SPALDING'S OFFICIAL ATHLETIC ALMANAC.

SAMUEL RICHARDS, JR., LONG DISTANCE SWIMMER.

Samuel Richards, Jr., is a member of the L Street Swimmers' Club of South Boston, Mass., and is a registered athlete in good standing in the New England Association of Amateur Athletic Union. He is well known as a remarkable swimmer, having made the round swim from Charlestown Bridge to Boston Light and return in Boston Harbor last summer, and previously had swam from Charlestown Bridge to Boston Light in 5 hours and 15 minutes, which beat his own record by an hour, so that he holds the two fastest records for that swim, and himself has covered the distance five times.

Richards dove off the wall at Pier A, Battery Park, at 6.40 A.M., Sunday morning, September 14, headed straight across toward Governors Island until he got to about the middle of the stream, then headed diagonally up the river toward the landing at the Barracks of the soldiers, which he swam close to and then hugged the shore of the island until he reached the upper end, when he headed toward the Brooklyn shore. He did not approach close to the Brooklyn shore, but kept well out from it and finally headed toward Fort Wadsworth. At the end of three hours and fifteen minutes Richards was opposite the Brooklyn Edison Light Co. plant.

The tide was due to be high at Governors Island that morning at 7.26, but owing to a strong northwest gale which had prevailed since about midnight, it was kept back, and Captain W. H. Edwards, who had charge of the power boat which accompanied the swim, stated that it was two hours late in changing. At 11 A.M. Richards was near the Staten Island shore opposite Fort Wadsworth. At that time he ate two ham sandwiches and drank some warm milk in which two eggs had been beaten up. There was at that time an eddy full against him, so strong that he was making little headway. After taking his nourishment Richards swam over toward the launch and experienced the benefit of a strong tide in his favor. It was the first time he had received any appreciable assistance from the tide. At 11.25 he was passing Hoffman's Island. At 12.15 he was nearly off West Bank Light. At 12.45 he

was opposite bell buoy 32. At 1 P.M. he was nearly off Romer Shoal Light. At 1 P.M. he was swimming 26 strokes per minute, which was the fastest stroke he used. From the time the tide turned against him at 1.13, he had a hard struggle with the tide, and as he approached the shore the tide swept him along somewhat so that he finally landed on the northwest point of Sandy Hook at 2.52 P.M. After drinking a pint of warm milk he started to swim to the launch which Captain Edwards had placed out a mile from shore. James I. Coleman, one of those who accompanied him in one of the row boats, dove off the boat and they had a race for the launch, which Richards won by about fifteen yards. Richards got aboard the launch at 3.15 P.M. He was in fine condition and by no means exhausted. He refused assistance and rubbed himself down and dressed alone.

Mr. Richards was accompanied during the entire swim by twelve reputable witnesses, two of whom were well known Boston newspaper correspondents, and one was a well known New York newspaper correspondent.

HUNGARIAN SWIMMING RECORDS.

Compiled by Otto Wahle, New York.

In Hungary swimmers are allowed to take a walking step when turning in the shallow end of the bath, which means a considerable advantage over the American and English method of turning.

BEST PERFORMANCES OF GERMAN SWIMMERS

Compiled to November, 1913, by Otto Wahle, New York.

It is impossible to give a reliable list of German records, as the German Swimming Association has no rules under which records can be made. In open water, races are generally started from a tread water start and pushing off on turns is not permitted. In baths the start is made with a push off and contestants are allowed to make a walking step when turning in the shallow end, which means an advantage over a turn with a push-off of about 1 second per turn. Since the Olympic Games, 1912, occasionally the start with a dive has been used and walking on turns prohibited. In all such cases the advantage offered by walking on turns in the shallow end of the bath has been demonstrated by the fact that considerably slower performances were accomplished.

THE GRAND PRIX

PARIS, 1900

At the Universal Exposition, Paris, 1900, A. G. Spalding & Bros. were awarded the Grand Prize for the finest and most complete line of Athletic Goods, in competition with the leading makers of the world.

At the Louisiana Purchase Exposition St. Louis, 1904

A. G. Spalding & Bros. received a Special Award (superior to the Grand Prize), consisting of a Gold Medal, for the best exhibit of Athletic Supplies exhibited at the World's Fair.

A. G. Spalding & Bros. were also awarded by the Superior Jury a Grand Prize for their exhibit of all kinds of Athletic Implements and Athletic Wearing Apparel.

At the Pan-American Exposition, 1901

Spalding's Athletic Goods were exclusively used in all athletic competitions.

A. G. Spalding & Bros., the largest manufacturers in the world of athletic goods, cordially invite all European athletes and directors of athletics to visit their shops and factories in London, Birmingham, Manchester, Glasgow and Edinburgh when visiting Great Britain. A. G. Spalding & Bros., being in close touch with the growth of athletics in America for forty years, are in a position to offer every facility for information on any branch of athletics. If you want to know how to train, how to build an athletic track, what the record is for any athletic event, what to use for any sport, the official rules for any sport, how to lay out a playground or construct a gymnasium, a request to them will bring a reply with the opinions of the most reliable experts in their particular lines. Do not hesitate to write for any athletic information.

OLYMPIC GAMES

SCHOOLYARD ATHLETICS

By J. E. Sullivan, American Commissioner to the Olympic Games, Stockholm, Sweden, 1912. The only book that contains all the records made in Sweden, with winners at previous Olympiads and best Olympic records; list of members of the American team; how the team trained on the Finland, which was chartered especially to convey the athletes, and incidents of the trip; ceremonies at the opening, and other interesting accounts. Profusely illustrated with scenes at Olympic Games and pictures of prominent competitors.

PRICE 25 CENTS.

By J. E. Sullivan, Secretary-Treasurer Amateur Athletic Union and Member Board of Education of Greater New York. The great interest in athletics developed in public schools led to the compilation of this book with a view to systematizing events that form distinctive athletic features of school recreation. With its aid a teacher should be able to conduct meets. Directions given for becoming expert in various lines will appeal to the pupil. Chapters by leading athletes. Illustrated with photos taken in public school yards.

PRICE 10 CENTS.

NEW THINGS IN ATHLETICS

Spalding Vaulting Poles

SPECIAL NOTE—It is our endeavor always to supply Athletic Equipment of the very highest quality, and which is at the same time made of the most satisfactory material and in the best possible manner for the purpose intended.

We have discontinued making Spruce Vaulting Poles because we find ourselves unable to recommend their use owing to danger of breakage and possibility of serious injury to user. Bamboo poles we do recommend, having proven to our satisfaction that they are superior for vaulting to poles made of any wood we know of, and, furthermore, if they do break while in use, the danger of personal injury is very remote.

Spalding Bamboo Vaulting Poles INDOOR AND OUTDOOR STYLES

Owing to differences in climatic conditions it is impossible to keep Bamboo Vaulting Poles from cracking. These cracks or season checks do not appreciably detract from the merits of the poles, except where they are continuous. Much of the real strength of the pole is in the joints. All of our tests would seem to prove that poles with season checks may be accepted as safe and durable, except where the season check is wide open and extends through several sections on one side. Very frequently such splits or season checks can be entirely closed by placing the pole in a damp place for a day or so.

Mike Murphy "Rub-In" Athletic Liniment

THIS PREPARATION is the same as has been used by Mike Murphy, the famous athletic trainer, in conditioning the Yale, University of Pennsylvania and other college teams which

have been under his charge. He is famous for the perfect condition in which he brings his athletes into a contest, and the ingredients and proper preparation of his "Rub-In" Liniment has been a closely guarded secret. He has finally turned the formula over to A. G. Spalding & Bros. with perfect confidence that the proper materials will always be used in preparing the liniment and that no considerations will induce us to cheapen it in any way.

Large bottles. Each, 50c.

Small bottles. Each, 25c.

Standard Policy

A Standard Quality must be inseparably linked to a Standard Policy. Without a definite and Standard Mercantile Policy, it is impossible for a Manufacturer to long maintain a Standard Quality.

To market his goods through the jobber, a manufacturer must provide a profit for the jobber as well as for the retail dealer. To meet these conditions of Dual Profits, the manufacturer is obliged to set a proportionately high list price on his goods to the consumer.

To enable the glib salesman, when booking his orders, to figure out attractive profits to both the jobber and retailer, these high list prices are absolutely essential; but their real purpose will have been served when the manufacturer has secured his order from the jobber, and the jobber has secured his order from the retailer.

However, these deceptive high list prices are not fair to the consumer, who does not, and, in reality, is not ever expected to pay these fancy list prices.

When the season opens for the sale of such goods, with their misleading but alluring high list prices, the retailer begins to realize his responsibilities, and grapples with the situation as best he can, by offering "special discounts," which vary with local trade conditions.

Under this system of merchandising, the profits to both the manufacturer and the jobber are assured; but as there is no stability maintained in the prices to the consumer, the keen competition amongst the local dealers invariably leads to a demoralized cutting of prices by which the profits of the retailer are practically eliminated.

This demoralization always reacts on the manufacturer. The jobber insists on lower, and still lower, prices. The manufacturer, in his turn, meets this demand for the lowering of prices by the only way open to him, viz.: the cheapening and degrading of the quality of his product.

The foregoing conditions became so intolerable that 15 years ago, in 1899, A. G. Spalding & Bros. determined to rectify this demoralization in the Athletic Goods Trade, and inaugurated what has since become known as "The Spalding Policy."

The "Spalding Policy" eliminates the jobber entirely, so far as Spalding Goods are concerned, and the retail dealer secures the supply of Spalding Athletic Goods direct from the manufacturer by which the retail dealer is assured a fair, legitimate and certain profit on all Spalding Athletic Goods, and the consumer is assured a Standard Quality and is protected from imposition.

The "Spalding Policy" is decidedly for the interest and protection of the users of Athletic Goods, and acts in two ways:

First.—The user is assured of genuine Official Standard Athletic Goods.

Second.—As manufacturers, we can proceed with confidence in purchasing at the proper time, the very best raw materials required in the manufacture of our various goods, well ahead of their respective seasons, and this enables us to provide the necessary quantity and absolutely maintain the Spalding Standard of Quality.

All retail dealers handling Spalding Athletic Goods are requested to supply consumers at our regular printed catalogue prices—neither more nor less—the same prices that similar goods are sold for in our New York, Chicago and other stores.

All Spalding dealers, as well as users of Spalding Athletic Goods, are treated exactly alike, and no special rebates or discriminations are allowed to anyone.

This briefly, is the "Spalding Policy," which has already been in successful operation for the past 15 years, and will be indefinitely continued.

In other words, "The Spalding Policy" is a "square deal" for everybody.

PRESIDENT.

AMERICA'S NATIONAL GAME

By A. G. SPALDING

PRICE, \$2.00 NET

A book of 600 pages, profusely illustrated with over 100 full page engravings, and having sixteen forceful cartoons by Homer C. Davenport, the famous American artist

The above work should have a place in every public library in this country, as also in the libraries of public schools and private houses.

The author of "America's National Game" is conceded, always, everywhere, and by everybody, to have the best equipment of any living writer to treat the subject that forms the text of this remarkable volume, viz., the story of the origin, development and evolution of Base Ball, the National Game of our country.

Almost from the very inception of the game until the present time—as player, manager and magnate—Mr. Spalding has been closely identified with its interests. Not infrequently he has been called upon in times of emergency to prevent threatened disaster. But for him the National Game would have been syndicated and controlled by elements whose interests were purely selfish and personal.

The book is a veritable repository of information concerning players, clubs and personalities connected with the game in its early days, and is written in a most interesting style, interspersed with enlivening anecdotes and accounts of events that have not heretofore been published.

The response on the part of the press and the public to Mr. Spalding's efforts to perpetuate the early history of the National Game has been very encouraging and he is in receipt of hundreds of letters and notices, a few of which are here given.

ROBERT ADAMSON, New York, writing from the office of Mayor Gaynor, says:—"Seeing the Giants play is my principal recreation and I am interested in reading everything I can find about the game. I especially enjoy what you [Mr. Spalding] have written, because you stand as the highest living authority on the game."

BARNEY DREYFUSS, owner of the Pittsburg National League club:—"It does honor to author as well as the game. I have enjoyed reading it very much."

WALTER CAMP, well known foot ball expert and athlete, says:—"It is indeed a remarkable work and one that I have read with a great deal of interest."

JOHN B. DAY, formerly President of the New York Nationals:—"Your wonderful work will outlast all of us."

W. IRVING SNYDER, formerly of the house of Peck & Snyder:—"I have read the book from cover to cover with great interest."

ANDREW PECK, formerly of the celebrated firm of Peck & Snyder:—"All base ball fans should read and see how the game was conducted in early years."

MELVILLE E. STONE, New York, General Manager Associated Press:—"I find it full of valuable information and very interesting. I prize it very highly."

GEORGE BARNARD, Chicago:—"Words fail to express my appreciation of the book. It carries me back to the early days of base ball and makes me feel like a young man again."

CHARLES W. MURPHY, President Chicago National League club:—"The book is a very valuable work and will become a part of every base ball library in the country."

JOHN F. MORRILL, Boston, Mass., old time base ball star:—"I did not think it possible for one to become so interested in a book on base ball. I do not find anything in it which I can criticise."

RALPH D. PAINE, popular magazine writer and a leading authority on college sport:—"I have been reading the book with a great deal of interest. 'It fills a long felt want,' and you are a national benefactor for writing it."

GEN. FRED FUNSTON, hero of the Philippine war:—"I read the book with a great deal of pleasure and was much interested in seeing the account of base ball among the Asiatic whalers, which I had written for Harper's Round Table so many years ago."

DEWOLF HOPPER, celebrated operatic artist and comedian:—"Apart from the splendid history of the evolution of the game, it perpetuates the memories of the many men who so gloriously sustained it. It should be read by every lover of the sport."

HUGH NICOL, Director of Athletics, Purdue University, Lafayette, Ind.:—"No one that has read this book has appreciated it more than I. Ever since I have been big enough, I have been in professional base ball, and you can imagine how interesting the book is to me."

MRS. BRITTON, owner of the St. Louis Nationals, through her treasurer, H. D. Seekamp, writes:—"Mrs. Britton has been very much interested in the volume and has read with pleasure a number of chapters, gaining valuable information as to the history of the game."

REV. CHARLES H. PARKHURST, D.D., New York:—"Although I am not very much of a 'sport,' I nevertheless believe in sports, and just at the present time in base ball particularly. Perhaps if all the Giants had an opportunity to read the volume before the recent game (with the Athletics) they might not have been so grievously outdone."

BRUCE CARTWRIGHT, son of Alexander J. Cartwright, founder of the Knickerbocker Base Ball Club, the first organization of ball players in existence, writing from his home at Honolulu, Hawaiian Islands, says:—"I have read the book with great interest and it is my opinion that no better history of base ball could have been written."

GEORGE W. FROST, San Diego, Calif.:—"You and 'Jim' White, George Wright, Barnes, McVey, O'Rourke, etc., were little gods to us back there in Boston in those days of '74 and '75, and I recall how indignant we were when you 'threw us down' for the Chicago contract. The book is splendid. I treasure it greatly."

A. J. REACH, Philadelphia, old time professional expert:—"It certainly is an interesting revelation of the national game from the time, years before it was so dignified, up to the present. Those who have played the game, or taken an interest in it in the past, those at present engaged in it, together with all who are to engage in it, have a rare treat in store."

DR. LUTHER H. GULICK, Russell Sage Foundation:—"Mr. Spalding has been the largest factor in guiding the development of the game and thus deserves to rank with other great men of the country who have contributed to its success. It would have added to the interest of the book if Mr. Spalding could have given us more of his own personal experiences, hopes and ambitions in connection with the game."

Standard Quality

An article that is universally given the appellation "Standard" is thereby conceded to be the criterion, to which are compared all other things of a similar nature. For instance, the Gold Dollar of the United States is the Standard unit of currency, because it must legally contain a specific proportion of pure gold, and the fact of its being Genuine is guaranteed by the Government Stamp thereon. As a protection to the users of this currency against counterfeiting and other tricks, considerable money is expended in maintaining a Secret Service Bureau of Experts. Under the law, citizen manufacturers must depend to a great extent upon Trade-Marks and similar devices to protect themselves against counterfeit products—without the aid of "Government Detectives" or "Public Opinion" to assist them.

Consequently the "Consumer's Protection" against misrepresentation and "inferior quality" rests entirely upon the integrity and responsibility of the "Manufacturer."

A. G. Spalding & Bros. have, by their rigorous attention to "Quality," for thirty-eight years, caused their Trade-Mark to become known throughout the world as a Guarantee of Quality as dependable in their field as the U. S. Currency is in its field.

The necessity of upholding the Guarantee of the Spalding Trade-Mark and maintaining the Standard Quality of their Athletic Goods, is, therefore, as obvious as is the necessity of the Government in maintaining a Standard Currency.

Thus each consumer is not only insuring himself but also protecting other consumers when he assists a Reliable Manufacturer in upholding his Trade-Mark and all that it stands for. Therefore, we urge all users of our Athletic Goods to assist us in maintaining the Spalding Standard of Excellence, by insisting that our Trade-Mark be plainly stamped on all athletic goods which they buy, because without this precaution our best efforts towards maintaining Standard Quality and preventing fraudulent substitution will be ineffectual.

Manufacturers of Standard Articles invariably suffer the reputation of being high-priced, and this sentiment is fostered and emphasized by makers of "inferior goods," with whom low prices are the main consideration.

A manufacturer of recognized Standard Goods, with a reputation to uphold and a guarantee to protect must necessarily have higher prices than a manufacturer of cheap goods, whose idea of and basis of a claim for Standard Quality depends principally upon the eloquence of the salesman.

We know from experience that there is no quicksand more unstable than poverty in quality—and we avoid this quicksand by Standard Quality.
