Hill's e-mail to Conning on Dec. 24: "I had a nagging injury that started right after the CCS meet. Last week it was diagnosed as two stress fractures, one in the fibula and one in the tibia. I probably should not have run at Foot Locker, but I thought at that point that it was a muscular injury and that I should take a shot at making top eight. Either way, I have had a terrific season—it has been almost like a dream—and I am very happy with it."
