ISRAEL 1971 - DATA ON TRACK & FIELD

Compiled by Uri Goldbourt

Although athletic activity in Palestine dates back to the 1920's accurate and complete annual information was not compiled till 1969.

During the last two years considerable improvement took place in this respect. This is the first ^{English} version of annual statistics on track & Field in Israel.

The American ^{and} European reader should bear in mind, that the Israeli season extends from October through July (with few athletes competing internationally in August and September) Thus the lists for 1971 are not completely identical with those for the season 1970/1.

ISRAELI RECORDS 1.1.1972
