"f" denotes electronic full automatic timing also called FAT.

"h" denotes hand timing, which is less accurate.

Add 0.24 secs to hand times for sprint events < 400m and 0.14 secs for 400m sprint events to achieve equivalent fully automatic time per CIF rules.

Either timing is considered essentially identical for events >400m, although FAT is more accurate.

If no "f" or "h" noted, the time was FAT/electronic.
