June 12,1991

To: Corporate Cup Captains

Subject: Results From June 8,1991, Rocky Mountain Corporate Cup Track Meet.

Attached are the results of the June 8,1991, Rocky Mountain Corporate Cup track meet. Last year we used the computer program from Radar Timing Services in California for our results in conjunction with last year's nationals held in Boulder. Mike Krell said he would write a program for us to use this year and, "he did". Since this was the first time that this program had been used, I was amazed. Everything worked! Labels were printed on the road race bibs, field event calculations were performed, all of the road race results were generated, and of course, the attached package of overall results were generated. The package looks great!

All in all, the meet went pretty well. We had to change the road race location again, we didn't have a rake for the long jump, the sound system was left in Denver, and there were a few other minor problems. It was most disappointing that more Division II teams did not participate.

Here are a couple of thoughts for next year. Move the event to Denver (e.g. Hinkley in Aurora), and reduce the number of events for Division II. We also need to figure out how to expand our number of teams in both divisions. (Our current mailing list has about 50 companies on it.)

Let me know if you have any thoughts about these items in the previous paragraph. Call me on 779-4042.

This package is only being sent to one person per team, so please make copies for other members of your team that may need this information.

Thanks for your help and participation,

Dave Krell
