

## FORTY-SEVENTH ANNUAL FIELD MEETING, PHILADELPHIA, PA., MAY 25-26, 1923

**F**OR the third year in succession the University of California won the track and field championship of the Association. The forty-seventh annual games were held on Franklin Field of the University of Pennsylvania, Philadelphia, on Friday and Saturday, May 25 and 26. California won with a score of  $39\frac{1}{2}$  points. Princeton was second once more with 33 points. Yale was third with 23 and Pennsylvania fourth with  $22\frac{1}{2}$ . The other colleges scored as follows: Cornell, 15; Syracuse, 13; Penn State, 13; Dartmouth, 11; Johns Hopkins, 11; Georgetown, 7; Harvard, 6; Lafayette, 6; M. I. T., 5; Rutgers, 5; Bowdoin, 5; New York University, 4; Williams, 3; Pittsburgh, 3; Boston, 1.

Two new intercollegiate records were made, both in the preliminaries on Friday. Frederick D. Tootell, Bowdoin, 1923, threw the 16-pound hammer 181 feet  $6\frac{1}{2}$  inches, bettering by ten feet the record set by John W. Merchant, California, 1922, the previous year. C. C. Storrs, Yale, 1923, threw the javelin 199 feet  $\frac{1}{2}$  inch, thus bettering the record of 188 feet  $5\frac{5}{8}$  inches made by George E. Bronder, Pennsylvania, 1924, the previous year.

Once more California's supremacy was in the field events. In fact, this team's total of  $36\frac{1}{2}$  points in six field events would have been sufficient to win without the three points which represented its work on the track.

All of the events were exceedingly well contested. The 100-yard dash was won in  $9\frac{4}{5}$  seconds. The winner, Harold B. Lever, Pennsylvania, 1923, ran all three heats in  $9\frac{4}{5}$  seconds. In the pole vault Alan Norris, California, 1923, and Benjamin F. Owen, Pennsylvania, 1925, tied for first at 12 feet 9 inches. The running broad jump was notable for the fact that all five point winners cleared 23 feet. The winner, W. A. Comins, Yale, 1924, made a leap of 24 feet 4 inches, just one-half inch less than the intercollegiate record.

Splendid weather conditions featured both days. About 7000 persons were present for the finals on Saturday. The meet was managed by Richard J. Kearns, Pennsylvania, 1923.

## 100-YARD DASH

With a margin of a yard and a half, Harold B. Lever, Pennsylvania, 1923, won the final heat of this event in 9.8 seconds. With such consistency did Lever perform that he ran both of his previous heats in the same time. In the final he was first off the mark and had a lead of a yard at the half-way mark. This he increased slightly in the last 50 yards. Lewis Clarke, of Johns Hopkins; J. Alfred LeConey, of Lafayette, and Frederick Lovejoy, of Cornell, were closely bunched for second, third and fourth places. Chester Bowman, of Syracuse, was fifth.

## 440-YARD DASH

Eight men lined up in the final heat for the quarter-mile run. There was a battle between Woodring and the other four point winners to reach the curve first. Woodring was obliged to run wide, but in the home stretch his sprinting powers enabled him to take the lead, although he beat Taylor, of Princeton, by only a yard. Clifton H. Stowers, of Williams, edged into third place ahead of C. G. Gage and G. W. Chapman, both of Yale, who were fourth and fifth. The time was exceptionally fast, 48.2 seconds.

Connolly was outprinted in the last 200 yards and Kirby won by thirty yards. Douglas was third, with Elmer E. Sanborn, M. I. T., fourth and C. W. Webster, Princeton, fifth.
