

MAGAZINE AND NEWSPAPER ARTICLES IN THE COLLECTION OF P
PLATO J. YANICKS

For the past twenty years (1945-1965), I have collected newspaper and magazine articles of interest on a wide variety of subjects. These articles come from many different sources, but in the main are from the following publications:

1. Life Magazine
2. Look Magazine
3. Post Magazine
4. Time Magazine
5. U.S. News & World Report
6. Newsweek Magazine
7. The National Geographic
8. Holliday Magazine
9. The Palo Alto Times
10. The S.F. Examiner
11. The S.F. Chronicle
12. The News-Call Bulletin
13. The Oakland Tribune
14. The Redwood City Tribune
15. The Readers Digest

There are several reasons for the collection: (1) articles of interest are hard to throw away; (2) articles that can be used for future reference are saved for use in preparing debates and discussions; (3) Many articles are beautifully illustrated and are truly collectors items; (4) It takes less room to save articles than entire magazines; (5) articles on almost any subject can be easily found filed in a folder, contrasted to having to thumb through many magazines to find a reference article. (6) Many of the articles would be exceedingly hard to find in textbooks or in public libraries. Thus they constitute a unique source of information. (7) The articles can be used by school children for reports and supplemental reading.

The articles are on loan to anyone who is interested in using them. All I ask is that they be returned, and kept in good condition.

The list of folders on various topics is as follows:
