) and as well, any other aspect of the course necessary to clarify the course (such as turn arounds etc.) If miles and/or kilometers are indicated, dimension to permanent objects. See Attached

B. CALIBRATION OF MEASURING INSTRUMENT

1. Calibration course
 Name: De Anza College track Length: 1/2 mile
 Location: Capertine, CA Cert. No. _____

Note: Calibration course must be certified & the start & finish verified. Call local office for info.

- Calibration of the instrument (list date, time, temperature & data)
 - Calibrate before measuring course (4 times).
 - Recalibrate after measuring the course. (at least twice)

20 clicks equal .1 mile (200 clicks equal one mile)

Rode on the De Anza track in the middle of lane 1 for 2 laps (880) and it took 100 clicks. Rode, and re-set counter, 4 x 880. Each ride equaled 100 clicks.

7:15 AM, 3/16/86, ±50°, dry, no wind

Rode on De Anza track, middle of lane 1, for 2 laps (880). Did this twice, re-setting counter after each 880. 100 clicks was the count for each ride.

12:00 noon, 3/16/86, ±59°, dry, no wind

Average digits per mile/km for each day for each operator:

Date: 3/16/86 Name: Hank Lawson Digits/mile 200 Digits/km _____
 Date: " " Name: " " Digits/mile " " Digits/km _____

C. COURSE MEASUREMENT

Note: Certification requires two measurements of the course and the calibration operation and riding the course must be done on the same day by the same rider.

1. Was the measured route identical to the shortest legal runners route. YES
2. Were all turns measured to within 12" of curbs and within 8" where uncurbed. YES. IF IT APPEARED THAT A RUNNER COULD CUT, THEN THE SHORTEST DISTANCE WAS MEASURED.
3. If part of the course is dirt or grass how were those areas measured? ALL DIRT AREAS WERE DEFINED TRAIL AND EASY TO MEASURE.
4. Was the instrument calibrated immediately before measuring YES after measuring YES. If the answer to either question is "No", please explain _____
5. .1% short course prevention factor (SCPF) must be added to each course. (Note: best added to calibration digits)
6. List the date, time and raw data for each measurement.

Note: 10km = 6.2137119 miles, marathon = 26.21875 miles

SEE ATTACHED SHEET.

7. Describe any adjustments (computations/measurements) to set the course to the desired length:

SEE ATTACHED SHEET

8. List total length of final course. 10,010 meters 8.58 miles
9. List adjusted difference between the two rides. 5'

DATE

3/16/86

Be sure to include \$20.00 per application

Central & Northern California: Carl Wisser, 4899 Shafter Avenue, Oakland, CA 94609 (415) 652-7996

Los Angeles area: Ron Scardera, 6907 Camrose Drive, Los Angeles, CA 90068

San Diego & Imperial Counties, California: Bob Letson, 4369 Hamilton Street #4, San Diego, CA 92104 (619) 298-0924

The weather was dry and overcast at 8:00 AM. The temperature was about 55 degrees. The course is a KEYHOLE type of run. There are two distances; a 10K and a 5K+ (3.58 miles). The start is where the two corners of the building merge (between FARRELL'S entrance and PENNY'S entrance) and the hedge meets (marked with a white paint dot on the curb).

Runners head EAST (towards Capital Exp) to the exit of Eastridge Shopping Mall on Capital. Head NORTH (turn LEFT) on Capital; turn RIGHT at 'side road' (before Tully). Turn RIGHT at Tully Rd towards Lake Cunningham entrance on Tully. Turn LEFT into Lake Cunningham and then another LEFT following Park rd.

One mile mark is at the '15 MPH' sign facing the other direction (all miles are also marked with a white paint dot; on curb if possible). Follow Park road around and cross down dirt onto lake path after going through parking lot #2. Follow path around lake; always bearing RIGHT (to stay next to lake) where appropriate.

Two miles is at Lakehaven Picnic Area (about 10 yards in front of RIGHT hand turn). A sharp 180 degree turn to the LEFT (onto the dirt trail) is made in order to bring you back up to the point where you entered Lake Cunningham Park. The 5K+ runners exit the park at this point; the 10K runners make a RIGHT hand turn at the top of the trail and repeat another loop around the lake.

The three mile mark (for the 10K) is 8 yards past pole #P760-A (which is past the mile mark and just prior to parking lot #1).

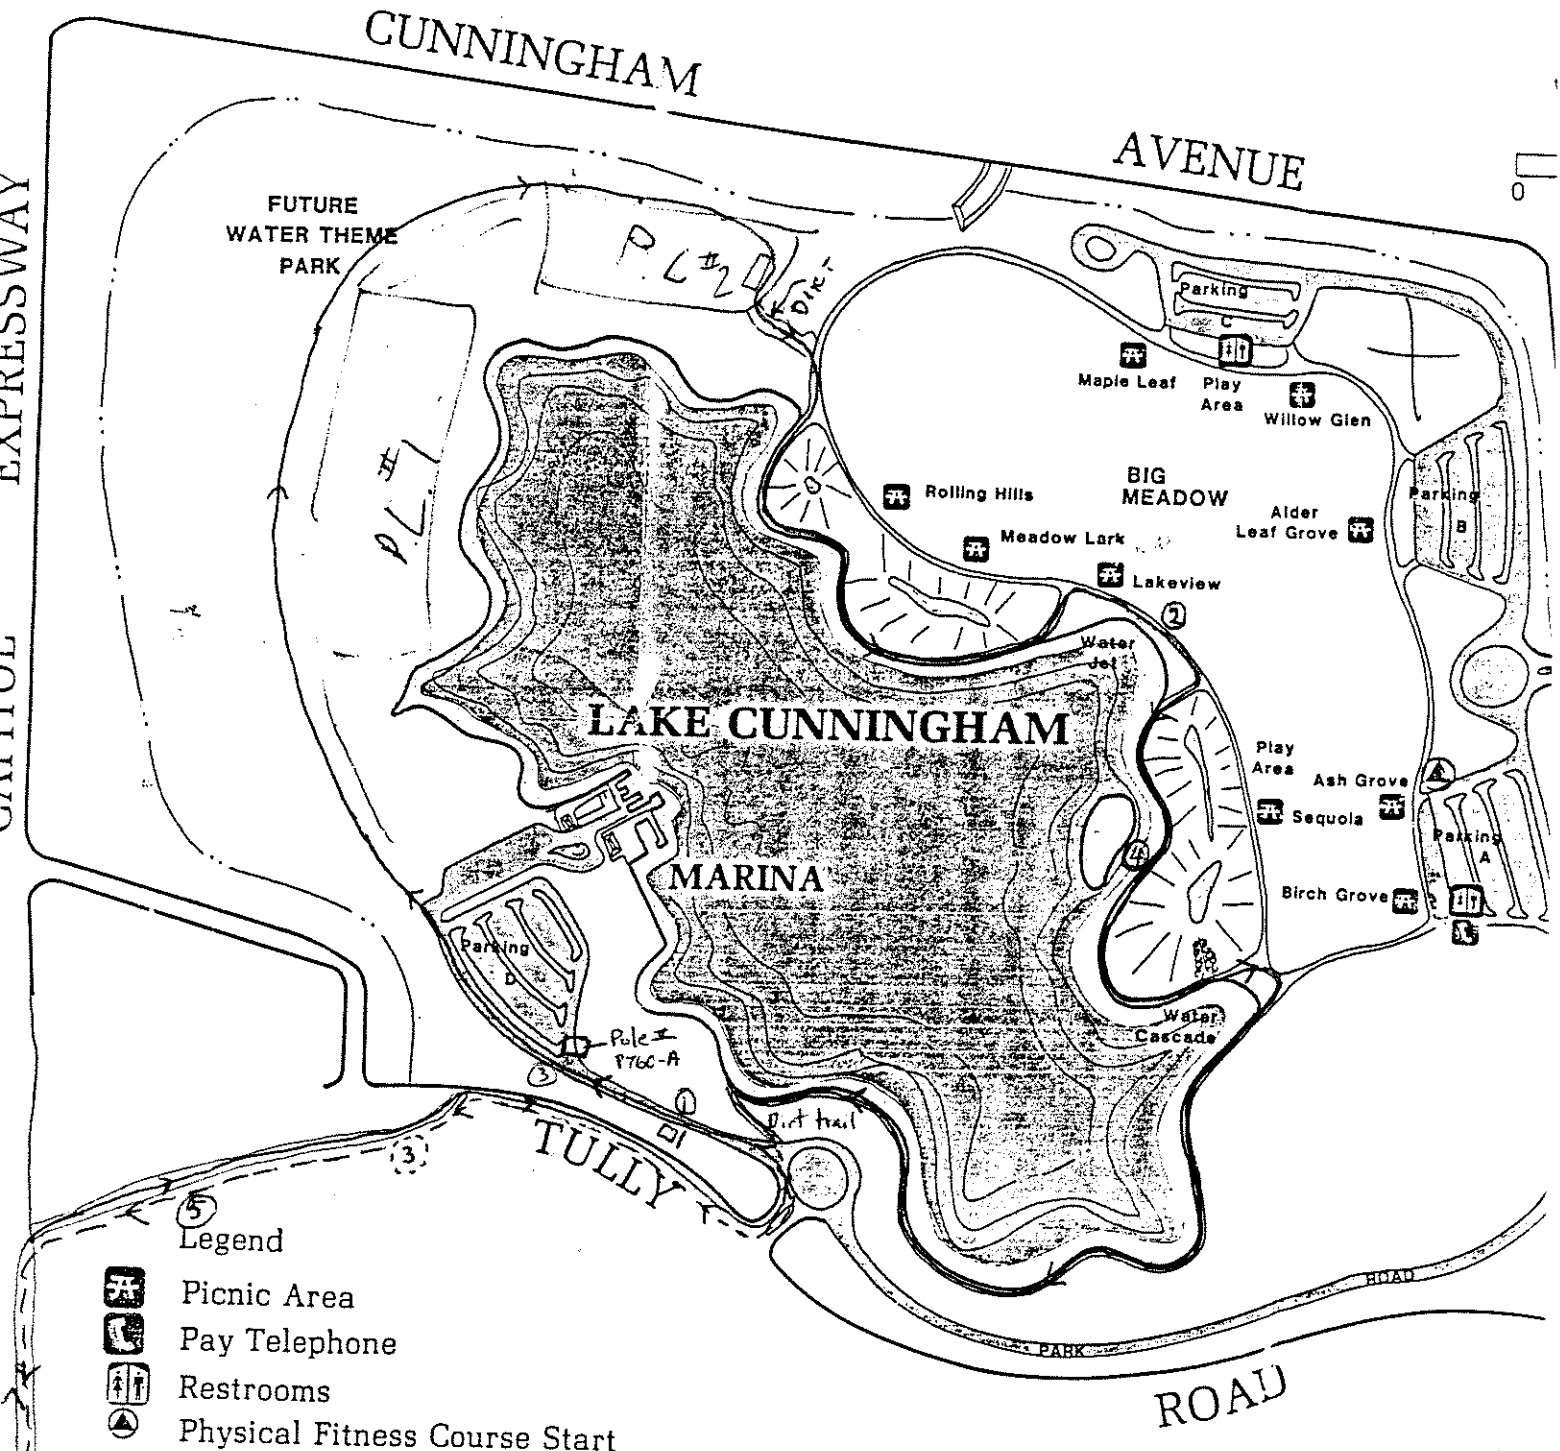

The four mile mark is about 15 yards past the wooden garbage can post (4 mile mark is past the 2 mile mark). Another landmark for the 4 mile mark is that it is across from a tiny island very close to the edge of the lake. After completion of the second loop; runners exit the park and begin to back track the same way they took to get to the park.

The 3 mile mark for the 5K+ mile race is at the 10th fence post after turning LEFT onto the side road. The 5 mile mark for the 10K is at the 65th pole after the 3 mile mark for the 5K+ race or the 46th pole before the 'Pedestrian Prohibited' sign on Capital Exp (just off the side road on the way back).

You then re-enter the Eastridge Shopping Mall at the same intersection that you exited and take a LEFT following the mall road around the mall. You turn RIGHT at the road leading towards SEARS. You then take another RIGHT and follow the road around the stores within the shopping center (there is only one way to go). As you head away from EMPORIUM/CAPWELL you take a LEFT (now staying as far right to the curb as possible). The 6 mile mark is in the same parking isle as the first light pole in that lot. Then take a left (following the last parking isle) back towards PENNY'S. At PENNY'S take another LEFT and the 10K finish is at the tree before the start (as you head towards it) about 10 yards away from the start.

The 5K+ mile course returns exactly the same way it went out finishing at the same location as the 10K course. The exact distance of the 5K+ is 3.58 miles.
