Lynbrook did not enter a team in the Novice or Varsity division

Congratulations to Greg Kato and Nate Lee for winning their races. Their times for the overall standings were fast enough to place in the top 20. Fortunately we got through this race without any injuries as this course was full of tree roots and pine cones to trip over..... This meet had a non-traditional format, as it had 15 separate races, the first race for the 15th best on each team, next race for the 14th best, etc. with the winner of each race receiving an award. Team awards were given for the top 3 teams in the Novice division (Races 11-15), JV (Races 6-10) and Varsity (1-5) based on the combined places in those races. Also awards were given to the top 20 overall times. Large schools were divided in half by alphabetical order of the entrants names. So this format gave all the entrants a good chance of getting an award.
