

STANFORD UNIVERSITY
Track and Field Teams TRAVEL

The Indians compete in all the leading relay meets on the Pacific Coast and often in other sections of the country. **Stanford** always sends a team to the National Collegiate Athletic Association Championships, regardless of where they are held. The Indians appear regularly in Pacific Coast cities, from the Northwest to Southern California. **Stanford** takes full teams to practically all events and travels **FIRST CLASS**—providing the best travel and hotel accommodations.

In spite of the time spent on track and field and in working to defray expenses, **Stanford** track and field athletes find the time to maintain as high scholastic averages as non-athletes—and sometimes higher ones.

And

In difficult courses, too. For instance, here is the breakdown, by major subjects, of the thirty-three men on the 1958 squad—11 Engineering (6 Electrical, 3 General, 1 Industrial, 1 Civil), 8 general studies, 5 Economics, 3 Education, 2 Law, 1 Business Administration, 1 Medicine, 1 History, 1 Physics.

And

Approximately eighty-five per cent of the track and field athletes who register as freshmen at **Stanford University** go through to graduation.

CLYDE JEFFREY, former holder of the world's record in the 100-yard dash, and a member of a Stanford mile relay team which set a new world mark. This was the second Indian mile quartet which broke the record. Jeffrey is now a County Probation Officer.

CHUCK COBB, one of the finest high hurdlers in track and field history and also a very good low hurdler. He set the All-Time Stanford University record of 13.9 seconds in the highs, in 1958. The old mark had stood for twenty-three years. Cobb graduated in Economics.

Your Future in
TRACK AND FIELD
at
STANFORD UNIVERSITY

PAYTON JORDAN, famed internationally for developing champions who have set countless records. Has put more color and drama into his meets than any other coach, and has done more to popularize his sport.

If you are looking forward to an Education which will prepare you for a successful career in a Profession or Business

and

The opportunity to compete in Track and Field under one of America's greatest coaches

STANFORD UNIVERSITY

Should be your first interest

At **STANFORD**, you are assured of training which will equip you to be a leader in your chosen field

and

You will have the chance to be a member of COLORFUL, FIGHTING, AND WINNING TEAMS. You will become part of a great track and field tradition and follow in the footsteps of some of the greatest stars in the history of the sport.

Although still a young man, Payton Jordan has eighteen years of coaching experience behind him. He has developed world record holders, Olympic Games stars, national and sectional champions in large numbers. His athletes have set countless records of one kind and another. In his first two years at

Stanford, Payton's stars broke six All-Time Indian marks.

An all-around athlete in his competitive days, Jordan set and helped set several world and national records. He is famous for the tremendous team spirit which he develops

in what is considered an "individual" sport by many. His great technical knowledge, keen analytical mind, and brilliant coaching methods, enable him to bring his athletes to heights they never dreamed possible.

Although Payton is a believer in hard work and near-perfect physical conditioning, his men enjoy their practice sessions. The color and drama which he puts into his teams' meets is unequalled. Payton, through the use of original procedures and equipment, stages meets which are thrilling both to his athletes and the large crowds (some of America's biggest) they draw.

Jordan, who writes many articles and books on his sport, is unable to accept all the invitations he receives to make public appearances, and has presented a great many clinics throughout the United States and abroad. In the summer of 1958, he was associate coach of the American track and field team which went to Russia, Poland, Hungary, Czechoslovakia, and Greece.

BOB MATHIAS, one of the greatest athletes in the history of competitive sports. He won the Olympic Decathlon Championship in 1948 and 1952 and twice set world's records for this event. Mathias also was a star full-back on the 1951 Stanford football team which played in the Rose Bowl. He is a successful radio, television, and motion picture actor; and lecturer.

What is the History of Track and Field at STANFORD UNIVERSITY?

Since the Indians started track and field in 1893, they have developed more than twenty world record holders, many Olympic Games stars, national champions (team and individual), and set countless regional marks.

STANFORD

Has a winning margin over every traditional opponent except one and that rival leads by a single meet.

Track and field facilities at **Stanford** are unsurpassed. There are two complete track and field layouts—Angell Field, where most practice sessions are conducted; and **Stanford Stadium** where meets are held; in addition to a beautiful cross-country course. Many world records have been set, both on Angell Field and in **Stanford Stadium**, which seats 90,000. The equipment used in staging meets is the most modern in existence. Shower and locker facilities are outstanding. The Indians have varsity and freshman track and field teams, which compete in about twenty-five meets each year.

Equipment and personnel for the care and prevention of athletic injuries are the best. No expense is spared to get and keep **Stanford** athletes in top condition.

BEN EASTMAN, who broke world records in the middle distances several times and was an Olympic Games star. One of the marks which Ben smashed, in the 440, had stood for sixteen years. He also was a member of a Stanford mile relay team which set a new world record. Eastman is the owner of a wholesale equipment business.

BUD HELD, for eleven years (1948-58), one of the greatest javelin throwers in the world. Four times National A.A.U. Champion and three times winner at the National Collegiates. Held broke the world's record three times with marks of 270 feet, 266 feet 2½ inches, and 263 feet 10 inches. Still an active competitor, Bud is a minister.
