WELCOME

It is a special honor to welcome the many outstanding athletes and other representatives from more than one hundred institutions who have come to Williamsburg to participate in the 1970 NCAA Cross Country Championships. As the nation's second oldest institution of higher learning, and the Alma Mater of Jefferson and so many other distinguished leaders who founded this nation, the College of William and Mary feels especially privileged to host this first national cross country competition ever to be held in the Commonwealth of Virginia.

Speaking for the College and our good friend and neighbor, Colonial Williamsburg, which has cooperated so helpfully in arrangements for this competition, I cordially invite you to visit the many wonderful historic sites in the Williamsburg area. The College welcomes the opportunity to render any service it can in making your stay a pleasant and enjoyable experience.

NATIONAL COLLEGIATE ATHLETIC ASSOCIATION CROSS COUNTRY CHAMPIONSHIP
TEAM-SCORING SHEET

[illegible]

RULES: N.C.A.A. rules are followed. In this meet a college cannot run more than seven men on its team. For a college to count in the team score, at least five runners of its team must finish the race.

TEAM SCORING: 1. To get team scores from the list of individual places, scratch off all runners of colleges that show less than five men to finish the race.

2. Starting at 1 for the runner now at the top of the list, re-number all the remaining runners in the order they finish the race.

3. A team's score is the total of the places of its first five runners on this re-numbered list. Like in golf, low score wins.

COMMENTS: In college cross country scoring, each team, as noted above, has the privilege of running a full seven man squad. The method of scoring creates an inducement for each runner in the race to perform his best. For, even though only the first five members of a team to finish the race make up the team's score, the remaining runners on the team have a chance to improve their team's standing by forcing opposing teams to higher scores. They do this if they can manage to come in ahead of any of the first five runners of any opposing team since by so doing they force these runners farther back in the order of finish.
