Correction:

NAT. INV., C.P., MD., Jan 14-2m, 6. Malley, PaSt, 8:39.8

I've noticed on page 18 that Kevin Byrne's Millrose time may look like 4:00.0 on some copies. The correct time, of course, is 4:08.0. Sorry about any other printing errors, but I'm still learning how to run the mimeo I have.

You may have noticed in the two previous issues that I am not rounding times up in the longer races. I'm following the same policy that TRACK AND FIELD NEWS and the IAAF are using this year. Also, I've been at some meets where the timers have digital watches and are rounding off the times improperly. If the time is 6.34, for example, they are crediting the runner with a 6.3 instead of the correct 6.4. The only time when you should round down is when fully automatic timing is available.

Villanova's loss in the Millrose 2mr was their first at Mad.Sq.Garden in 4 years...Kevin Price's 46.6 split at the Princeton R. is believed to be the fastest ever at Jadwin.If anyone is aware of a faster one,let me know.Also if you spot any mistakes in the meet summaries or performers list,please send the correct info to me...the DMR at Princeton was super,good splits all around,great competition on the anchor miles and will probably wind up faster than the NCAA race...if there's a check mark on your mailing label,that means I haven't recieved payment yet. Hopefully,the invoice on the front is what a lot of you coaches have been waiting for before sending your money. ...in future issues I will identify the schools that are eligible for the IC4A meet,list top relay splits and will eventually have a top-50 list in each event.Next issue scheduled to be mailed Feb 16.
