Dear *Plato*

I am taking this opportunity to extend to you my personal thanks for all your help in making the third annual International Prep Invitational a great success.

This year's meet was attended by 8,200 fans, a new record, and they were rewarded with four new meet records. The athletes came from 35 states and four foreign countries.

Our top competition was only possible because of people like yourself who were kind enough to recommend top athletes in your area for consideration. We are going to hold the fourth annual International Prep Invitational tentatively on Saturday, June 14th, 1975 and hope that you will help us again next year.

Once again, thanks for your help. We shall always be grateful. We are enclosing a souvenir program and the final meet results for your pleasure.

We'll be in touch around February of 1975.

Respectfully,

Joe Newton
